

College of Arts and Sciences

ADMINISTRATIVE OFFICER

Gerard Rambally, *Dean*

ADMINISTRATIVE STAFF

A. Anil Kumar, *Associate Dean*

The College of Arts and Sciences offers courses leading to degrees in six departments and one division. The first two years' work is designed to give students a general educational background and to provide the knowledge and intellectual skills required for more advanced studies. During the last two years of college work, students choose a concentration in a major field. Opportunities are available for cultivating related interests and for pursuing electives that do not fall within the field of the student's major.

All freshman and sophomore students in the College of Arts and Sciences, unless specifically authorized by the department head and the dean before registration, are required to follow the prescribed courses as set forth in the catalog. Students should plan their course of study with the department head or advisor and should consult the advisor before each registration period.

INSTRUCTIONAL ORGANIZATION

Department	Major	Degree Offered
<i>Biology</i>	Biology	B.S.
	Medical Technology	B.S.
<i>Chemistry</i>	Chemistry	B.S.
<i>Languages and Communications</i>	English	B.A.
	Spanish	B.A.
	Communications	B.A.
<i>Mathematics</i>	Mathematics	B.S.
<i>Music and Drama</i>	Drama	B.A.
	Music	B.A., B.M.
<i>Physics</i>	Physics	B.S.
<i>Division of Social Work, Behavioral and Political Science</i>	History	B.A.
	Political Science	B.A.
	Social Work	B.A.S.W.
	Sociology	B.A.

COLLEGE REQUIREMENTS

Students pursuing an undergraduate degree in the College of Arts and Science must complete four semesters in a single foreign language unless a substitution is approved. Students may satisfy the language requirement through course work or examination. Credit by examination may be by Advanced Placement (AP) or College Level Examination Program (CLEP).

Major and Minor Requirements

After completion of the sophomore year, all students enrolled in the College of Arts and Sciences should have selected a major. A minor must also be chosen from a department or college of the student's choice. Students majoring in music may graduate without a minor. The selections should be made in consultation with the department head or a designated advisor.

Students must earn a minimum overall grade point average of C in their college work. A specific grade point average may also be required by the department in which the student is majoring or minoring before the student is approved for graduation.

Transfer credits toward the major or minor must be approved by the department head and dean of the college in which the program is located.

Minimum Total Credit Hours for Graduation

Students must complete a minimum of 120 semester hours in order to earn a bachelor's degree. Review requirements for each degree program.

PURPOSE AND GOALS

The curricula of the Department of Biology prepare students for careers as biologists, medical technologists, and biology educators. The department also provides the undergraduate foundation for students who plan to pursue professional studies leading to the doctorate in medicine, dentistry, veterinary medicine, optometry, pharmacy, allied health and biological sciences.

SPECIAL EMPHASIS OPTIONS

In addition to the degree programs listed above, students may select alternate required courses in the major in such a way as to pursue specific career options. Emphasis options are available in pre-medicine, pre-dentistry, pre-veterinary, pre-podiatry, pre-pharmacy, pre-physical therapy, or other allied health professions. Please refer to course listings on the following pages.

The Department of Biology also offers an honors opportunities that prepare students for graduate and health professions schools. The students who pursue honors level academic work are selected for their outstanding academic achievements in high school.

HONOR SOCIETIES AND CLUBS

Beta Beta Beta Biological Honor Society stimulates sound scholarship, promotes the dissemination of scientific knowledge, and encourages investigation in the life sciences. To be eligible for selection, candidates must have a superior scholarship record and have completed at least two courses in biology totaling not less than 10 semester hours, or the equivalent of that number. They must also have completed at least one term of the second year of a four-year curriculum or its equivalent and exemplify high ethical and moral ideals.

Beta Kappa Chi encourages and advances scientific education through original investigation, dissemination of scientific knowledge, and stimulation of high scholarship in the pure and applied sciences. To be eligible for membership, students must be in the upper fifth of their university class and have completed at least 64 semester hours of university work. Candidates for membership in Beta Kappa Chi must have completed 17 semester hours in one of the sciences recognized by the society with a grade average of at least B.

Minority Association of Pre-health Students provides activities through partnerships with near-by chapters of Student National Medical Association (SNMA) to achieve the goal of increasing the matriculation of undergraduate students into professional health related programs by providing information, materials and mentorship opportunities. *The Premedical Club* exists to establish a rapport between the biology department

and medical schools; to establish a better relationship between premedical students and professional schools staff; to provide opportunities for students to visit various health profession schools for tours, chats, and informal lectures; to assist students in becoming test-sophisticated and to strengthen students in the pursuit of culture. The Premedical Club is open to all students interested in a medical career.

The Preveterinary Medicine Club exists to establish a rapport between the Biology Department, Veterinarians and Colleges of Veterinary Medicine; to establish student veterinary preceptorships to provide opportunities for visits to zoos and the College of Veterinary Medicine at Texas A&M University; to become aware of the vast differences in entry requirements for the 27 colleges of Veterinary medicine and to assist students in becoming test-sophisticated. The club is open to all students interested in veterinary medicine.

The Predental Club exists to establish a rapport between the biology department and dental schools; to establish a better relationship between predental students and dental school staff; to provide opportunities for students to visit dental schools; to assist students in becoming test-sophisticated and to strengthen skills of students interested in a dental career.

The Allied Health Club is designed to provide these preprofessional students with an organization for their specific needs. This club enables students interested in physical therapy, pharmacy, medical technology, physician’s assistance, occupational therapy, optometry, dental hygiene, medical record administration, and public health an opportunity to learn about their chosen professions. These students are introduced to professionals in allied health; visit the campus, and hospitals of the various programs; establish relationships with the faculty and other students interested in the medical fields. *The Allied Health Club* is open to all students interested in a health professions career.

The Texas Academy of Science promotes scientific interest among the colleges and universities of Texas. Membership in the academy is open to all science majors of sophomore level or above who maintain a minimum grade point average of 2.00 on a 4.0 scale.

CAREER OPPORTUNITY PROGRAMS

Health Careers Opportunity Program (HCOP). The purpose of the program is to increase the total Texas supply of qualified competitive minority applicants for medical, dental, and veterinary schools. The activities include a summer institute of preliminary education in biology, chemistry, and mathematics for 40 prematriculants; a fall and spring tutorial program; field trips; and test preparation workshops for the MCAT and DAT.

BACHELOR OF SCIENCE IN BIOLOGY DEGREE PROGRAM REQUIREMENTS

Core Curriculum47 SCH

Biology majors are required to complete one semester of Calculus (MATH 1124 or higher). Most students need to pass MATH 1113 and MATH 1123 in preparation for Calculus. Biology majors are also required to complete PHYS 2514, 2511, 2524, and 2521. However, PHYS 2014 and 2024 may substitute for these courses.

College Requirements12 SCH

Foreign Language Electives (one language)

Major Requirements48 SCH

BIOL 1015, 1021, 1025, 1031, 1034, 2054, 3014, 3024, 3034, 3044, 3054, 3064, 3073, 3083, 4014, 4024, 4034, 4042, 4051, and 4061.

Biology students must take the five underlined courses and may select from other courses.

Support Area and Minor Requirements	24 SCH
CHEM 1032, 1033, 1042, 1043, 2032, 2033, 2042, 2043	20 SCH
HUPF 1011 – 2151	4 SCH

Minor Requirements

Students may elect the minor of their choice. They must satisfy the catalog requirement for the selected minor. Biology students that elect chemistry as a minor only need to complete one additional advanced Chemistry course of 4 SCH to satisfy the catalog requirement of 24 SCH in chemistry.

Total Degree Requirements	131 SCH
--	----------------

Requirements for Biology as a Minor Field	26 SCH

BACHELOR OF SCIENCE IN MEDICAL TECHNOLOGY DEGREE PROGRAM

The Medical Technology curriculum of Biology at Prairie View A&M University prepares students for careers as clinical laboratory scientists. The program provides the undergraduate foundation for students who plan to pursue medical Technology Clinical studies leading to the certification and the B.S. degree.

