

Article Critique-0U9

In ADMN 5003, Fundamentals of Administration students are required to identify

two articles (artifacts) that discuss fundamentals of leadership. After reading the articles students are required to critique the article. The article should contain a Synopsis, Critique (which should include the Domain and Competency) and Implications. The purpose of reviewing an article is to ensure that students can understand the vision of learning, define the culture of teaching and learning, explain the relationship with the broader community to foster learning.

Element	Levels of Performance		
1. Students critique an article	__Target(3) Students are able to critique article and incorporate experiences, identify Domains and or Competencies while writing a discussion of the Implications for principals.	__Acceptable(2) Students are able to critique the article; but, spend too much time on the synopsis rather than the Critique and the Implications.	__Unacceptable(0-1) Students do not include all required sections of the paper.
