Applications and Applied Mathematics: An International Journal (AAM)

Vol. 18, Issue 2 (Dec 2023), 206 pages

December 22, 2023

(I sincerely apologize should you received this e-mail multiple times.)

Dear Colleagues across the globe, wherever you are, greetings,

It is with great pleasure to inform you of the availability of **Volume 18**, **Issue 2** (December 2023) of *Applications and Applied Mathematics: An International Journal* (AAM) in its 18th year of existence. This volume, with attached Table of Contents, contains **12 papers with 206 pages** of quality papers, peer-reviewed and in all mathematical sciences, statistics, operations research, physics and engineering. This Issue can be viewed at <u>https://www.pvamu.edu/aam/previous-issues/vol-18-issue-2/</u>. The next regular issue will appear in June 2024.

To strengthen the credibility of AAM and to prevent plagiarism, AAM is using the **Turnitin software** as part of its review process. Manuscripts with rates higher than 25% of duplications are being rejected. Thus, with this task and pre-review of manuscripts, a high percentage of arriving manuscripts are being rejected before going under full review. This will enhance the processing times of the AAM staff and reviewers. Additionally, under new AAM policy, no part of any published material, such as definitions, theorems, lemmas, and propositions, of other authors already published in books and journals is allowed to be included in a submitted manuscript. However, contents of such materials could be presented in a paragraph with proper citations. Please be informed that, currently, publication in and access to AAM is free of charge and the contents from AAM publications are included in and/or indexed by (in alphabetical order):

- 1. American Mathematical Society, Mathematical Review (MathSciNet®),
- 2. Cabell Publishing, Inc., Cabell's International,
- 3. CPM, Current Mathematical Publications,
- 4. EBSCO (<u>http://www.ebscohost.com/</u>) information products,
- ESCI, Emerging Sources Citation Index, Clarivate Analytics products, (<u>http://wokinfo.com/media/pdf/ESCI_Fact_Sheet.pdf?utm_source=false&utm_medium=false&utm_cam_paign=false/</u>),
- 6. JIFACTOR, The Journal Impact Factor, (<u>http://jifactor.org/index.php</u>),
- 7. Universal Impact Factor (<u>http://uifactor.org/JournalDetails.aspx?jid=232</u>),
- 8. Zentralblatt MATH (https://zbmath.org/journals/?s=0&c=100&q=AAM),

Special thanks goes to Dr. Aliakbar M. Haghighi, as he continues to work tirelessly aiding with the peer-review process and overall management of the AAM. His diligent work and efforts make this journal as successful as it is, and he continues to oversee the future success of the journal.

I want to congratulate all contributors and Editorial Board members for their help in the various parts of publishing processes of the AAM. A special "thank you" goes to the reviewers of the journal, as so much of what makes the journal successful is their work in ensuring the quality of the papers the AAM accepts and publishes is of the highest quality. I also want to thank the Associate Editors, Dr. Dimitar P. Michev, Dr. Jian-ao Lian, and Dr. Indika R. Wickramasinghe, for their role in maintaining the journal's operations. Everyone listed shares in the success of the journal. I continue to look forward to working with everyone involved as the journal moves into its 19th year.

The AAM prides itself on being an open-access journal. The AAM is free for authors to publish in, and it is free for readers to read the published articles. Articles undergo a single-blind peer review process, with at least two reviewers per manuscript from inside or outside the Editorial Board, in order to ensure the integrity and quality of the manuscript's content.

Sincerely,

alles, Jomes

James R. Valles, Jr.

Valles, Jr., Ph.D. Associate Professor of Mathematics Interim Department Head of Mathematics Department of Mathematics Prairie View A&M University Office Phone: 1-936-261-1983 Office Fax: 1-936-261-2088 *E-mail: <u>irvalles@pvamu.edu</u> Web: https://www.pvamu.edu/bcas/departments/mathematics/faculty-and-staff/jrvalles/ Editor-in-Chief of AAM, An International Journal: <u>http://www.pvamu.edu/aam</u>*

Table of Contents

Vol. 18, Issue 2 (December 2023) 206 pages

(01) (R1999) P. Manoharan, S. Pazhani Bala Murugan and A. Sobanappriya

Analysis of a Markovian Retrial Queue with Reneging and Working Vacation under N-Control Pattern, *17 pages* PDF Document

(02) (R2027) Anitta Susan Aniyan and Dais George

A New Class of Pareto Distribution: Estimation and its Applications, 23 pages <u>PDF Document</u>

(03) (R2070) Alphonsa George and Dais George

Poisson-Exponentiated Weibull Distribution: Properties, Applications and Extension, 21 pages

PDF Document

(04) (R2066) Merve Şengün and Cemil Tunç

New Results of Ulam Stabilities of Functional Differential Equations of First Oder Including Multiple Retardations, *15 pages* PDF Document

(05) (R2056) Akinwale Olutimo

Convergence Criteria for Solutions of a System of Second Order Nonlinear Differential Equations, *15 pages* PDF Document

(06) (R2032) Ram Naresh, Sandhya Rani Verma, J.B. Shukla and Manju Agarwal

Modeling the Effect of Sanitation Efforts on the Spread of Carrier-dependent Infectious Diseases Due to Environmental Degradation, *24 pages* PDF Document

(07) (R1989) Nourhan I. Ghoneim and Ahmed M. Megahed

Mixed Convection Slippery Cross Fluid Flow Due to a Stratified Sheet Under the Effect of Radiation Phenomenon, *14 pages* PDF Document (08) (R1992) Hameed Ullah Jan, Marjan Uddin, Arif Ullah, and Naseeb Ullah RBF-PS Method for Eventual Periodicity of Generalized Kawahara Equation, 15 pages PDF Document

(09) (R2030) Şahap Çetin, Yalçın Yılmaz, and Coşkun Yakar Further Result on the Quasilinearization Method for an Initial Value Problem on Time Scales, *12 pages*

PDF Document

(10) (R1960) R. Thangammal, M. Saraswathi, A. Vadivel, and C. John Sundar

Connectedness and Compactness in Fuzzy Nano Topological Spaces Via Fuzzy Nano Z Open Sets, *18 pages* PDF Document

(11) (R1976) Vinod Jangid, Ganesh Kumar, Gaurav Sharama, and Vishnu Narayan Mishra A Novel Approach to Solve Fuzzy Rough Matrix Game with Two Players, 17 pages PDF Document

(12) (R2054) Swarnima Bahadur, Sameera Iqram and Varun

Convergence of Lagrange-Hermite Interpolation Using Non-uniform Nodes on the Unit Circle, *15 pages* PDF Document