Specific Program Outcome Expectations

Among Annual Recipients of the Bachelor of Science Degree in Medical Technology:

- At least 90% will be qualified competitive applicants for employment in hospitals, government agencies, industry and schools as clinical laboratory scientists.
- Some will establish a company or private business involving research, services, or education laboratory sciences.

DEGREE PROGRAM REQUIREMENTS

Core Curriculum42 SCH
All Medical Technology Core Curriculum requirements are shown in the suggested degree program.

College Requirements12 SCH
Foreign Language Electives (one language)

Major Requirements66 SCH
BIOL 1015, 1021, 1025, 1031, 2054, 3014, 3024, 3034, 3044, 3064; 30 SCH of Medical Technology Clinical Courses

Support Area Requirements23 SCH
CHEM 1032, 1033, 1042, 1043, 2012, 2112, 3011, 3013, 4033, 4042

Total Degree Requirements143 SCH

Clinical Courses30 SCH
St. Elizabeth Hospital
Beaumont, Texas 77704

Students who specialize in medical technology will be eligible to receive a Bachelor of Science degree in medical technology when they satisfactorily complete the approved program and clinical courses offered by the hospital and approved by the Council on Medical Education and Hospitals of the American Medical Association in collaboration with the Board of Registry of Medical Technologists of the American Society of Clinical Pathologists.

Students must enroll for clinical training within the first two weeks of the second semester of their junior year. To enroll, students must:

1. Complete an application form and send it to the School of Medical Technology, St. Elizabeth Hospital, Beaumont, Texas 77704.
2. Secure two official transcripts from the Registrar's Office. One transcript must be attached to the application form. The second transcript should be mailed, with a check for \$10.00, to the National Accrediting Agency for Clinical Laboratory Sciences, 222 South Riverside Plaza, Suite 1515, Chicago, Illinois 60606. This office will evaluate the transcript and notify the appropriate hospital and the applicant of its findings.
3. Secure a letter of recommendation from the head of the Department of Biology or a member of the local Medical Technology Committee subject to the approval of the department head attesting to the character, academic ability, and/or potential of the applicant.
4. Applicants who have submitted all credentials will be invited to the appropriate hospital for an interview with the committee on admission, which is composed of a cross-section of faculty, the teaching supervisor, and the director of the school of medical technology.
5. Upon acceptance to clinical training, students must secure and pay for the required liability insurance.

The 12-month hospital clinical courses qualify students to perform such tests as complete blood count, urinalysis, serological test for syphilis, clinical chemistry, isolation and identification of pathogenic bacteria, and other procedures. The student gains these skills partly through didactic lectures given throughout the year, but principally by repeat performance of the tests under the guidance of a registered medical technologist.

Students are responsible for making their own arrangements for living quarters during the 12 months of Clinical training.

SPECIAL EMPHASIS PROGRAMS

The following electives should be selected to prepare for the specialized fields listed.

Premedicine and Pre dentistry

The minimum requirements for admission to medical or dental school include average scores on the Medical School Admission Test (MCAT) or Dental Aptitude Test (DAT) and the satisfactory completion of 90 semester hours of the premedical or pre dental curriculum with average or better grades.

Candidates for admission are evaluated on the basis of their academic background, ability to succeed in professional school, integrity, psychological stability, motivation, judgment, and resourcefulness. The admissions committee will also evaluate the recommendations of the premedical advisory committee.

Students must apply to medical or dental school by July 1, one year in advance of their expected entrance. They are therefore advised to take the MCAT or DAT by the spring of their junior year. The new MCAT and DAT are given in the spring or fall. Packets containing information needed to register for the tests are available from the chief health professions advisor in the Department of Biology or by writing to:

New MCAT Registration

American College Testing
Program
P.O. Box #414
Iowa City, IA 52240
(319) 337-1305

DAT Registration

Div. of Educational Measurements
Council on Dental Education
American Dental Association
211 East Chicago Avenue
Chicago, IL 60611
(312) 440-2689

The premedical curriculum qualifies students to apply to schools of medicine, dentistry, pharmacy, podiatry, optometry, and graduate studies. The curriculum enables students to complete the MCAT preparatory course by the spring of their junior year. Students are encouraged to attend at least one summer session to ensure completion of necessary courses prior to the summer of their junior year. The biology department conducts a summer academic enrichment program, the Premedical Concepts Institute, which offers incoming freshman the opportunity to earn 10 semester hours of credit in freshman biology. Applications for the summer program may be obtained from the biology department.

Dental School Early Admission Programs

The University of Texas Dental School at San Antonio, Baylor College of Dentistry in Dallas and the University of Iowa Dental School in Iowa City, Iowa have established early admission agreements with Prairie View A&M University. Students may apply for early admission to these schools after completing the first year of the biology curriculum for majors with a 3.0 or higher GPA. Applications may be obtained from the pre dental advisor. The application deadline is October 1 of the student's sophomore year. The dental schools will evaluate each application and make the selections of students for interviews. The dental schools will also award early admission to a limited number of the qualified applicants. The admitted students will participate in pre matriculation programs at the dental schools in the summers of their sophomore and junior years. In the senior year, the admitted students will have dual enrollment at Prairie View A&M University and the Dental School. However, the students will take first year dental school

courses which will satisfy the biology B.S. degree requirements for the senior year of the special curriculum.

Pre-Veterinary Medicine

The pre-veterinary medicine curriculum provides the prerequisites for admission to professional veterinary medicine schools. The curriculum also leads to a Bachelor of Science degree in biology. Students in the pre-veterinary medicine program should apply to veterinary medical school at the beginning of their third year. Students should write to the Office of Admissions of the desired institution for information about specific admission requirements.

Most schools of veterinary medicine require either the Graduate Record Examination (GRE), Veterinary Admission Test (VAT), or Medical College Admission Test (MCAT). It is the students' responsibility to determine which of these examinations is required by the institution to which they are seeking admission.

Requirements in Addition to Biology Degree Requirements	8 SCH
Mathematics: MATH 3003.....	3 SCH
Chemistry: CHEM 4033, 4042.....	5 SCH

Biology Program (Teacher Education)

Biology majors who plan to teach should follow the biology curriculum and the Teacher Certification Program in order to be eligible for certification as a teacher of biology, grades 7-12.

Student teaching is required of all students preparing to teach. Program prerequisites for student teaching should be completed before applying for student teaching. Additional information and the suggested curriculum for the Bachelor of Science degree with a Teacher Education option may be obtained from the biology teacher education advisor in the biology department.

Department of Chemistry

ADMINISTRATIVE OFFICER

Hylton G. McWhinney, *Interim Head, Analytical Chemistry*

FACULTY

Laura Carson-Isabelle, *Polymer Science*

Antoine F. Carty, *Organic Chemistry*

Larry L. Cole, *Organic Chemistry*

Vasant M. Doctor, *Biochemistry*

James E. Mackin, *Geophysical Sciences*

John R. Williams, *Physical Chemistry*

PURPOSE AND GOALS

Chemistry is the study of the composition, structure properties and transformation of matter. All aspects of our lives are affected by chemistry. Our food, clothes, transportation, habitat, medicine and fuel could not be produced, without the discoveries of chemists. The importance of understanding the chemical nature of our environment cannot be overstated, especially as we strive to comprehend issues such as global warming, ozone depletion, and environmental bio-complexity. The need to replace existing industrial chemical processes with environmentally friendly and “green” processes, requires significant efforts from our future chemists.

The B.S. program in Chemistry is designed so that undergraduate students are offered multidisciplinary versatility in the chemical sciences. It is further intended to provide a comprehensive and solid foundation in all the major areas of Chemistry, while offering a good measure of flexibility. The Department provides study and research experience through the participation of undergraduates in cutting edge research, involving the use of modern equipment and individual mentoring and contact with faculty researchers. The B.S. degree prepares students for entering advanced degree programs: Chemistry, Biochemistry, Chemical Physics (and other fields) and professional schools such as medicine and dentistry. The program also adequately prepares students for careers in the chemical and environmental industries.

HONOR SOCIETIES, CLUBS, AND SERVICE ORGANIZATIONS

The William E. Reid Student Chapter of the *National Organization for the Professional Advancement of Black Chemists and Chemical Engineers (NOBCCHE)* introduces students to the chemical professional environment in business, industry, government, and academia with special emphasis on the role of the minority chemist.

