

Suxia Cui, Ph.D

Member, Center of Excellence for Communication Systems Technology Research (CECSTR)

Member, SECURE Cybersecurity Center of Excellence

Associate Professor, Electrical & Computer Engineering

Email: sucui@pvamu.edu

Dr. Suxia Cui obtained her Ph.D. degree in Computer Engineering from Mississippi State University and started as a tenure-track assistant professor at Prairie View A&M University in 2003. Her research interests include image processing, computer vision, machine learning, and cybersecurity. Her work is sponsored by US Department of Agriculture, National Science Foundation, Department of Defense, and Department of Education.

Dr. Cui was selected as one of the six XSEDE Campus Champion Fellows in 2020-2021 academic year which expanded her collaboration with University of South Carolina on Computer Vision. She had sabbatical experience at Texas A&M University and faculty summer research experience with Air Force Research Laboratory which enhanced her research in cybersecurity.

Dr. Cui received the Roy G. Perry College of Engineering Outstanding Faculty Teaching Award twice in 2011 and 2016, respectively. She is also the recipient of 2021 PVAMU Faculty Senate Excellence in Service Award.
