June 25: (ePortfolio) Building Your Teaching Portfolio - A Working Session

Learn how to create an online portfolio that documents your professional research and teaching accomplishments. The "e-folio" can be developed toward performance review requirements (including the dossier summary statement), toward promoting and maintaining an online professional presence, or simply toward networking with other professionals in your discipline. After the workshop, you will leave with an e-folio that can be personalized to meet your individual preferences, but also can be tailored to address requirements for professional review. Click here to register: ERS.TAMU.EDU

What to bring:

Laptop with WiFi connection capability

Artifacts you may want to include: photos, documents or other "evidence" to support your teaching and scholarly work

Google account (only if you choose to use the Google platform for your e-folio, but we will demonstrate other options)

When: Wednesday, June 25 (2:00 – 4:00 PM)

Where: MSC 2406B

Facilitated by:

Jean Layne - Center for Teaching Excellence and
Cindy Raisor - Chemical Engineering

For additional information on **ePortfolios**