PURPOSE AND GOALS

The Department of Languages and Communications offers its students a liberal arts education emphasizing the acquisition of language and communication skills and the mastery of media techniques. The program's objective is to prepare students for a broad range of careers in language, literary specialties, interpersonal and mediated communication; to equip students with the skills and knowledge required for graduate and professional schools; and to provide communication services as a public service. Programs offered by the department include communication, English, and foreign languages which includes a major in Spanish and course offerings in French.

SPECIAL EMPHASIS OPTIONS

Students may select courses in Spanish or French to satisfy either general education requirements or the special foreign language requirements of degree programs, career options, and advanced academic programs.

The department houses computer, media and speech performance laboratories as well as audio, video animation and Internet media production facilities. Media facilities include public radio station, KPVU-FM, 91.3, a National Public Radio (NPR) affiliate, and university cable channels 20 and 35. Both facilities offer training opportunities in media production and performance for students, staff and volunteers. The television studio operates with broadcast cameras, master controls, and cable distribution. The journalism program provides advisors to the Panther student newspaper. This publication offers training opportunities for students interested in print media. Another publication Ebon Dialect is a literary journal created by this department.

HONOR SOCIETIES

The department sponsors chapters of the following national honor societies: Sigma Tau Delta, English; Alpha Mu Gamma, foreign languages; and Sigma Delta Pi, Spanish. Generally, these societies require that members have completed 18 semester hours with a B average in the discipline.

AFFILIATIONS

The department encourages membership in several honor societies and clubs for its majors. Qualified students may join S.P.J., P.R.S.S.A, Forensic Society, student chapter of American Advertising Federation and student chapter of N.A.B.J. The department has affiliations with/or participation in programs of such professional organizations as A.E.J.M.C., T.S.C.A., S.S.C.A., B.E.A., T.A.B.E., N.C.T.A., C.M.A., A.H.E.C.T.A., N.A.T.P.E., A.W.A., A.P.I., Freedom Forum, N.A.B., R.T.N.D.A., Academy of Motion Picture Arts and Sciences, A.S.N.E., Poynter Institute, Dow Jones Newspaper Fund, and N.C.A.

ACADEMIC STANDARDS AND ACADEMIC PROGRESS

“C” is the minimum grade acceptable toward completion of courses in degree specialty.

BACHELOR OF ARTS IN COMMUNICATIONS DEGREE PROGRAM REQUIREMENTS

Core Curriculum**42 SCH**
All Communications Core Curriculum requirements are shown in the suggested degree program.

College Requirements**12 SCH**
Foreign Language Electives (one language)

Department Requirement**36 SCH**
COMM 1013, 1103, 2913, 3003, 3213, 3703, 3713, 3813, 3823, 4003 and SPCH 2223, 2103.

Elective Sequence**15 SCH**
PRINT: COMM 2313, 4313, 3423, 2423, 2603
RATV: COMM 3103, 4103, 2113, 2223, 4303
COMM Studies: SPCH 2113 or 2013, 2103, 3223, 4013 and 4123

Support Area and Minor Requirements**18 SCH**
Each major must select a minor outside of the department in consultation with a Department of Languages and Communications advisor. The student should consult also with the department head of the minor department to determine the number of hours the minor department requires, and the student should note the prerequisites for each minor course. The number of hours required by the minor department may be more than 18 and students will be held responsible for completing all required hours over the 18 minimum.

Electives **6 SCH**
The electives a major may choose may be any course in COMM, SPCH, or other prefixes.

Total Degree Requirements**129 SCH**

Professional Internships. COMM 3003 and COMM 4003 are professional internships required of all new communication majors except those majoring in speech communication, for whom a forensics practicum is available. Interns are placed in both on-campus and off-campus communication settings to gain practical experience.

Departmental Career Seminars. These seminars (scheduled customarily on the last Monday of each month) are for language and communication majors, minors, faculty and staff. The sessions center on departmental, professional/career development issues and information. All majors are requested to attend.

Requirements for Communications as a Minor Field (other than COMM majors)18 SCH
 Requires a selection of any 18 SCH in the COMM or SPCH courses in consultation with Languages and Communications department head. Students must observe prerequisites for any selected courses.

Jean-Paul Pemba, *Functional Analysis*
George A. Roberts, *Complex Analysis*
Evelyn E. Thornton, *Algebraic Topology*
Irfan Ul-haq, *Modern Analysis*
Johnson Wetiba, *Statistics*

PURPOSE AND GOALS

The Department of Mathematics offers an innovative and comprehensive undergraduate program in mathematics from which a major may select one of four emphasis options: applied mathematics, pure mathematics, mathematics teaching and statistics. Students are encouraged to be creative in putting together a course of study that will lead to the fulfillment of individual professional goals. The curricula are rigorous and demanding but flexible enough to allow students to sample several disciplines or to focus on a special interest within the major area. Faculty advisor assists each student on a continual basis to ensure proper course selection relative to career goals.

SPECIAL EMPHASIS OPTIONS

The special emphasis options in mathematics allow students to select electives in specific areas of professional interest. The requirements for each program option include proficiency in MATH 1124 and MATH 2024 as prerequisites to the mathematics core courses.

Statistics	Pure Mathematics	Applied Mathematics	Mathematics Teaching*
MATH 3033	MATH 4203	MATH 4203	MATH 3033
MATH 3043	MATH 4053	MATH 4043	MATH 3103
MATH 4043	MATH 4083	MATH 4073	MATH 3933

COMP 4943	COMP 4943	COMP 4943	COMP 4943

*The College of Education will identify certification requirements for teaching in the public schools.

HONOR SOCIETIES AND CLUBS

The purpose of *Beta Kappa Chi* is to advance scientific education through original investigations, the dissemination of scientific knowledge, and the stimulation of scholarship in the pure and applied sciences. Membership is open to students in the upper fifth of their college class who have completed at least 45 semester credit hours of college work. Seventeen of these hours must be in one of the sciences recognized by the society, with a minimum grade point average of B in the sciences and a minimum general college average of “B”.

Students eligible for membership in *Pi Mu Epsilon*, a national honor society, include: sophomore honor students with a grade point average of 4.00 in mathematics (including two courses in calculus); juniors and seniors with a minimum grade point average of 3.00 in mathematics and a general scholastic average of at least 2.80; and graduate students in the department.

Membership in *The Mathematics Club* is expected of all mathematics majors and is open to mathematics minors and any other students interested in enhancing their personal, interpersonal and academic growth. The Club promotes unity and support among members. During each club year, activities focus on leadership development, group study, research skills, and a continual update on pre-service, career opportunities in mathematics, and related areas.

DEPARTMENTAL REGULATIONS FOR PLACEMENT AND ACADEMIC PROGRESS

Academic Placement

Mathematics majors and minors are placed in freshman mathematics courses according to scores earned on a mathematics-qualifying test. An entering student with a strong background is encouraged to take advanced placement tests, since high scores on these examinations may exempt students from certain freshman courses.

Pre-requisite Requirement

All mathematics pre-requisite courses must be passed with a grade of “C” or better.

Academic Standards and Academic Progress

Mathematics majors are expected to maintain high standards of academic achievement. All major requirements must be maintained with no letter grade below a “C”. Student may elect the minor of their choice. They must satisfy the catalog requirement for the selected minor. Mathematics students that select computer science as a minor only need to complete additional 13 SCH to satisfy the minor requirement of 31 SCH in computer science. Majors and minors must take all courses in the proper sequence.

BACHELOR OF SCIENCE IN MATHEMATICS DEGREE PROGRAM REQUIREMENTS

FACULTY

Constance Campbell, *Drama*

George W. Edwards, *Woodwinds, Music Theory, Band*

Larry E. Jones, *Percussion, Music Theory, Band, Music Appreciation*

William Mann, *Low Brass*

William McQueen, *Band, Music Appreciation*

Christine E. Moore, *Strings*

Vicki A. Seldon, *Piano, Music History, Music Literature*

Clark Stevens, *Drama*

A. Jan Taylor, *Choir, Music Theory, Piano, Music Education*

Clarance L. Turner, *Drama*

Leon Turner, *Voice, Diction, Opera*

Lucius R. Wyatt, *Music Theory, Trumpet, Band*

PURPOSE AND GOALS

The Department of Music and Drama is committed to a unified effort in the promotion of artistic curricular and extra-curricular activities.

