(I sincerely apologize should you received this e-mail multiple times.)

Dear Colleagues across the globe, wherever you are, greetings,

Just like you, my colleagues and I at AAM community are concerned about the Coronavirus, COVID-19, pandemic. All of you who have been infected by this unknown virus are in our thoughts and we keep you in our prayers. We wish you fast recovery. Others, we are sure that your first priority is to focus on what matters most — caring for your family's health and safety. We hope you keep being safe and wish you to stay healthy and have your normal lives back soon.

As we try to keep our lives normal, we continue serving our profession while we are in care of the health of our loved ones. In that line, it is with great pleasure and pride that I inform you of the availability of *Applications and Applied Mathematics: An International Journal* (AAM)'s **Special Issue No. 6**, **Proceedings of**

2nd International Conference on Mathematical Modeling, Applied Analysis and Computation
