

## Office 365 Migration still underway

While we had anticipated completing the migration from G Suite to Office 365 over the winter break, we ran into a few obstacles. The migration is an ongoing process, and during this time you will retain access to your Gmail account.

**We ask that you continue to check your email in both Gmail & Office 365 until we let you know the migration is complete.** We will provide regular updates on our progress.

Review the buttons to review accessing email using the multi-factor authentication.
