| Learning activities do not develop the objectives. Sequence of activities is illogical and inaccurate. No checks for understanding of skill or concept. | Learning activities do not provide for development of all of the objectives and some do not relate to the objectives. Some learning activities are not well-explained and the sequence is somewhat confusing. Checks for understanding of skill or concept are present but not effective. | Learning activities related to all but do not develop all objectives thoroughly. Most learning activities are well-explained and logically sequenced. Provides checks for understanding of skill or concept; some are incomplete or inadequate. | Learning activities directly relate to and develop the learning objectives thoroughly. Learning activities well-explained and logically sequenced. Provides checks for understanding of skill or concept. | Score: ____  
Comment: |

| Concluding Activity Closure | No attempt at closure.  
Closure is attempted.  
Closure revisits most of the important points, gives students the opportunity to get some clarification, and solidification of learning.  
Closure revisits the important points, gives students the opportunity to get clarification, and solidify learning. | Score: ____  
Comment: |

| Technology | Fails to incorporate technology when appropriate for the content.  
Provides for the incorporation of technology when appropriate but provides no development of its use.  
Provides for incorporation of technology when appropriate; more development is needed.  
Effective incorporation of technology when appropriate for the content. | Score: ____  
Comment: |
| Adaptations | Does not attempt to use strategies to provide for various learning styles/needs. Does not attempt to use strategies to provide support for diverse learners. | Attempts to use strategies that support different learning styles/needs, but does not provide for effective implementation. Attempts to use strategies to differentiate instruction and provide support for diverse learners; strategies employed are inappropriate or not effectively implemented. | Strategies used provide some support for different learning styles/needs. Uses strategies to differentiate instruction and provide support for some of the diverse learners. | Uses strategies effectively to provide support for different learning styles/needs. Uses strategies to effectively differentiate instruction and provide support for diverse learners. | Score:_____ |
| Assessment | Assessment tools/student products are not identified. No provisions for assessment of student mastery of the objectives. Absence of assessment provides nothing on which to base subsequent instruction. No provisions for assessment of student mastery of the objectives. Absence of assessment provides nothing on which to base subsequent instruction. | Assessment tools/student products have been identified but students have been provided only meager input in the procedure/development to enable them to produce the products. Assessment tools/student products do not measure adequately student mastery of all of the objectives. Evidence of learning gathered will provide little information on | Assessment tools/student products identified and input needed to enable students to produce them is attempted in the procedure/development. Assessment tools/student products measure student mastery of most of the objectives. Evidence of learning gathered will provide some | Assessment tools/student products identified and input needed to enable students to produce them is provided in the procedure/development. Assessment tools/student products measure student mastery of the objectives. Evidence of learning gathered will inform instruction on an ongoing basis. | Score:_____ |
