Course Outcomes/Objectives
At the end of this course, the student will

The purpose of this course is to examine and assist doctoral candidates in the development of skills required to expand upon their knowledge and understanding of the development of a district-wide or school-wide program. The variety of options available to P-12 institutions insofar as professional development is concerned reflects an amorphous collection of ideas, practices and anticipated outcomes. It is critical to understand that despite the potential options available to districts and schools,
professional development is an extension of school and district learning that directly impacts the success of all candidates.

To this end, the goals and instructional objectives of this course are:

- To provide candidates with an advanced understanding of the content and nature of professional development activity;
- To develop a rich, conceptual framework for recognizing the importance of professional development, particularly as it impacts school and district learning;
- To familiarize candidates with the continuum of teacher professional growth and how said growth impacts the need for various typologies in implementing professional development.
- To explore the contextual factors that shape professional development;
- To develop and expand upon the prerequisites of leading change in an environment of disequilibrium;
- Assist in the development of advanced skills in critical reading, analytical writing and thoughtful, collegial discussions;

**Course Content:**

- **Critical Reading:** The readings contained in this course include a variety of articles, chapters and our book. There are a wide variety of constructs included in your reading material from educational scholars and practicing teachers and administrators. I encourage you to read interactively as you consider and reconsider the reading material. Be prepared during each class with a set of questions, comments and issues that you identify as you read.

  Focus on the following questions as you engage in your reading:

  *What is the author trying to say?*
  *How has the author constructed the text?*
  *What is the author’s purpose?*
  *How do your own values and experiences shape your response to the reading?*
  *How do the author’s arguments fit within various communities of discourse?*

- **Analytical Writing:** Candidates are required to engage in scholarly writing, with support from your professors. Please remember, analytical writing is a skill that is essential for anyone meeting the requirements of doctoral study (courses, comprehensive examination and dissertation). It is understood that each candidate brings a range of writing strengths. During the course of this semester, it is my objective to facilitate your growth as a scholarly researcher and writer.
**Critical Application/Situated Learning:** Candidates will be required to develop a school based professional development program consistent with the application of theory and raw data.

Note: If you have difficulty obtaining any of the needed resources/learning tools, please e-mail me as soon as possible so that I may assist you.

Course Procedures

Submission of Assignments:
Assignments may be submitted via Moodle, PV Email, or hand delivered with the exception of Research and Reflective Papers! Research and Reflective Papers **MUST** be submitted via **TURNITIN** on Moodle. All designated assignments must be uploaded to Outcomes.

Formatting Documents:
Microsoft Word is the standard word processing tool used at PVAMU. If you’re using other word processors, be sure to use the “save as” tool and save the document in either the Microsoft Word, Rich-Text, or plain text format.

Exam Policy
Exams should be taken as scheduled. No makeup examinations will be allowed except
under documented emergencies (See Student Handbook).

**Discussion Requirement:**

We will participate in conversations about the readings, lectures, materials, and other aspects of the course in a true seminar fashion. We will accomplish this by use of the discussion board.

Candidates are required to log-on to the course website often to participate in discussion. It is strongly advised that you check the discussion area daily to keep abreast of discussions. When a topic is posted, everyone is required to participate. The exact use of discussion will be determined by the instructor. Please do not submit attachments in the discussion zone of Moodle.

It is strongly suggested that candidates type their discussion postings in a word processing application and save it to their PC or a removable drive before posting to the discussion board. This is important for two reasons: 1) If for some reason your discussion responses are lost in your online course, you will have another copy; 2) Grammatical errors can be greatly minimized by the use of the spell-and-grammar check functions in word processing applications. Once the post(s) have been typed and corrected in the word processing application, it should be copied and pasted to the discussion board.

*A rubric for discussion postings is attached.*
**E-FOLD-P (Conceptual Framework)  
(Educator As Facilitator For Diverse Populations)**

- To prepare beginning administrators as problem solvers, critical thinkers, and decision-makers.
- To prepare beginning administrators as facilitators of teacher and student growth and development through understanding of leadership dimensions.
- To provide beginning administrators with an awareness of human diversity and the importance of effective community and parental involvement.
- To prepare beginning administrators to be reflective and continual learners with knowledge and value of self-appraisal techniques and goal setting for a strong personal commitment.
**Closing the Loop**

The Whitlowe R. Green College of Education is the leader of assessment, alignment and accountability. We totally embrace the concept demonstrated in the University’s SACS Reaffirmation – Closing the Loop. All educators should utilize this model when ascertaining what their candidates know, knowledge as to whether or not candidates are capable of facilitating academic understanding through transference and definitively proving that candidates possess the outcomes expressed by the course.

**University Rules and Procedures**

**Disability Statement (See Student Handbook):**
Candidates with disabilities, including learning disabilities, who wish to request accommodations in class, should register with the Services for Candidates with Disabilities (SSD) early in the semester so that appropriate arrangements may be made. In accordance with federal laws, a student requesting special accommodations must provide documentation of their disability to the SSD coordinator.

**Academic Misconduct (See Student Handbook):**
You are expected to practice academic honesty in every aspect of this course and all other courses. Make sure you are familiar with your Student Handbook, especially the section on academic misconduct. Candidates who engage in academic misconduct are subject to university disciplinary procedures.
**Forms of Academic Dishonesty:**

1. Cheating: deception in which a student misrepresents that he/she has mastered information on an academic exercise that he/she has not mastered; giving or receiving aid unauthorized by the instructor on assignments or examinations.

2. Academic misconduct: tampering with grades or taking part in obtaining or distributing any part of a scheduled test.

3. Fabrication: use of invented information or falsified research.

4. Plagiarism: unacknowledged quotation and/or paraphrase of someone else’s words, ideas, or data as one’s own in work submitted for credit. Failure to identify information or essays from the Internet and submitting them as one’s own work also constitutes plagiarism.

**Nonacademic Misconduct (See Student Handbook)**
The university respects the rights of instructors to teach and candidates to learn. Maintenance of these rights requires campus conditions that do not impede their exercise. Campus behavior that interferes with either (1) the instructor’s ability to conduct the class, (2) the inability of other candidates to profit from the instructional program, or (3) campus behavior that interferes with the rights of others will not be tolerated. An individual engaging in such disruptive behavior may be subject to disciplinary action. Such incidents will be adjudicated by the Dean of Candidates under nonacademic procedures.

**Sexual Misconduct (See Student Handbook):**
Sexual harassment of candidates and employers at Prairie View A&M University is unacceptable and will not be tolerated. Any member of the university community violating this policy will be subject to disciplinary action.

**Attendance Policy:**
Prairie View A&M University requires regular class attendance. Excessive absences will result in lowered grades. Excessive absenteeism, whether excused or unexcused, may result in a student’s course grade being reduced or in assignment of a grade of “F”. Absences are accumulated beginning with the first day of class.

**Student Academic Appeals Process**
Authority and responsibility for assigning grades to candidates rests with the faculty. However, in those instances where candidates believe that miscommunication, errors, or unfairness of any kind may have adversely affected the instructor's assessment of their academic performance, the student has a right to appeal by the procedure listed in the Undergraduate Catalog and by doing so within thirty days of receiving the grade or experiencing any other problematic academic event that prompted the complaint.
