Using data (surveys, interviews, focus groups, tests, et cetera) please provide the following information:

1. Based on data (surveys, interviews, focus groups, et cetera), what do you know about student learning and/or service delivery? Summarize your Forms A-1s and / or A-2s.

   - **Student Learning:** Based on an overview of program requirements and an assessment of program rigor, the following changes were made:
     o Faculty within the department reviewed the national technology standards for educators to initiate a preliminary alignment of desired core curriculum outcomes.
   - **Service Delivery:** Analysis of customer satisfaction surveys to determine overall satisfaction with customer service delivery in the department.

2. Based on question # 1 above (surveys, interviews, focus groups, et cetera), what will you do to improve student learning and / or service delivery? Include outcomes, strategies, measure(s), targets, and cycle.

   - **Student Learning:** Implementation of mandatory curricula alignment with national technology standards for educators.
   - **Service Delivery:** Adjust service delivery options based on data analysis of customer inputs.
