CUIN 4443  Student Teach/Special Ed

TOTAL DEGREE – 121 SCH

DEPARTMENT OF HEALTH & HUMAN PERFORMANCE

The purpose of the Department of Health and Human Performance is to allow students to take courses in curriculum, assessment, technology, teaching methods, instructional models and scientific foundation courses such as exercise science, biomechanics and motor learning and development.

This variety of course work provides every student with knowledge about health, physical activities, essential motor skill development, stamina, strength and social qualities that will last a lifetime.

Candidates who complete the program are prepared for teaching and coaching at the elementary and secondary level.

ADMISSION TO TEACHER EDUCATION

As a natural progression through the teacher education program, a student majoring in Interdisciplinary Studies must submit an application for admission into the teacher education program. This is the first checkpoint for teacher candidates on their road to certification.

Admissions applications are accepted three times a year. Students must meet all of the required criteria in order to be admitted to the Teacher Education program.

Once a student has been accepted into the Teacher Education program they are referred to as Teacher Candidates. They are then allowed to enroll in the CUIN professional pedagogy courses listed on their degree plans.

CERTIFICATION TESTING REQUIREMENTS

Teacher Education candidates must pass two (2) state certification examinations in order to be certified to teach: a Pedagogy and Professional Responsibilities (PPR) exam and a Content Area exam for the appropriate subject and grade level.
