THE NIGHT BEFORE

There is an important list of things you should do before the exam to improve your score and your state of mind.

➢ Relax – Relax – Relax

➢ Eat a good normal dinner.

➢ Some test-takers go out to get their minds off the exam. Others feel better with a last minute review of difficult concepts.

➢ Plan ahead for travel for difficulties: Better ½ hour early than 1 minute late.

➢ Know where you put your test kit.

➢ Get a good night’s rest.