The drama program offers a degree plan leading to the Bachelor of Arts degree for students preparing for professional careers in the theatre or in theatre-related areas, or for graduate work in theatre. The teacher certification program in drama is approved by the Texas Education Agency.

The music program offers curricula in music, applied music, and music education. The curriculum in applied music prepares one for a career in musical performance, while the all-level music teacher certification curriculum is intended for those seeking careers in music teaching. The music curriculum leading to the Bachelor of Arts degree requires a minor subject area. It is designed for those seeking a broad-based education with a concentration in music.

The objectives of the Drama Program are:

- 1) To offer students the courses and training necessary for work as professionals in theatre related areas, and for careers as teachers of drama;
- 2) To provide students with the facilities, materials, leadership, and practical experience necessary for the achievement of excellence in the theatre arts; performing arts troupes and the Charles Gilpin Players increase opportunities for practical experience;
- 3) To develop the students' understanding of drama and theatre history as it reflects various cultures and societies; providing students with a broad cultural background in theatre and other related arts;
- 4) To introduce non-theatre majors to theatre and foster cultural enhancement on campus and throughout the university community through theatrical productions.

The objectives of the Music Program are:

- 1) To prepare students for professional careers in music and for graduate study in music;
- 2) To provide effective musical experiences in an educational environment that stimulates academic and musical development. These experiences include solo and ensemble performance experiences;
- 3) To transmit to students the heritage of Western music through studies in music history and literature, theory, applied music and performances in recitals;
- 4) To present musical performances on the university campus for cultural enhancement; and
- 5) To provide general music instruction to non-music majors at the university.

VISUAL AND PERFORMING ARTS ELECTIVES FOR NON-MAJORS

The following courses are offered to non-majors as electives, or for the satisfaction of the core curriculum requirement in the visual and performing arts:

DRAM 1103 Introduction to Theatre
DRAM 2113 Theatre History I
DRAM 2123 Theatre History II
MUSC 1313 Music in Contemporary Life
MUSC 2333 Afro-American Music
MUSC 1213 Fundamentals of Music
MUSC 1223 Fundamentals of Music

HONOR SOCIETIES, CLUBS, AND PERFORMING ORGANIZATIONS

All students at Prairie View A&M University are invited to participate in the performing organizations in the department: the Charles Gilpin Players, the University Chorale, the Marching Band, the Symphonic Band, the Brass Ensemble, and the Percussion Ensemble.

1. *Alpha Psi Omega*. The national honorary society in drama.
2. *Brass Ensemble*. An ensemble devoted to the performance of music written for brass instruments.
3. *Charles Gilpin Players*. The performing arts organization of the drama program.
4. *Critics and Historians Club*. Drama Majors who review plays, films, and television productions, and research various aspects of theatre.
5. *Jazz Band*. An ensemble devoted to the performance of jazz music.
6. *Kappa Kappa Psi Fraternity*. The national honorary band fraternity.
7. *Mu Alpha Sigma*. The honorary society in music.
8. *Music Educators' National Conference (Student Chapter)*. The professional organization for students seeking careers in music teaching.
9. *Percussion Ensemble*. An ensemble devoted to the performance of music written for percussion instruments.
10. *Playwrights Horizon*. Drama Majors interested in playwriting.
11. *Phi Mu Alpha Sinfonia*. A national honorary society in music.
12. *Tau Beta Sigma Sorority*. The national honorary band sorority.
13. *The Director's Group*. Drama Majors who are interested in directing. Formal training in directing required for membership.
14. *The Ever-Ready Players*. Drama Majors who tour special shows for civic, educational, fraternal and religious organizations.
15. *The Production Club*. Drama Majors who are interested in the business aspect of theatre including Stage Management, Box Office, House Management, and Public Relations.
16. *The Theatre Journalists*. Drama majors who write and put together the monthly theatre newspaper, "The Penny Press Gazette".
17. *Theater Crafts Designers*. Drama Majors who have a special interest in costume design, scene design, lighting design, makeup design, prop construction, and sound design.
18. *University Chorale*. An ensemble devoted to the performance of choral music.
19. *University Marching Band*. An ensemble organized to present performances at the university's football games, parades, and other events.
20. *University Symphonic Band*. A musical organization devoted to the performance of music written for wind band.

DRAMA PROGRAM

Admission Requirements and Regulations for Academic Progress

In addition to meeting the general university requirements and the College of Arts and Sciences requirements, drama majors must earn a minimum grade of "C" in each major course in the respective degree plan and fulfill the following requirements to enter the program, remain in the program and/or graduate from the program:

Audition: Each drama student must have an audition/interview before the faculty. Auditions/interviews will be held during the Fall and Spring semesters prior to entry, during the summer prior to entry and/or during freshman orientation.

Project Requirements: Each student in drama with a performance emphasis is required to showcase his/her talent each year to demonstrate growth as an actor. The NEW FACES SHOW spotlights incoming freshmen and transfer students. The SOPHOMORE PROJECT is a two person scene plus a monologue by each scene member with a time limit of fifteen minutes. The JUNIOR PROJECT is a one person show approved by the faculty of thirty to forty-five minutes. The SENIOR PROJECT is an approved performance recital of one hour. Additional requirements are listed in the drama students' handbook.

Participation in Performance Troupes: Each drama major with a performance emphasis is required to be actively involved in at least two of the seven performance troupes each semester. The troupes are Readers' Theatre, Theatre for Youth, Church Drama, Mime/ Movement, Variety, Singing, and Dance.

Semester Review. Each student is required to be evaluated by a faculty member each semester. Mid-semester (nine weeks) evaluations may be held when necessary.

Upper-Level Review: During the fourth semester of theatre courses, all drama majors will be evaluated. This evaluation determines whether or not the student will be admitted to upper-level courses in drama.

Drama Majors: Students majoring in drama with a performance emphasis must receive approval of the acting faculty prior to entering the upper-level performance courses. Students must then earn a grade of B or above in all performance courses. Those who earn a grade below B must repeat the course to receive credit.

Transfer Credit: Students transferring from other institutions must validate their standings in theatre arts through an audition/interview for a performance emphasis or through a portfolio/interview for other theatre options.

Practicum: All drama majors must take theatre practicum each semester that they are drama majors.

Attendance at Performances, Workshop, and Seminars: All drama majors are required to attend everything sponsored by the drama program.

Crew Requirements: Students will work a minimum of two hours crew each day Monday through Friday. Students should also be prepared to work weekends should the need arise. Crew time will be calculated weekly. All privileges will be eliminated if crew is not done. Privileges include using the facilities and equipment, touring with the department, and appearing in any of the Drama Program's productions.

Committee Requirements: Students will be required to work on one of the five committees. The committees are Cultural Arts, Hospitality, Public Relations, Fund Raising, and Entertainment.

Dem-Lab: A required weekly meeting of all drama majors on Fridays for the purpose of lecture demonstrations, special performances, visiting artists, troupe shows, etc. Each drama major with a performance emphasis is required to perform at least one time each semester.

Drama-Theatre Arts Certification

Students seeking certification for secondary school teaching must meet all requirements listed in the teacher certification section of this catalog. Admission requirements and advising materials are available from the Office of Teacher Certification in the College of Education.

MUSIC PROGRAMS

Admission Requirements and Regulations for Academic Progress

In addition to meeting the general university requirements and the College of Arts and Sciences requirements, music majors must earn a minimum grade of “C” in each major course in the respective degree plan and fulfill the following requirements to enter the program, remain in the program and/or graduate from the program:

Audition. Music students must audition before the faculty. Previous participation in bands, choirs, or orchestras and private study is helpful to entering students.

Music Theory Placement Examination. All new students in music are required to take the music theory placement examination.

