4:30 pm	Office of Risk Management and Safety	Crystal Giles
4:50 pm	Open Forum	
5:00 pm	Adjournment	

Old Business

- **Bylaws Feedback**

New Business

Fume Hood Project:
Facilities will coordinate and confirm with faculty lab access dates to clear affected rooms, clean fume hoods, and move or store equipment and chemicals. We would like to coordinate the choice of initial labs to be completed, coordinate walkthroughs and relocation needs, consider lab purge buttons, and develop a lab layout.

Hobart Taylor:
The design for Hobart Taylor Rooms 1A108 and 1A109 is complete, we are waiting on return bids by October 27 and will begin much needed renovations. This addresses long-standing water incursion and provides a refreshed space for the faculty.

Delco Building:
Faculty and staff continue to express significant concerns regarding recurring flooding, ongoing mold conditions, and the potential long-term health impacts associated with continued exposure. Of particular concern, several faculty and staff members have documented medical concerns that they report are associated with these environmental conditions.

Goat Research Facility:
A contractor working off campus on Owens Road cut a data cable which impacted the Goat Research Facility. We are working to restore their internet, we have positioned a cell-on-wheels (COW) to provide internet and data.

Teaching and Academic Student Support Services (TAS3) Building:
The new building is being turned over to PVAMU on November 10th. At that time, we will begin to move several areas (ie. Career Services, Counseling) into this new building. The areas that become available are being assessed as we speak in coordination with the Provost to determine if new space will be available for faculty and staff.

Announcements

Next Meeting

Date: November 18, 2026

Time: 3:30-5:00 PM

Location:
