</table>
DUAL IDENTITY: Design a building that clearly expresses two major tenants: Business and Agriculture within a singular building composition that is "owned by all".

NO BACK DOOR: Create a building that is approachable from all sides, yet has clear major entrances.

INDOOR / OUTDOOR: Use transparency to dissolve the envelope between the interior and exterior spaces so that activity is expressed and visible to the larger University family.

CAMPUS CONNECTOR: Establish "common ground" by using the building to knit together the diverse campus fabric. Provide spaces for interdisciplinary collaboration, learning outside the classroom and social gathering to promote connections between the Prairie View A&M community.

ROOTS AND WINGS: Tie the building to Prairie View's cultural history and place, while creating an image that is forward looking and aspirational.
GUIDING PRINCIPLES

EXPRESSED VALUES: Create a welcoming visual icon for Prairie View A&M that conveys its mission and personality.

ORGANIC AND FLEXIBLE: Provide a framework for long term growth with a state-of-the-art facility that is functional, flexible and expandable.

SET THE BAR: Communicate the value of education and the institutional commitment to bring people to opportunity through high quality design and materials.

SUSTAINABILITY: Demonstrate environmental and economic sustainability, reflecting the University’s role as stewards of health, energy, materials, and resources.

CENTER-POINT: Visually celebrate the geographic location of the building by creating a clear central place of intellectual and social activity.