Recital Requirements. A senior music recital is required of all students majoring in music. Junior and senior recitals are required of students majoring in applied music (performance). Applied music instructors may exercise the option to require a hearing prior to the recital to determine the readiness of the performer.

Piano Proficiency Examination. All students in music are required to pass the piano proficiency examination before proceeding to student teaching and before graduation. The examination should be taken after the completion of four semesters of piano. Students are advised to continue studying piano until the examination is passed.

Participation in Ensembles. All students in music are required to participate in large ensembles for eight semesters. Large ensembles are defined as the University Band and University Chorale. Generally, instrumental majors participate in the marching band for four semesters and in the symphonic band for four semesters. Students may receive additional credits through participation in the Chamber Vocal Ensemble, Jazz Band, Brass Ensemble, and Percussion Ensemble.

Music Seminar. Music students are required to attend weekly music seminars. Since the music seminar is adjunctive to the applied music courses, students will be graded as to their attendance and participation through their enrollment in the applied music courses.

Attendance at Concerts and Recitals. Music students are required to attend all music concerts and recitals presented by the department.

Semester Applied Music Examinations. Each student is required to perform before a faculty committee for evaluation at the end of each semester.

Applied Music Studies: Applied Music. (Performance) Majors. Students majoring in applied music (performance) must receive departmental approval prior to entering the applied music program. Students must then receive the grade of B or above in all applied music courses. Those who earn a grade below B must repeat the course to receive credit.

Transfer Credits. Students transferring from other institutions must validate their standing in applied music through a music audition and their standing in music theory through the music theory placement examination.

Recommended Foreign Languages for Music Majors. Since all majors in the College of Arts and Sciences are required to complete twelve semester hours of a foreign language, the recommended languages for music majors are French and German. However, the department accepts twelve hours of Spanish as the completion of this requirement.

BACHELOR OF ARTS IN MUSIC DEGREE PROGRAM REQUIREMENTS

Core Curriculum**42 SCH**
 All Music Core Curriculum requirements are shown in the suggested degree program.

College Requirements**12 SCH**
 Foreign Language Electives (one language)

Major Requirements**62 SCH**
 Applied Music (piano, voice, wind, or percussion instruments), Large Ensemble (band or choir).

Department of Physics

ADMINISTRATIVE OFFICER

A. Anil Kumar, *Department Head, Condensed Matter Physics and Telecommunications*

FACULTY

Innocent J. Aluka, *Geological Sciences*

Cleo L. Bentley, Jr., *Optical Physics*

Orion Ciftja, *Condensed Matter Physics and Computational Physics*

Dennis J. Judd, *High Energy Physics*

Richard G. Thomas, *Nuclear Physics*

Fa-Chung (Fred) Wang, *Condensed Matter Physics*

MANAGER OF LABORATORIES

Brian M. Cudnik, *Astronomy, Solar Physics, Lunar Meteoritic Phenomena*

PURPOSE AND GOALS

The mission of the Department of Physics is to provide students with education and training in physics, supported by a strong foundation in the liberal arts curriculum, in order to prepare them for a variety of career opportunities, pursue advanced degrees and enable them to achieve a deeper understanding of their role in, and impact on, society. This mission is accomplished through a number of objectives, including the following: establish a firm foundation in the basic philosophy, principles, and methods of physics; provide relevant training in physics that is appropriate for students of the science, business, education, humanities, health, and social sciences disciplines; encourage original research involving students; help students to develop their powers of critical observation and thinking, along with the effective application of the scientific method; and emphasize the connections between physics and other disciplines and encourage interdisciplinary studies. The goal is to prepare well-equipped students for successful careers in physics or related disciplines and enable them to compete in an increasingly challenging world.

HONOR SOCIETIES, CLUBS, AND SERVICE ORGANIZATIONS

Students who have had at least one course in physics above the elementary level and whose grade point averages are B or better are eligible for membership in *Sigma Pi Sigma*, the physics honor society. Students having an interest in physics may also join the *Society of Physics Students*, an organization dedicated to the promotion and advancement of physics throughout society.

BACHELOR OF SCIENCE IN PHYSICS DEGREE PROGRAM REQUIREMENTS

Core Curriculum42 SCH

All Physics students must complete the core curriculum.

College Requirements12 SCH

Foreign Language Electives (one language)

Major Requirements37 SCH

PHYS 2511-2521 and 2514-2524, or

PHYS 2511-2521, and PHYS 2013-2023 plus 2 additional SCH in Physics, PHYS 3103-3113,

PHYS 3123-3133,
 PHYS 3183-3193 and
 9 or more SCH of Physics electives from:
 PHYS 3073 Optics
 PHYS 3163/3173 Mathematical Physics I and II
 PHYS 4011/4021 Physics Seminar I and II
 PHYS 4103 Physics Advanced Lab I
 PHYS 4023/4033 Introductory Quantum Mechanics I and II
 PHYS 4063 Thermodynamics and Statistical Mechanics
 PHYS 4993 Physics Independent Study or the equivalent.
 Physics electives should be selected with the advice and consent of the advisor.

Support Area and Minor Requirements	34 SCH
MATH 1124, 2024, 2034	12 SCH
HUPF (Human Performance Activities).....	2 SCH
Science Laboratory (Any Science).....	2 SCH
Minor Requirement (Consult Minor department for details).....	18-24 SCH

While any minor is encouraged, the following are recommended:

Computer Science - COMP 1211, 1213, 1221, 1223, 2013, and twelve semester hours of upper-division courses (23 SCH). This preparation in physics and computer science will provide the necessary background for computational physics and related areas.

Electrical Engineering – ELEG 2023, ELEG 3011, ELEG 3013, ELEG 3021, ELEG 3023, ELEG 3033, ELEG 3043, ELEG 3063, ELEG 4013 (23 SCH). This preparation in physics and electrical engineering will prepare the student for a variety of applied physics and industrial areas.

PURPOSE AND GOALS

The Division of Social Work, Behavioral and Political Sciences provides support courses for all undergraduate programs in addition to offering four areas of degree specialization. These specializations help prepare students to pursue a variety of career options, including urban and regional planning, public administration, international affairs, public policy, law enforcement, social work and human services, and educational and legal services. Teacher education specializations are available in several of the areas.

SPECIAL EMPHASIS OPTIONS

Minor in African Studies
Minor in African-American Studies
Minor in Geography
Minor in Interdisciplinary Social Sciences

Requirements for a Minor in Interdisciplinary Social Sciences

The division offers a minor in interdisciplinary social sciences designed to provide a sound understanding of the basic concepts, assumptions and research methods and techniques used in the social sciences. The History Program administers the minor. Any combination of 18 semester credit hours with no more than six hours in any one discipline will constitute the minor. Sample courses for the interdisciplinary minor are listed below.

HIST 1813 World Civilization to 1500
HIST 4213 Afro-American History 1492-1865
GEOG 1113 Introduction to Geography
GEOG 2523 Urban Geography
POSC 2113 Political Parties

POSC 2113 Political Parties
POSC 3543 International Politics
SOCC 2003 Sociology of Minorities
SOCC 3223 Political Sociology

Requirements for a Minor in Geography.....21 SCH
GEOG 1113, 1223, 2743, 3723, 4013, and 6 semester hours of electives

Requirements for a Minor in African American Studies

The African American Studies minor is interdisciplinary and provides students the opportunity to gain knowledge and understanding of the African American influence on the social, political, cultural and intellectual development of America. The minor requires 18 semester credit hours. HIST 4213 and HIST 4223 are required courses. The remaining 12 hours may be selected from the courses listed below. Courses may not be used to satisfy multiple academic requirements such as core curriculum requirement, major and minor requirements.

