ADMINISTRATIVE OFFICER
Gerard Rambally, Dean

ADMINISTRATIVE STAFF
Anil Kumar, Associate Dean

INSTRUCTIONAL ORGANIZATION

The College of Arts and Sciences offers graduate programs leading to the Master’s degree in the areas of Biology, Chemistry, English, Mathematics, and Sociology. Students admitted to the graduate programs as degree candidates in the College of Arts and Sciences must follow a degree program as outlined by the specific department. A degree plan will be designed according to the student’s academic background, personal needs and interests.

Graduate coursework in biology, chemistry, English, and mathematics may also be applied to a master’s degree program in education with a concentration in these areas. Students seeking this option should apply for admission to graduate study in the College of Education.

ADMISSION REQUIREMENTS

The student seeking admission to the graduate program is required to:

1. Submit a formal application for admission to the Graduate School. See Admissions Section for deadline dates and requirements.
2. Applicants admitted to the university Graduate School must also be admitted by the college or department in which the student plans to pursue a degree. Students should consult the catalog section covering the specific discipline for departmental requirements for admission.
Department of Biology

ADMINISTRATIVE OFFICER

George E. Brown, Department Head, Microbiology

FACULTY

Lee E. Henderson, Anatomy and Physiology
Harriette Howard-Lee, Molecular Biology
Alphonso Keaton, Physiology
Edward W. Martin, Embryology
Gloria Regisford, Reproductive Physiology
Seab A. Smith, Botany
Halcyon Watkins, Anatomy and Physiology

PURPOSE AND GOALS

The graduate program in Biology is designed to provide training at the master’s degree level for students who wish to pursue the doctorate; teach biology in high schools, junior, community and liberal arts colleges; or seek employment in various fields of biology, which include research, and aspects of applied biology.

Graduate study provides students with an opportunity to develop their knowledge and creativity in biology to the maximum of their capabilities.

ADMISSION REQUIREMENTS

A student entering graduate study in biology must present a minimum of 24 semester hours in undergraduate biology, which include courses in General Biology, Zoology, and Botany. In addition to the minimum biology course requirement, at least eight semester credit hours in inorganic chemistry and eight semester credit hours in organic chemistry are required. The grade point average in biology courses should be at least 2.75 based upon the 4.00 grading system.

Students who do not meet the minimal prerequisites must do so before being admitted to graduate status unconditionally. Admission to graduate school does not imply admission to candidacy for the Master’s degree.

ADVANCEMENT TO CANDIDACY

Admission to candidacy for the Master of Science (M.S.) degree is granted after the student completes a minimum of twelve (12) semester hours of resident graduate credit in biology. Only two courses with “C” grades, regardless of credit hours, will be accepted toward credit for the master’s degree. The overall grade point average in biology of a student seeking the Master of Science degree must be a “B” or better.

Persons failing to meet candidacy requirements are placed on probation for a semester or a summer. In the event candidacy requirements are not met at this time, it will be understood that no further graduate credits by the student will be applicable to the M.S. degree in biology.
MASTER OF SCIENCE IN BIOLOGY DEGREE PROGRAM

Courses for which graduate credit may be obtained are numbered 5000 and above. Upon successful completion of the course work and thesis, the student must pass (1) a written comprehensive examination in biology and (2) an oral examination in defense of the thesis and fundamentals of biology.

DEGREE PROGRAM REQUIREMENTS

Program A
A minimum of 30 hours of graduate biology courses and a thesis.

Program B
A minimum of 30 hours of graduate biology courses and a minor in some other area (preferably in the sciences) and a thesis.

Graduate Minor in Biology
A minor in biology at the graduate level includes 12 semester hours of graduate biology.
Department of Chemistry

ADMINISTRATIVE OFFICER

Antoine F. Carty, Interim Head, Organic Chemistry

FACULTY

Larry L. Cole, Organic Chemistry
Vasant M. Doctor, Biochemistry
Hylton G. McWhinney, Analytical Chemistry
John R. Williams, Physical Chemistry

PURPOSE AND GOALS

The Department of Chemistry offers a program of advanced study that prepares graduate students for careers in research, teaching, or industry. Graduate training in the department is multifaceted and flexible, depending on the interests and needs of the student. The program includes coursework, seminars, teaching and/or research, experience, and writing of a thesis.

