The student named above resides in PVAMU On-Campus Housing and is requesting an exemption from the required meal plan based on medical conditions and/or special dietary needs. In order for us to review the request, verification from the student's physician is required.

Exemptions to the meal plan requirement are granted only when the food services program is unable to meet the prescribed needs of the student. No exemption request will be considered without a completed Physician's Statement.

In order to ensure provision of reasonable and appropriate accommodations and services, current and comprehensive documentation is required. It should be submitted on professional letterhead and the qualifications of the examiner provided. A decision will not be made without proper documentation.

For Exemption based on Medical Needs with prescribed dietary restrictions which University Dining Services is unable to accommodate:

Physicians must provide:

- ❖ Detailed Medical Statement.
- ❖ Specific Dietary Needs Outlined

REQUEST FOR EXEMPTION FROM THE PRAIRIE VIEW A&M UNIVERSITY MEAL PLAN

All undergraduate students that reside in on-campus housing at Prairie View A&M University are required to participate in a meal plan. All graduate students residing in on-campus housing are required to participate in the meal point plan.

Prairie View A&M University strongly believes that on campus dining enhances a student's educational experience by providing students an opportunity to develop close and supportive relationships, meet new people, and interact with faculty and staff in a non-classroom environment. Also, on-campus dining promotes health and informed dietary habits.

Because we recognize the different needs of the individual, the university offers a wide variety of dining venues, menus, hours of operation and meal plans. In addition, dining services offers nutritional information and guidance, vegan and vegetarian selections and special assistance with medically prescribed diets.

Exemptions from the required meal plan participation are rare. The decision to exempt a student is made solely on documented health conditions that require special diets that cannot be accommodated by the University's dining services provider.
