Viewing Similarity Reports in Turnitin

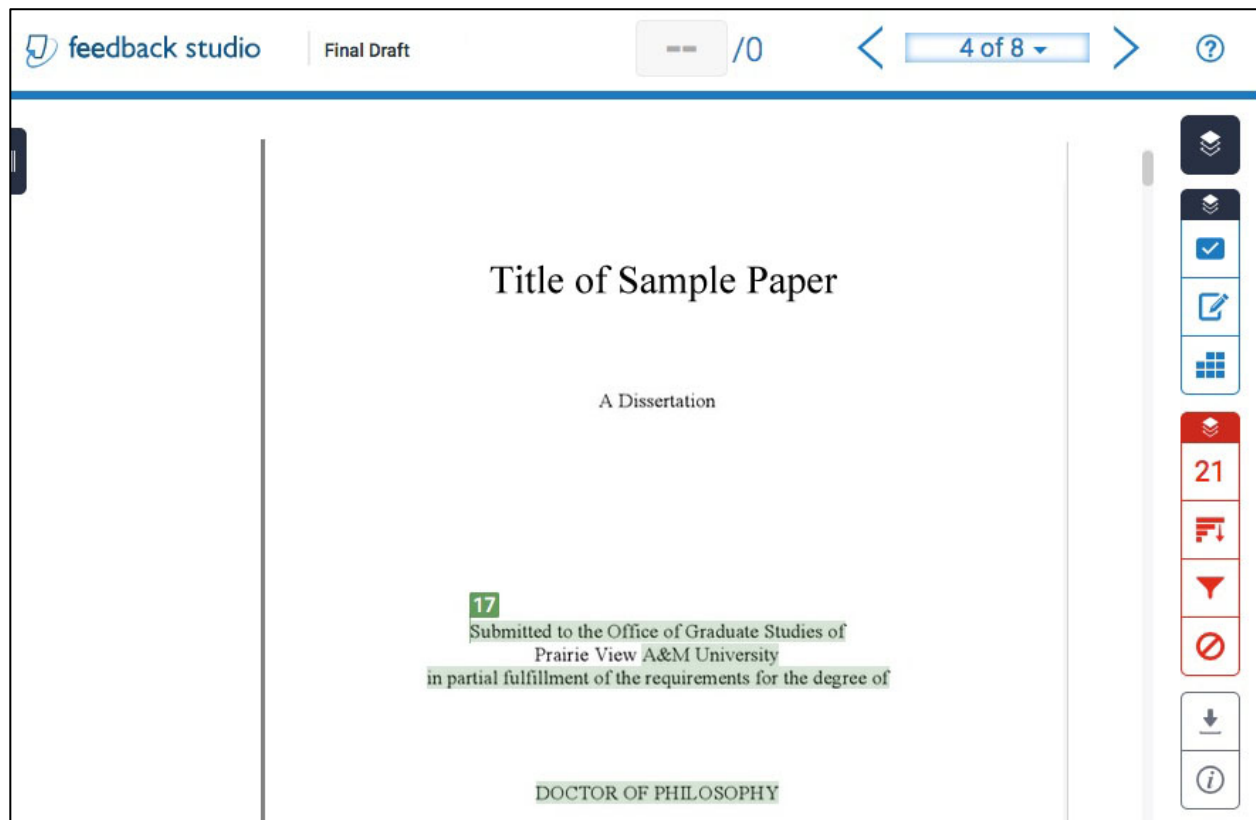

1. On the “My Submissions” page, you should see a table listing your submission name(s), the **Submitted** date(s), a **Similarity** column, a **Grade** column, and a **Comments** column. The down-pointing arrow allows you to download your submission file (see figure below).

| Summary | | My Submissions | | | |
|---|------------------|----------------|--------|----------|---|
| Refresh Submissions | | | | | |
| Submission | Submitted | Similarity | Grade | Comments | |
| sample submission Status: Submission successfully uploaded to Turnitin. | 02/ 10/12, 12:32 | 83% | - /100 | (0) |  |

2. If the information in the Similarity column is PENDING, that means Turnitin is still processing the paper. Otherwise, you should see a percentage in a small box. Example: **83%**. To view the Originality Report, click that number.

Note: Please note that the 83% is not the grade for this paper. That number represents the percentage of the paper that Turnitin finds that matches text from another source. Whether or not it's plagiarized depends on whether or not it's cited. Whether or not that number is too high depends on the maximum acceptable number set by your instructor or department.
