Date: June 7, 2020

Re: Confirmed Positive COVID-19 Case

This evening, we were informed that a graduate mechanical engineering student working in a lab at the Farm Shop has tested positive for COVID-19.

The student returned to campus the week of June 1 and is currently quarantined. In accordance with PVAMU's policy and guidance from the Centers for Disease Control and Prevention (CDC), the Farm Shop will be thoroughly cleaned and disinfected, and individuals who have come into contact with the student have been notified and advised to self-isolate. If you were not contacted, you are not at increased risk. We wish this student a speedy and full recovery.

The [CDC](#) recommends measures to help slow the spread of the virus and advises that the best way to prevent illness is to avoid exposure. Continue visiting the university's COVID-19 Update [web page](#) for current information.