DRAM 2213 Afro-American Drama I
DRAM 2223 Afro-American Drama II
HIST 2613 African History
HIST 4213 Afro-American History I
HIST 4223 Afro-American History II
HIST 3223 Women in History
HDFM 2533 Contemporary Family in Cross-cultural Perspectives
POSC 2213 Blacks and the American Political System
POSC 3553 Introduction to African Politics
ENGL 3053 Survey of Afro-American Literature I
ENGL 3063 Survey of Afro-American Literature II
SOCC 2003 Minorities in American Society
SOCC 2023 African Family and Culture
COMM 3703 Society and the Mass Media
GEOG 2743 Geography of Africa
CRJS 4233 Problems Encountered by Minorities in the Criminal Justice System
ARTS 2283 Afro-American Art
MUSC 3333 Afro-American Music

TEACHER CERTIFICATION

Students seeking certification for secondary school teaching must meet all requirements listed in the “Teacher Certification Programs” section of this catalog. Admission requirements and advising materials are available from the Office of Teacher Certification in the College of Education.

HONOR SOCIETIES, CLUBS, AND SERVICE ORGANIZATIONS

Sponsored by the political science faculty, the *Blackstone Pre-Law Society* is open to all students interested in law. The society promotes an awareness of the LSAT and general law school requirements, thereby facilitating preparation for entry into law school.

Open to all majors and other interested persons, the *History Club* provides nonclassroom activities related to the study of history.

A national geography fraternity, the *Iota Epsilon Chapter of Gamma Theta Upsilon* recognizes high academic attainment on the part of students majoring or minoring in geography. It is open to students who maintain an average of B or better and serves both the needs for good human relationships and for sharing information concerning the field of geography.

Membership in *Phi Alpha Theta International Honor Society* is open to undergraduate students who have completed 12 semester hours of history with a grade point average of 3.10 or above in history courses and 3.00 in two-thirds of the remainder of the course work, excluding history.

Membership in the *Political Science Club* is required of all political science majors. The purpose of this organization is to promote an awareness of politics at all levels, which is made possible through field trips, seminars, guest speakers, and other educational activities.

Membership in *Rho Nu Chapter of Pi Sigma Alpha*, the national Political Science Honor Society, is open to students, undergraduate and graduate, who have completed at least fifteen quarter hours or ten semester hours of work in government, political science, international relations, or public administration, including at least one course not open to students in the first two years of collegiate work, with an average grade of “B” or higher and who have maintained a standard of general scholarship sufficient to place them within the upper third of their college class.

The *Social Work Club* is open to all social work majors and minors. The club sponsors a number of events supporting local community residents and community agencies. Majors and minors are also provided opportunities to learn about and participate in social work professional organization meetings and conferences.

Membership in *Alpha Delta Mu Social Work Honor Society* is open to graduating senior social work majors whose GPA is 3.0 or higher. This honor society is dedicated to scholarship and continued professional development in social work.

The *Gorge R. Ragland Scholars* is open to junior and senior social work majors and sociology majors. Members must have a minimum GPA of 3.0 and dedicated to social services and to helping others. Interested students in other social science disciplines are encouraged to join.

The *Sociology Club* is open to all sociology majors and minors, and to other students interested in gaining greater awareness about human societies and cultures.

Membership in *Alpha Kappa Delta (AKD) International Sociology Honor Society* is open to sociology majors of junior standing with a minimum 3.0 GPA. AKD promotes excellence in scholarship, research, and social and intellectual activities leading to the improvement of the human condition.

HISTORY DEGREE PROGRAM

The History program at Prairie View A&M University prepares students for careers in teaching, government and law. The program encourages a systematic study of the past and attempts to use the knowledge gained to explain human nature, behavior and contemporary affairs.

Specific Program Outcome Expectations

Among the recipients of the Bachelor of Arts Degree each year in History:

- At least 50 % will be employed as public school educators.
- 30% will be admitted to either law or graduate school.
- At least 20 % will be employed in the private or public sector.

ACADEMIC STANDARDS AND ACADEMIC PROGRESS

Students majoring in History must earn a grade of “C” or better in each of the History courses they have taken in order to graduate from the University with a BA degree.

POLITICAL SCIENCE PROGRAM

The Political Science program has a mission of providing students with knowledge and training necessary for personal, academic, and professional development in a friendly academic environment. The curriculum is designed to help students develop their reasoning and analytical skills and improve their competence in oral and written communications. The fundamental goal of the Program is to provide students with the theoretical underpinnings and analytical tools required to research and understand political issues and governmental processes. In addition to providing support courses for all undergraduate studies at Prairie View A&M University, the Program strives to achieve the following pivotal goals:

- Prepare students for graduate and professional schools by exposing them to a variety of concepts, theories and methodologies used in the study of Political Science;
- Train students for careers in government, law, education, journalism, urban planning, international affairs, business and many other fields on which public policy has an impact; and
- Help students develop a sustained interest in the day-to-day activities of governmental institutions and processes, as well as in events and issues that occur daily at the local, state, national and international levels.

The program offers a B.A. in Political Science with courses tailored to accommodate students of diverse educational and career interests. The curriculum includes a list of courses covering the traditional sub-fields of Political Science. The two main concentrations are Pre-law and General Political Science. Both American government and international politics are emphasized in the course offerings. In each track, the program requires the completion of 30 credit hours of political Science courses, of which POSC 2133, POSC 2413, POSC 3543 and POSC 4113 are required for majors and minors in the discipline.

Political Science majors must earn a grade of “C” or better in each of the Political Science courses they have taken in order to graduate from the University with the B.A. degree.

Minor in African Studies

The Minor in African Studies is offered as part of the political Science program, and is designed to provide students with a common ground for understanding their academic work and its place in the broader context of a liberal studies program that emphasizes an interdisciplinary approach to learning. The courses listed below offer undergraduate training in some aspects of African history, politics, sociology, language, literature and the arts, bringing together students of diverse academic interests who wish to investigate ideas and cultural practices in their historical setting and to understand contemporary African issues and challenges. The program serves the varied intellectual needs of both traditional and non-traditional students. It requires a total of 18 semester credit hours, 12 of which must be earned in such courses as HIST 2413, ENGL 2283, POSC 3553 and GEOG 2743. The rest of the credit hours may be earned in such electives as SOCG 2023, ARTS 2243, SWHL 1013, SWHL 1023, POSC 3563, POSC 4165, POSC 4223, and POSC 4173.

Teacher Certification (Secondary Government/Political Science)

Political science students seeking certification to teach government in secondary schools in Texas must fulfill all requirements mandated for certification by the College of Education whether Political Science is their first or second teaching field. For a complete review of information concerning requirements for teacher certification, please see the College of Education section of this catalog. Fundamentally, any Political Science major desiring to teach government in secondary schools must have the degree in the

discipline as well as meet the special requirements needed for certification. Those with a degree other than Political Science and wish to be certified to teach government must have their transcripts evaluated by the coordinator of teacher certification within the Political Science program. Following the evaluation, the student then may be advised to take a number of classes from a list of suggested Political Science courses, which include POSC 2133, POSC 2113, POSC 2523, POSC 3123, POSC 3533, POSC 3543, POSC 4113, POSC 4123, POSC 4133, and POSC 4143. The certification process itself is conducted through the Office of Teacher Certification, College of Education.

SOCIAL WORK PROGRAM

PURPOSE AND GOALS

The Bachelor of Arts in Social Work degree is designed to prepare students for beginning generalist social work practice. The baccalaureate social work degree is the first level of professional social work education that is recognized by the Council on Social Work Education. The social work program at Prairie View A&M University is accredited by the Council on Social Work Education at the baccalaureate level. Social workers assist individuals, families, small groups, organizations, and communities in resolving their problems. Graduates of the social work program have been employed in mental health and mental retardation agencies, drug and alcohol treatment facilities, agencies serving the elderly, juveniles, adults, and children, and other public and private agencies.

The mission of the Social Work Program at Prairie View A&M University is derived from the mission of the University and its commitment to both rural and urban populations. The mission of the Social Work Program is to prepare students as professional generalist social work practitioners, provide students with requisite knowledge for advanced study, and equip students with core skills and values for beginning level professional social work practice with individuals, families, groups, organizations, and communities.

The goals of the Social Work Program are to:

- Offer generalist practice enrichment via professional community contacts, interactions, and joint ventures.
- Teach students to promote social and economic justice, work to eliminate discrimination and oppression, and support positive social change.
- Serve the academic and larger communities through commitment to quality teaching, research productivity, and scholarship.
- Impart knowledge, skills, and values for continued professional practice and growth.

