Re: Update on Campus COVID-19 Cases

This afternoon, we were informed that a student in University College has tested positive for COVID-19.

The student did not have a roommate and is currently quarantined. In accordance with PVAMU's policy and guidance from the Centers for Disease Control and Prevention (CDC), individuals who have come into contact with the student have been notified and advised to self-isolate. If you were not contacted, you are not at increased risk. We wish this student a speedy and full recovery.

The [CDC](#) recommends measures to help slow the spread of the virus and advises that the best way to prevent illness is to avoid exposure. Continue visiting the university's COVID-19 Update [web page](#) for current information.
