Subject: Re: Curriculum Committee Minutes

Dear All:

Many thanks to Dr. Antoine on the minutes of the Curriculum Committee meetings of 6/25 and 6/26/2019. Please review the draft and if you have suggestions on what are missing and/or what need to be changed, please send your suggestions directly to Dr. Antoine on or before Monday, July 15th so that we have a complete picture of the minutes of the meetings to be adopted at the faculty meeting to be scheduled sometime in August, 2019. I also copied below, suggestions from Dr. Osborne-Lee on the curriculum issue discussed with Dr. Gyamerah after the June 26th meeting sent to us by Dr. Gyamerah which will be an ADDENDUM to the minutes of the Curriculum Committee meetings of June 25 & 26, 2019. Thanks.

Emmanuel Dada, Chair, Curriculum Committee

Dear All:

Please note below for your record the corrected version of the ADDENDUM to the minutes of the meeting of Curriculum Committee of June 25 and 26th, 2019. Thanks.

Emmanuel Dada

*** ADDENDUM TO CURRICULUM COMMITTEE MINUTES OF JUNE 25 & 26, 2019 AS CONTRIBUTED BY DR. OSBORNE-LEE VIA DISCUSSION WITH DR. GYAMERAH AFTER THE TWO MEETINGS***

1. ELEG 1043 is no longer a University core requirement. We can therefore, introduce a 2-credit hour course of our own choice taught in the spring semester of the freshman's year, to ensure our students acquire the skills they need in subsequent courses. The new course CHEG 1042 may be given a title such as "Introduction to Chemical Engineering Calculations" or take a look at University of Houston's Computing for Engineers and modify as needed. The course (CHEG 1042) will build on what we plan to teach in CHEG 1021. Topics taught in CHEG 1042 will include MATLAB etc and will be a pre-requisite for CHEG 2043 and CHEG 2053

2. CHEG 3011 will not be an elective course as we discussed but a 1-credit