Students desiring to pursue the Bachelor of Arts in Social Work must complete procedures designed to determine students' suitability and/or readiness for professional social work practice.

Freshmen, transfer students, and students changing their major may declare a "Social Work" major for the purpose of advisement. Interested students should be referred to the Social Work Program to be interviewed and advised by a social work faculty advisor prior to officially changing their major, attend a social work majors' orientation, complete a "Tracking Data Form for Social Work Majors," and complete

the “Application for the Social Work Professional Foundation Core Curriculum.” Students will be considered “Pre-Social Work Majors” until they have been officially accepted into the Social Work Program.

The Social Work Program also is offered at the distance education site at the University Center, the Woodlands.

ADMISSION TO SOCIAL WORK FOUNDATION COURSES

Students are eligible for admission to the Social Work Program after they have successfully completed the course “Introduction to Social Work and Social Welfare,” with a minimum grade of “C.” Additional requirements are:

1. Completion of University/liberal arts course requirements;
2. Completion of Support Area course requirements;
3. Completion of an “Application to the Social Work Professional Foundation Core Curriculum” during the student’s sophomore year including an essay of not more than 5 typed double-spaced pages on “*Why I Desire to Pursue a Professional Degree in Social Work*”;
4. Completion of an interview with the social work faculty admission committee;
5. Notification by the faculty admission committee regarding admission of the student; and
6. Achievement of a minimal score of 230 on the mathematics portion, 230 on the writing portion and 230 on the reading portion of the Texas Academic Skills Program (TASP), a standardized skills test that measure competencies in reading, writing, and mathematics.

Students must complete all liberal arts core requirements and support area courses prior to enrollment in the required 3000 and 4000 level Social Work major courses.

Social Work majors must maintain satisfactory progress in foundation courses and will be evaluated on a semester basis to determine progress. Students not maintaining satisfactory academic and professional progress will be reevaluated for continuation in the program. Majors must maintain a grade of “C” or better in all social work courses. No SOWK prefix foundation course may be repeated more than once to achieve a passing grade of “C”. The Social Work Program does not give credit for employment or life experiences. Please refer to the Undergraduate Social Work Student Handbook for additional requirements and information.

SOCIOLOGY PROGRAM

PURPOSE AND GOALS

The Bachelors of Arts degree program in sociology offers a curriculum that enables students to analyze, critically evaluate, and engage in the planning of solutions to problems that evolve from patterns of human social interaction. Sociologists analyze systems that range from individuals in small groups to entire societies. In addition to social theory and social research, students may choose courses in criminology, gerontology, substance abuse, the family, deviant behavior, and modern social problems. The sociology degree program prepares students for professional careers with government agencies and with the business sector. Students pursuing a baccalaureate degree in sociology may become certified in secondary education. Additionally, a sociology degree is an excellent preparation for many post-baccalaureate degree programs.

The University Center – The Woodlands

The University Center Consortium was launched in 1995 to enhance higher education opportunities for North Harris County and Montgomery County residents. The Texas Higher Education Coordinating Board has authorized Prairie View A&M University, Sam Houston State University, Texas A&M University, Texas Southern University, University of Houston, University of Houston-Downtown, and the four colleges of the North Harris Montgomery Community College District (NHMCCD) to cooperatively offer the Sociology program at The University Center.

Only upper-level sociology courses are offered by the Sociology Program at The University Center. Students seeking degrees must transfer the lower level courses to fulfill the University Core Requirements along with the College Level Requirements and Program Support Area Requirements. Additionally, as determined in consultation with an advisor, students are expected to transfer courses that will fulfill the minor requirements.

The University of Houston-Downtown has been assigned the responsibility of providing common support courses for all baccalaureate degree programs at The University Center. Sam Houston State University will provide these support courses that the University of Houston-Downtown chooses not to offer. If neither the University of Houston-Downtown nor Sam Houston State University provides a required support course, the University of Houston Distance Learning courses will be available.

The colleges of the NHMCCD are responsible for providing articulated freshman and sophomore level courses for each of the baccalaureate degrees.

Fort Hood

Prairie View A&M University signed a Memoranda of Agreement (MOU) with Fort Hood and III Corps to serve military personnel at Fort Hood. This agreement is supported by the Texas A&M University System, Texas A&M University, Tarleton State University, and Prairie View A&M University. Educational programs delivered at Fort Hood are designed to satisfy the educational needs and interests of military personnel while fulfilling the needs of the Command. Students from Fort Hood may enroll as either degree or non-degree seeking students. As student in either category, they are admitted, enrolled, recorded in accordance with regular Prairie View A&M University policies for students in each category.

Sociology courses offered at Fort Hood are jointly determined by Fort Hood and III Corps and Prairie View A&M University. Active duty military personnel are accorded top priority for enrollment in the on-post courses followed by (and if space is available) all others.

In accordance with the Memoranda of Agreement, the Sociology Program at Prairie View A&M University offers five 8-week terms per annum at the Fort Hood location. The academic calendar of these courses is determined in conjunction with the other participating institutions at Fort Hood. The course schedules are tailored to Fort Hood requests to maximize opportunities for students to attend classes and minimize scheduling conflicts, i.e., 8-week terms and early evening and weekend classes.

Only upper level sociology courses are offered by Prairie View A&M University at Fort Hood. Students seeking degrees must transfer the lower level courses to fulfill the University Core Requirements along with the College Level Requirements, and Program Support Area Requirements. Additionally, as determined in consultation with and advisor, students are expected to transfer in courses that will fulfill the minor requirements.

Army Reserve Officers Training Corps

FACULTY

LTC Dexter Q. Henson, Professor of Military Science
LTC Robert R. Clarke, APMS/Executive Officer
CPT Anita Roberts, APMS/Operations Officer
CPT Rodney Penny, APMS/Enrollment Officer
MSG Keith R. Johnson, Senior Military Instructor
SFC Jeffrey P. Graves, Military Instructor

PURPOSE AND GOALS

The mission of the Army ROTC program is to prepare college students for professional careers as United States Army Officers. The faculty and staff in the department are dedicated military and civilian personnel committed to producing the highest caliber leaders for the nation.

The experience and training provided by Army ROTC separates ROTC graduates from their peers. Army ROTC Cadets are taught to be leaders and are provided hands-on experience in managing physical, financial, and human resources. Our cadets often possess a higher level of self-confidence and superior decision-making skills. The challenge of developing leaders to manage resources and command units equipped with state-of-the-art equipment forms the basic thrust of the military science curriculum.

Qualified students interested in earning a commission are encouraged to apply for an Army ROTC Scholarship. Besides tuition, the scholarship pays educational fees, provides \$600 for books per year and provides the cadet a \$250-\$400 stipend for each month of the school year. Scholarships are available for two, three, and four year periods.

The four-year Army ROTC program is divided into two phases; the Basic Course and the Advanced Course. The Basic Course is usually taken during the first two years of college and is offered with no military obligation on the student's part. It covers topics such as leadership development, individual military skills, and military customs/traditions. Students who demonstrate the potential to become army officers and who meet the physical and scholastic standards are eligible to enroll in the Advanced Course. Here the students receive instruction in management, tactics, professionalism, ethics, and advanced leadership skills. The advanced course covers the final two years of college and includes a five-week camp held during the summer between the junior and senior years. While enrolled in the advanced course, a cadet receives a stipend ranging from \$350-\$400 per month for up to 10 months of the school year and approximately \$700 for attending the National Advanced Leadership Camp.

COMMISSIONING PROGRAM

Completion of Army ROTC qualifies the student for a commission as a second lieutenant in the United States Army and a minor in Military Science.

SPECIAL EMPHASIS OPTIONS

Cadets enrolled in Advanced Army ROTC are required to complete a Professional Military Education (PME) component consisting of two essential parts: a baccalaureate degree, completion of Enhanced Skills Program and demonstrated proficiency in military history. Credits received through Army ROTC may be included as a part of their academic degree program.

Military science students may select military science courses as free electives or non-technical electives in their degree program.

Army ROTC cadets are required to participate in physical training (calisthenics) periods, as well as field-training exercises as part of the leadership laboratory.

