## COLLEGE OF BUSINESS

### MSA PROPOSED DEGREE PLAN

The MSA requires a total of 30 semester credit hours (SCH) including 21 SCH of core courses and 9 SCH of electives. A student with a non-accounting undergraduate degree must complete some prerequisite courses with a grade of “C” or greater before he or she can be fully admitted to the MSA program; these courses cannot be used to fulfill the requirements of the MSA degree.

A student whose non-accounting undergraduate program contained subject matter equivalent to that required by the prerequisite courses may be exempted from selected courses. A student may also be exempted through examination or transfer of approved credit. Specific program requirements will be determined during the admission process which includes a complete review of undergraduate transcripts and work experience. A student whose undergraduate program includes some subject content equivalent to the prerequisite courses may be exempted from selected courses. A student may also receive an exemption from specific prerequisite courses through examination or transfer.

### **Notes about elective courses:**

- Elective courses should not be used as a substitute for an MSA core course.
- MSA students may take elective courses from the selection of graduate-level core MBA courses offered through the College of Business. However, these and any course substitutions must be approved by the director of the graduate programs in business and all prerequisites for courses must be satisfied.

### **The Two-C Rule**

A maximum of two "C" grades in core courses (or six SCH) will be accepted toward the graduate degree.

### **Repeating a Course ("C" or lower grade)**

A student may petition to retake a course to improve a grade. Courses with a grade of "C" or lower may be repeated only once.
