(I sincerely apologize should you received this e-mail multiple times.)

Dear Colleagues across the globe, wherever you are, greetings,

Once again, it is with great pleasure and pride that I inform you of the availability of **AAM Volume 15, Issue 2 (December 2020)** of *Applications and Applied Mathematics: An International Journal* (AAM) at the end of its 15th year of existence**.** This volume, with attached Table of Contents contains **43 papers and 776 pages.** With this issue, we end the year with a **total of 81 articles and a total of 1448 pages** of quality papers, peer-reviewed and in all mathematical sciences, statistics, operations research, physics and engineering**.** This Issue, as others can be viewed at **http://www.pvamu.edu/aam.** Special Issue No. 7 was published in March 2020. The next regular issue will appear in the AAM's 16th year in June of 2021.

To strengthening the credibility of AAM and to prevent plagiarism, AAM is using the **Turnitin software** as part of its review process. Manuscripts with rates higher than 25% of duplications are being rejected. Thus, with this task and pre-review of manuscripts, a high percentage of arriving manuscripts are rejected before going to full review. This will enhance the processing times of the AAM staff and reviewers. Please be informed that, currently, publication in and access to AAM is free of charge and the contents from AAM publications are included in and/or indexed by (in alphabetical order):

1. **American Mathematical Society, Mathematical Review** (**MathSciNet®**),
2. **Cabell Publishing, Inc.,** Cabell's International,
3. **CPM,** Current Mathematical Publications,
4. **EBSCO** (http://www.ebscohost.com/) **information products**,
5. **ESCI, Emerging Sources Citation Index**, **Clarivate Analytics products**, (http://wokinfo.com/media/pdf/ESCI_Fact_Sheet.pdf?utm_source=false&utm_medium=false&utm_campaign=false/),