Prior Service or JROTC experience

Students with a good record of prior military service or with four years of Junior ROTC experience may receive constructive credit for the basic course and may be allowed to enroll in the advanced course. Students with such experience and who are interested in enrolling should contact the Professor of Military Science prior to the start of their sophomore year.

Internship: Leader's Training Course

Students without any prior military service may receive constructive credit for the basic course by attending and successfully completing a summer internship called the Leader's Training Course at Fort Knox, Kentucky. The internship is a four-week training program conducted during the summer months and is designed to orient students to the U.S. Army. The training develops and evaluates their officer leadership potential, and qualifies them for enrollment in the ROTC Advanced Course program. The student graduates from the summer internship with increased confidence, self-discipline and decisiveness developed through physical and academic challenges. Participants will receive approximately \$700 for the internship. Eligible sophomore students not enrolled in ROTC and graduate students with two years remaining at the university may attend the Leaders Training Course. Students who successfully complete the training can receive four (4) hours of constructive credit and qualify for an Army ROTC two-year scholarship.

Extra Curricular Activities

The Panther battalion has its own Ranger Challenge Team, which is a varsity-level team that competes against other universities in military skills events. The battalion also has a competition drill team and ceremonial detachment.

The department periodically sponsors other activities including; rappelling demonstrations, ranger weekends, road marches, leadership exercises, adventure training, land navigation exercises, patrolling and survival skills training.

Military science students may substitute the following courses for one semester hour of physical education activity requirements in the general education program: ARMY 1171, 1181, 2271, 2281, 3371, 3381, 4471 and 4481.

ADVANCED COURSE ADMISSION REQUIREMENTS

Prerequisites: Students must complete the basic course or receive constructive credit prior to enrolling in the advanced course. Students with prior military service or JROTC experience may be eligible for constructive credits and advanced placement. They may not be required to take all or part of the basic course.

Course	Prerequisites
ARMY 3313	ARMY 1111, 1121, 1171-1181, 2212, 2222, and 2271-2281, completion of the summer internship or prior service, or have completed four years of junior ROTC in high school.
ARMY 4413	ARMY 3313, 3371, 3323, 3381

COMMISSIONING PROGRAM REQUIREMENTS

A cadet must satisfy the following requirements in order to be commissioned:

1. Complete or receive constructive credit for 20 hours of Military Science.
 2. Satisfactorily complete National Advanced Leadership Camp.
 3. Complete the Enhanced Skills Program.
 4. Demonstrate proficiency in military history.

Naval Reserve Officers Training Corps

FACULTY

CAPT James K. York, USN, *Professor of Naval Science*
LtCol James R. Wallace, USMC, *Associate Professor of Naval Science*
Maj M. Doyle Hale, USMC, *Assistant Professor of Naval Science*
LT Kenneth V. Smith, USN, *Assistant Professor of Naval Science*
LT Andrew G. Sikkenga, USN, *Assistant Professor of Naval Science*
LT Marcus O. Thomas, USNR, *Assistant Professor of Naval Science*

PURPOSE AND GOALS

The Prairie View A&M University Naval ROTC Unit was established in March of 1968. The staff of the Naval Science Department consists of active duty Navy and Marine Corps personnel and civilian administrative assistants who are dedicated to producing officers of the highest quality for the Navy and Marine Corps.

Upon graduation, qualified Naval ROTC midshipmen and/or officer candidates are commissioned as Ensigns in the U.S. Navy Reserve or Second Lieutenants in the U.S. Marine Corps Reserve. Scholarship midshipmen are obligated to serve a minimum of four years on active duty. Non-scholarship midshipmen normally are obligated to serve three years.

NROTC PROGRAMS

Four-Year Program

Naval ROTC midshipmen and officer candidates join the unit as recipients of various scholarships (i.e., national scholarships, Tweeddale or Historically Black College/University scholarships) or as college program students. Students enrolled in the program have as a major goal the earning of a Navy or Marine Corps reserve commission. Scholarship NROTC students, men and women, are selected annually through nationwide competitive examinations, interviews, and review of high school records. NROTC College Program students may earn an appointment to the scholarship program by demonstrating outstanding leadership and academic performance. Those selected for scholarship are appointed midshipmen, U.S. Naval Reserve, and receive benefits during their remaining years of school which include tuition, instructional fees, uniforms, a book stipend, and a monthly stipend of \$250-\$350 for a maximum of 40 months (Current monthly stipend is \$250 for 1st and 2nd year students, \$300 for 3rd year students, and \$350 for 4th year students). Naval science students who meet the criteria for the college program are encouraged to transfer from the Naval Science Program to the college program. Subsequently, students in the college program may be transferred to the scholarship program based on physical qualification, leadership ability, academic performance, and recommendation from the NROTC staff. All transfers must be approved by the commanding officer of the unit. College program midshipmen pay their own fees, except for uniforms and naval science textbooks. College program students, upon entering the advanced phase of Naval Science as juniors, receive a stipend of \$300 per month (\$350 per month as a senior) for a maximum of 20 months.

Two-Year Option

Men and women who are junior college transfers are eligible to participate in the NROTC program if they are physically qualified and selected for training during their sophomore year. Each student selected will receive six weeks of Navy-oriented instruction and drill in lieu of the normally required freshman and sophomore naval science courses. Training occurs during the summer between the sophomore and junior years at the Naval Science Institute (NSI). Successful completion of the NSI course qualifies these students for enrollment in junior-year NROTC courses and for appointment as NROTC scholarship midshipmen.

Commensurate Programs

1. Naval science students may select naval science courses as free electives or nontechnical electives in their degree programs.

2. Naval science students may substitute Introduction to Naval Science, Leadership and Management I, or Amphibious Warfare for up to two semester hours of the physical education activity requirement in the general education program.
3. The requirement of six semester hours in American or Texas history can be met by completing three semester hours in history and three semester hours in naval science (Military History)

PROGRAM REQUIREMENTS

All Naval Science courses include a two hour professional development laboratory.

SPECIAL REQUIREMENTS

In addition to completing the naval science courses listed above, students must satisfy the following requirements.

1. All Navy drills, ceremonies, information briefings, seminars, and supplemental workshops scheduled during any semester are considered naval science course requirements.
2. Swimming to the level of HUPF 1011 (intermediate swimming) is required for all students by completion of the freshman year. Swimming to the level of HUPF 2091 (advanced swimming) is required for all students by completion of the sophomore year.
3. Development Opportunities. NROTC midshipmen are encouraged to participate in all areas of university life. Midshipmen regularly participate on athletic teams, in student government, and on special university committees, as well as in fraternities and sororities. Through the NROTC program, midshipmen may become members of the Blue Guard Drill Team, Color Guard, and Navy and Marine Corps professional development societies.
4. Navy Specified College Courses. The following courses, taught by civilian faculty, are required/recommended for all NROTC students:

<i>Title</i>	<i>Year Taken</i>	<i>Normally Required/Recommended</i>	<i>Minimum Semester Hours</i>
Calculus (Differential and Integral) MATH 1124 and 2024	Freshman-Sophomore	Required of all Navy Option Scholarship students by end of Sophomore year. Recommended for all others	8 SCH
General Physics (Calculus-Based) PHYS 2514 or Eng Physics 2013 and 2023	Sophomore-Junior	Required of all Navy Option Scholarship students by end of Junior year. Recommended for all others.	8 SCH
College Mathematics (College Algebra or higher level)	Freshman-Junior	Required of all Navy Option College Program students	6 SCH
College Physical Science	Sophomore-Senior	Required of all Navy Option College Program students	6 SCH
Technical	Freshman-Senior	Required for all Navy Option Scholarship students not majoring in a technical curriculum.	See Advisor
Marine Option Courses	Junior-Senior	Required for Marine Option students	6 SCH
American Military Affairs or National Security Policy	Junior-Senior	Required for all NROTC students	3 SCH
Computer Science	Junior-Senior	Required for all Navy Option students by end of Senior year	See Advisor
English	Freshman-Sophomore students by end of Senior year	Required of all Navy Option Scholarship students by end of Senior year.	6 SCH
