Applications and Applied Mathematics: An International Journal (AAM)

Vol. 18, Issue 1 (June 2023), 363 pages

June 16, 2023

(I sincerely apologize should you received this e-mail multiple times.)

Dear Colleagues across the globe, wherever you are, greetings,

It is with great pleasure to inform you of the availability of **Volume 18**, **Issue 1** (June 2023) of *Applications and Applied Mathematics: An International Journal* (AAM) in its 18th year of existence. This volume, with attached Table of Contents, contains **20 papers with 363 pages** of quality papers, peer-reviewed and in all mathematical sciences, statistics, operations research, physics and engineering. This Issue can be viewed at <u>https://www.pvamu.edu/aam/previous-issues/volume-18-issue-1/</u>. The next regular issue will appear in December 2023.

To strengthen the credibility of AAM and to prevent plagiarism, AAM is using the **Turnitin software** as part of its review process. Manuscripts with rates higher than 25% of duplications are being rejected. Thus, with this task and pre-review of manuscripts, a high percentage of arriving manuscripts are being rejected before going under full review. This will enhance the processing times of the AAM staff and reviewers. Additionally, under new AAM policy, no part of any published material, such as definitions, theorems, lemmas, and propositions, of other authors already published in books and journals is allowed to be included in a submitted manuscript. However, contents of such materials could be presented in a paragraph with proper citations. Please be informed that, currently, publication in and access to AAM is free of charge and the contents from AAM publications are included in and/or indexed by (in alphabetical order):

- 1. American Mathematical Society, Mathematical Review (MathSciNet®),
- 2. Cabell Publishing, Inc., <u>Cabell's International</u>,
- 3. CPM, Current Mathematical Publications,
- 4. EBSCO (<u>http://www.ebscohost.com/</u>) information products,
- ESCI, Emerging Sources Citation Index, Clarivate Analytics products, (<u>http://wokinfo.com/media/pdf/ESCI_Fact_Sheet.pdf?utm_source=false&utm_medium=false&utm_cam_paign=false/</u>),
- 6. JIFACTOR, The Journal Impact Factor, (<u>http://jifactor.org/index.php</u>),
- 7. Universal Impact Factor (http://uifactor.org/JournalDetails.aspx?jid=232),
- 8. Zentralblatt MATH (https://zbmath.org/journals/?s=0&c=100&q=AAM),

Special thanks goes to Dr. Aliakbar M. Haghighi, as he continues to work tirelessly aiding with the peer-review process and overall management of the AAM. His diligent work and efforts make this journal as successful as it is, and he continues to oversee the future success of the journal.

I want to congratulate all contributors and Editorial Board members for their help in the various parts of publishing processes of the AAM. A special "thank you" goes to the reviewers of the journal, as so much of what makes the journal successful is their work in ensuring the quality of the papers the AAM accepts and publishes is of the highest quality. I also want to thank the Associate Editors, Dr. Dimitar P. Michev, Dr. Jian-ao Lian, and Dr. Indika R. Wickramasinghe, for their role in maintaining the journal's operations. Everyone listed shares in the success of the journal. I continue to look forward to working with everyone involved as the journal moves into its 18th year.

The AAM prides itself on being an open-access journal. The AAM is free for authors to publish in, and it is free for readers to read the published articles. Articles undergo a single-blind peer review process, with at least two reviewers per manuscript from inside or outside the Editorial Board, in order to ensure the integrity and quality of the manuscript's content.

Sincerely,

alles, Jomes

James R. Valles, Jr.

Valles, Jr., Ph.D. Associate Professor of Mathematics Interim Department Head of Mathematics Department of Mathematics Prairie View A&M University Office Phone: 1-936-261-1983 Office Fax: 1-936-261-2088 *E-mail: jrvalles@pvamu.edu* Web: https://www.pvamu.edu/bcas/departments/mathematics/faculty-and-staff/jrvalles/ Editor-in-Chief of AAM, An International Journal: http://www.pvamu.edu/aam

Table of Contents

Vol. 18, Issue 1 (June 2023) 363 pages

(01) (R2051) G. Ayyappan and G. Archana alias Gurulakshmi

Analysis of MAP/PH1, PH2/2 Queueing Model with Working Breakdown, Repairs, Optional Service, and Balking, 46 pages **PDF** Document

