Appl. Appl. Math. (AAM) Vol. 6, Issue 11 (June 2011)

June 22, 2011

Dear Colleagues across the globe, wherever you are, greetings:

Once again, it is with great pleasure that I inform you of the availability of the Volume 06, Issue 11 (June 2011) of the Applications and Applied Mathematics: An International Journal. **AAM** is available online at no charge. The table of contents is attached and may be viewed at **http://www.pvamu.edu/aam**. If you did not receive this e-mail directly and wish to receive e-mail announcements when new issues are published or if you have questions or comments about **AAM**, please send an e-mail to the Editor-in-Chief at **amhaghighi@pvamu.edu**. My apologies for a possible redundancy of the e-mail.

In order to pre-empt a lengthening of the turn-around time that could be caused by a surge in the number of manuscripts submitted and accepted, we have arranged for the current issue to contain **30 papers** (**383 pages**) covering a wide range of topics in applications of mathematics and statistics, which, I believe, you will find them interesting. Our kind Board of Editors' members and other reviewers are always ready and gracious to work with authors to get their manuscripts to the AAM publishable standard. We also caution that final acceptance or rejection of manuscripts after reviews is an integral part of the peer review process and that rejection, in no way, minimizes the professional stature of the author(s). I am deeply appreciative of our Board of Editor's members and reviewers, especially, those who submit extremely in-depth reports that authors can benefit tremendously from. These volunteer and priceless contributions provide great services to the profession.

My gratitude also goes to my faculty, staff and the Office of Institutional Relations and Public Service at Prairie View A&M University for providing the opportunity to get the journal online.

With warmest regards,
Haghighi

Aliakbar Montazer Haghighi, Ph. D.
