College of Agriculture and Human Sciences

# Artificial Insemination Workshop

The International Goat Research Center will conduct an Artificial Insemination (AI) clinic on **Thursday, September 15.**

This class will teach the theory of AI and provide opportunities to practice your technique on live animals. The class will also cover the physiology of reproduction, synchronization programs, and provide health and management information to help insure the success of your AI program.

Registration fee is \$75.00 and space is limited to 10 participants.