(02) (R1975) G. Ayyappan and S. Sankeetha

MAP/PH(1), PH(2)/2 Queue with Multiple Vacation, Optional Service, Consultations and Interruptions, 33 pages **PDF** Document

(03) (R2053) N. Arulmozhi

Analysis of MAP/PH/1 Queueing Model Subject to Two-stage Vacation Policy with Imperfect Service, Setup Time, Breakdown, Delay Time, Phase Type Repair and Reneging Customer, 33 pages **PDF** Document

(04) (R2052) Erick Sanchez and Dambaru Bhatta

Flow Patterns for Newtonian and Non-Newtonian Fluids in a Cylindrical Pipe, 11 pages

PDF Document

(05) (R1966) Patel Yogeshwari F and Jayesh M Dhodiya

Semi Analytical Approach to Study Mathematical Model of Atmospheric Internal Waves Phenomenon, 16 pages

PDF Document

(06) (R2024) Michel Koukouatikissa Diafouka, Chedly Gélin Louzayadio and Rodnellin Onéime Malouata

A New Weighted Poisson Distribution For Over- and Under-Dispersion Situations, 15 pages **PDF** Document

(07) (R1977) Emad Solouma

On Geometry of Equiform Smarandache Ruled Surfaces via Equiform Frame in

Minkowski 3-Space, 14 pages PDF Document

(08) (R2025) Kianoush Fathi Vajargah, Hamid Mottaghi Golshan, and Fazel Badakhshan Farahabadi

Improving the LDA Linear Discriminant Analysis Method by Eliminating Redundant Variables for the Diagnosis of COVID-19 Patients, 10 pages PDF Document

(09) (R2022) Vijai Shanker Verma, Harshita Kaushik, and Archana Singh Bhadauria

Mathematical Modelling of Tuberculosis and COVID-19 Co-infection in India: A Real Data Analysis on Concomitant Diseases, **16** pages PDF Document

(10) (R1951) Mohammad Aslefallah, Saeid Abbasbandy and Suayip Yüzbasi

Numerical Solution for a Class of Nonlinear Emden-Fowler Equations by Exponential Collocation Method, 13 pages

PDF Document

(11) (R1954) Ashutosh Rajput, Tanvi, Rajiv Aggarwal, Arpana Sharma, Shiv Kumar Sahdev, Manoj Kumar and Jaimala

Fractional Order on Modeling the Transmission of Devastative COVID-19 Infection: Efficacy of Vaccination, 24 pages PDF Document

(12) (R1957) A. Vadivel and C. John Sundar

Some Types of Continuous Function Via N-Neutrosophic Crisp Topological Spaces, 18 pages PDF Document

(13) (R1986) P. Revathi, K. Chitirakala and A. Vadivel

Neutrosophic Soft Contra e-Continuous Maps, Contra e-Irresolute Maps and Application using Distance Measure, 15 pages PDF Document

(14) (R1997) V. Chinnadurai, S. Thayalan and A. Bobin

Distance Measures of Complex Fermatean Fuzzy Number and Their Application to Multi-criteria Decision-making Problem, 11 pages PDF Document

(15) (R1965) K. Jayapandian, O. Uma Maheswari, A. Saivarajan and J. Sathiyaraj Some More Properties on Generalized Double Fuzzy Z Alpha Open Sets, 14 pages PDF Document

(16) (R2026) Süleyman Senyurt, Kebire Hilal Ayvacı, and Davut Canlı

Special Smarandache Ruled Surfaces According to Flc Frame in E^3, 18 pages PDF Document

(17) (R1987) Inderdeep Singh and Manbir Kaur

Hermite Wavelets Method for System of Linear Differential Equations, 17 pages PDF Document

(18) (R2028) Navneet Lamba, Jyoti Verma and Kishor Deshmukh

A Brief Note on Space Time Fractional Order Thermoelastic Response in a Layer, 9 pages

PDF Document

(19) (R2020) Manoj Kumar Singh and Poonam

Dynamical Study and Optimal Harvesting of a Two-species Amensalism Model Incorporating Nonlinear Harvesting, *16 pages* PDF Document

(20) (R2033) Sushil Yadav, Mukesh Kumar and Virendra Kumar

Resonant Curve Due to Perturbations of Geo-Synchronous Satellite including Effect of Earth's Equatorial Ellipticity, 14 pages PDF Document
