This assignment requires students to be able to:

- Demonstrate application of current research and best practices, as discussed in the text and in course discussions/lectures, in the development of classroom rules, rewards, consequences, and procedures that are age-appropriate and developmentally appropriate.
- Demonstrate an understanding of the importance of communicating the teacher's commitment to student achievement, as well as emphasizing the students' roles and responsibilities in the learning process.
- Demonstrate an understanding of the grading system, and how to communicate that system to students and parents.
- Demonstrate an understanding of the importance of anticipating and implementing procedures that are necessary for the successful day to day functioning of the classroom.
- Demonstrate understanding of the importance of utilizing "Getting to Know You" activities in order to gain knowledge of students' interests, differences, likes, and dislikes.
- Demonstrate an understanding of the importance of soliciting parental support to enhance student success.
- Demonstrate mastery of the Texas Technology Application Standards for Beginning Teachers by using Power Point as a teaching tool, including appropriate use of fonts, graphics and slide design.