ADMISSION REQUIREMENTS

Students who plan to work toward the M.S. degree in chemistry must fulfill the following undergraduate requirements: two semesters of inorganic chemistry, one semester of analytical chemistry, two semesters of organic chemistry, and two semesters of physical chemistry. It is expected that the average grades in these chemistry courses and in related courses will not be less than a grade of “C”. A student whose overall GPA in graduate coursework falls below 3.0 on a 4.0 scale will be required to demonstrate improvement during the next enrollment or be discontinued in the program. The Department reserves the right to administer a qualifying examination to these students and to advise them on courses they can take to successfully complete the graduate degree.

ADVANCEMENT TO CANDIDACY

The Application for Candidacy Form must be approved by the department head, Dean of Arts and Sciences, and submitted to the Dean of the Graduate School for approval. Research projects for the thesis will be assigned before the student has been approved as a candidate.

MASTER OF SCIENCE IN CHEMISTRY DEGREE PROGRAM

It is recommended that students who plan to qualify for the M.S. Degree in Chemistry spend at least one year in residence and that those who plan to study during the summer periods plan to devote at least one summer to research. Below is a suggested outline of study for the various fields of chemistry. The outlines represent only the minimum requirements:

DEGREE PROGRAM REQUIREMENTS

Each candidate is expected to successfully complete a minimum of 24 semester hours of course work exclusive of research.

A. Core Classes: twenty (20) SCH
   CHEM 5313, 5322, 5323, 5402, 5534, 5613, 5783

B. Electives: four (4) SCH
   Selected from any graduate chemistry courses

C. Thesis: six (6) SCH
Purpose and Goals

Graduate study in English leads to the Master of Arts degree. It aims to increase capabilities in comprehending and analyzing literature and language. While graduate students have traditionally entered law school or become teachers following completion of the degree requirements, the exposure to American and British literature as well as to linguistics and grammar provides students with the foundation on which various technical, educational, and administrative careers can be built.

Admission Requirements

For admission to the program, a student should present a minimum of 18 semester hours of undergraduate English coursework and a minimum grade of “B” in that work. Prerequisite courses not taken at the undergraduate level, such as the English Language, must be taken before the student advances beyond 12 semester hours of graduate coursework. A student is expected to pass an English qualifying examination before admission to candidacy is approved.

Action on admission to candidacy for a Master of Arts degree in English will be taken after the student has been in residence for at least one semester or summer session; earned at least 12 semester hours of graduate course credits; maintained a “B” average or better; and satisfactorily passed a comprehensive examination in English language and literature.

The student failing to meet the above requirements will be continued on probation for a second semester. In the event the requirements for candidacy remain unmet, it will be understood that no further graduate credits earned by the student will be applicable to a master’s degree.

Master of Arts in English Degree Program

Of the 33 semester hours required for graduation with the M.A. in English, 27 must be taken at this university. Students can select all of their coursework within English, or take 24 SCH of English courses and 9 SCH in an approved minor program.

ADMINISTRATIVE OFFICER

Aliakbar M. Haghighi, Professor & Department Head, Probability & Statistics, Queuing Theory

FACULTY

Neslon Butuk, Applied Mathematics
Arouna R. Davies, Operation Research
Frank T. Hawkins, Mathematics Education
Vera C. King, Mathematics Education
Jian-ao Lian, Wavelet Analysis and Applications
Dimitar P. Michev, Differential and Difference Equations
n’Ekwunife Muoneke, Computational Linear Algebra
George A. Roberts, Complex Analysis and Approximation Theory
Evelyn E. Thornton, Algebraic Topology and Fractals
Johnson K. Wetiba, Statistics

PURPOSE AND GOALS

The Department of Mathematics offers innovative and flexible graduate programs in Mathematics. Students are encouraged to be creative in putting together a course of study that will lead to the fulfillment of individual professional goals in Statistics, Pure Mathematics, Applied Mathematics or Mathematics Education Teaching. Faculty advisors are available to assist students on a continual basis to ensure proper course selection towards graduation and career goals. The department graduate coordinator will assist students in obtaining graduate assistantships and in the final preparations for graduation, such as thesis submission, presentation for non-thesis option, and transcript audit. All applicants seeking the master degree in mathematics should plan a degree program with a graduate advisor. A faculty advisor and/or the Coordinator of graduate mathematics will assist each graduate student on a continual basis to ensure proper course selection relative to career objectives and goals.

