Fourth-generation Intel processors and graphics.

Even demanding computing tasks are made easier thanks to fourth-generation Intel Core processors and Intel HD Graphics 5000. Whether you're editing photos, perfecting a presentation, or just browsing the web, everything moves faster.

Fast all-flash storage. Up to 512GB.

Combined with the Intel Core processors, PCIe-based flash storage allows MacBook Air to start up in just one second, and makes everything you do snappier and more responsive. And standard models come with 128GB or 256GB. ¹

Powerful apps for creativity and productivity.

Right out of the box, you can edit photos and videos, compose music, create presentations, and more. Built-in apps also let you do everyday things like check your email, make FaceTime video calls, and browse the web.

1. 1GB = 1 billion bytes and 1TB = 1 trillion bytes; actual formatted capacity less.
2. Testing conducted by Apple in March 2014 using preproduction 1.4GHz dual-core Intel Core i5–based 13-inch MacBook Air units and preproduction 1.4GHz dual-core Intel Core i5–based 11-inch MacBook Air units. The wireless web test measures battery life by wirelessly browsing 25 popular websites with display brightness set to 12 clicks from bottom or 75%. The HD movie playback test measures battery life by playing back HD 720p content with display brightness set to 12 clicks from bottom or 75%. The standby test measures battery life by allowing a system, connected to a wireless network and signed into a Cloud account, to enter standby mode with Safari and Mail applications launched and at system settings left at default. Battery life varies by use and configuration. See www.apple.com/batteries for more information.
3. Weight varies by configuration and manufacturing process.
4. Based on an IEEE 802.11ac draft specification. Wireless Internet access requires a base station or other wireless access point and internet access; fees may apply.
5. Pages, Numbers, and Keynote are free on the Mac App Store for qualifying Mac computers purchased on or after October 1, 2013. OS X Yosemite required. Downloading apps requires an Apple ID.
6. PVC-free AC power cord available in all regions except India and South Korea.
7. MacBook Air achieved a Gold rating from EPEAT in the U.S. and Canada.
