

Subject Line: Generic Namely, Design Engineer Co-op Interview- Thank You

Hello Mr. Manager and Ms. Director,

I just wanted to thank you for your time earlier today. It was a pleasure meeting both of you and learning more about GMDC. Our conversation on the various differences between titanium, ceramic, and plastic joint component designs was fascinating.

As we discussed, my background in medical device research and design would be a huge benefit to the team in this role. Additionally, my experience with ISO standards and leadership skills would also be an asset to the team.

Once again, thanks so much for your time and consideration. Working for GMDC would be an amazing opportunity to collaborate with a great team on a product line I'm passionate about.

Looking forward to hearing more about the next steps.

Sincerely,
Generic Namely