DEGREE PROGRAM

The Department of Mathematics offers a Master of Science degree program with thesis and non-thesis options. The Department also provides graduate support courses for degree programs in science and engineering.

ADMISSION REQUIREMENTS

Application for admission to graduate study is made through the Office of Graduate Programs. Applicants seeking a Master of Science degree in mathematics should have the equivalent of an undergraduate major in mathematics from an accredited institution. Applicants who do not hold the equivalent of an undergraduate major in mathematics should request an approved deficiency plan in order to meet this requirement.

MASTER OF SCIENCE IN MATHEMATICS DEGREE PROGRAM REQUIREMENTS – THESIS OPTION

A minimum of 36 semester hours (including thesis) is required for this M.S. degree in mathematics. These courses must be selected from approved 5000 level courses and a grade point average of 3.00 or better must be maintained with no grade below a “C”.
Twelve (12) credit hours of the 36 semester credit hours must include:
MATH 5003 The Real Number System
MATH 5013 Introduction To Point-Set Theory
MATH 5023 Complex Analysis I
MATH 5123 General Topology I

Twelve (12) semester credit hours of the 36 semester credit hours must be selected from one of the following areas:

Statistics  Pure Mathematics  Applied Mathematics
MATH 5233  MATH 5033  MATH 5173
MATH 5473  MATH 5133  MATH 5343
MATH 5753  MATH 5773  MATH 5723
MATH 5773  MATH 5913  MATH 5823

Thesis: 6 SCH
The student must prepare and defend an approved thesis following the Graduate School guidelines.

The remaining 6 semester credit hours must be selected from any of the other 5000 level mathematics courses.

MASTER OF SCIENCE IN MATHEMATICS DEGREE PROGRAM REQUIREMENTS – NON-THESIS OPTION

A minimum of 36 semester hours is required for this M.S. degree in mathematics. These courses must be selected from approved 5000 level courses and a grade point average of 3.00 or better must be maintained with no grade below a “C”. In addition, all applicants seeking this degree option must pass a comprehensive written exit exam and give an oral presentation on an approved topic in mathematics.

Twelve (12) credit hours of the 36 semester credit hours must include:
MATH 5003 The Real Number System
MATH 5013 Introduction To Point-Set Theory
MATH 5023 Complex Analysis I
MATH 5123 General Topology I

Eighteen (18) semester credit hours of the 36 SCH must be selected from the following:

MATH 5303, Modern techniques in Secondary Math
MATH 5443, Statistics for High School Teachers
MATH 5003, The Real Number System
MATH 5013, Introduction to Point-Set Theory
MATH 5103, Special Problems
MATH 5113, Elementary Functions
MATH 5173, Computer Programming
MATH 5203, Calculus for High School Teachers
MATH 5233, Selected Topics in Mathematics
MATH 5283, Structure of Arithmetic
MATH 5293, Logic and Geometry
MATH 5413, Seminar
MATH 5543, Integrated Introduction to
MATH 5991, Independent Study
MATH 5992, Independent Study
MATH 5993, Independent Study

Six (6) semester credit hours of Curriculum and Instruction:
CURR 5003, Theory & Dynamics of Curriculum & Instruction
EDEN 5103, Foundations of Educational Research
Division of Social Work, Behavioral and Political Science

ADMINISTRATIVE OFFICERS

Walle Engedayehu, Interim Division Head

FACULTY

Allison Cotton, Sociology
Karen Douglas, Sociology
Robert P. Jones, Sociology
Sarah Williams, Sociology

PURPOSE AND GOALS

The mission of the graduate program in Sociology at Prairie View A&M University is to develop professional sociologists who are broadly educated in substantive areas of sociology and well trained in theory and methods.

The Master of Arts degree program in sociology offers a curriculum that enables students to analyze, critically evaluate and engage in the planning of solutions to problems that evolve from patterns of human social interaction. The graduate program prepares students for advanced study (e.g., Ph.D.) in sociology, criminology, law, and social welfare.

ADMISSION REQUIREMENTS

In addition to the regular application requirements of the university, applicants to the M.A. program must have the following:

1) A minimum of fifteen hours of undergraduate sociology courses is required, including one course in sociological theory, a basic statistics course, and a course in research methods. Students who apply without this background may be admitted under the condition that they must make up the undergraduate deficiency before starting the MA degree program courses. None of the courses used to correct the deficiency may be counted toward the MA degree.
2) Applicants must present evidence that they are capable of successfully completing a rigorous graduate program. Such evidence must include completion of a department application, and three letters of recommendation from persons in a position to evaluate the student’s academic potential.

MASTER OF ARTS IN SOCIOLOGY DEGREE PROGRAM

A total of 37 semester hours of graduate course work must be completed in graduate status. For those opting to do a thesis, the requirements include 31 hours of course work and 6 hours devoted to the M.A. thesis. Upon the decision to undertake a thesis, the student will form a committee consisting of two sociology faculty, one of whom will serve as the principle advisor, and one additional faculty member from the Division of Social Work, Behavioral and Political Sciences. The topic of the thesis will be determined by the student and the advisor. The format will follow ASA thesis guidelines in conjunction with established criteria by the Sociology Program. The thesis must be orally defended and approved by all members of the faculty thesis committee before the degree is conferred. The student must register for thesis each semester until satisfactorily completed. No graduate credit will be given for undergraduate courses.

For students selecting the thesis option, 31 hours of course work must be completed and 6 hours of supervised thesis hours. Of the 31 hours of course work, 10 hours are core requirements and the remaining 21 are sociology support/elective requirements no more than 6 hours of which can be taken from outside the program.
For students selecting the non-thesis option, 37 hours of course work must be completed: 10 hours of core courses, 21 hours of support area requirements, and 6 hours taken outside the program.

Admission to candidacy will be granted upon completion of 12 semester hours of graduate work in sociology with an average grade of B or better. These hours must be completed in residence. The student must complete the Application for Admission to Candidacy form, through the Division of Social Work, Behavioral and Political Sciences, to the Dean of the Graduate School for approval.

Students must maintain an average GPA of 3.0. Only two courses with a “C” grade, regardless of credit hours, will be accepted toward credit for the Master’s degree.

**DEGREE PROGRAM REQUIREMENTS**

**Common Core**

All of the following must be taken within the student’s first two semesters of enrollment:

- SOCG 5021 Professional Seminar in Sociology
- SOCG 5123 Social Statistics
- SOCG 5213 Classical Sociological Theory
- SOCG 5223 Research Methods

**Non-Thesis Option**

21 SCH Selected From:
- SOCG 5243 Urban Sociology
- SOCG 5263 Sociology of Education
- SOCG 5333 Criminology
- SOCG 5353 Seminar in Race Relations
- SOCG 5413 Contemporary Sociological Theory
- SOCG 5423 Social Stratification
- SOCG 5433 Theory of Criminal Justice System
- SOCG 5443 Social Movements
- SOCG 5453 Complex Organizations
- SOCG 5553 Sociology of Gender and Sex Roles

6 SCH Selected From:
- Related fields approved by advisor

**Thesis Option**

15 SCH Selected From:
- SOCG 5243 Urban Sociology
- SOCG 5263 Sociology of Education
- SOCG 5333 Criminology
- SOCG 5353 Seminar in Race Relations
- SOCG 5413 Contemporary Sociological Theory
- SOCG 5423 Social Stratification
- SOCG 5433 Theory of Criminal Justice System
- SOCG 5443 Social Movements
- SOCG 5453 Complex Organizations
- SOCG 5553 Sociology of Gender and Sex Roles

6 SCH Selected From:
- Related fields approved by advisor
- 6 SCH Thesis
  - SOCG 5613 Thesis
  - SOCG 5623 Thesis

**Total Degree Requirements 37 SCH**
Army Reserve Officers Training Corps

FACULTY

LTC Dexter Q. Henson, Professor of Military Science
MAJ Vonna Baxter, Assistant Professor of Military Science
LTC Robert R. Clarke, Assistant Professor of Military Science
MAJ Anita Roberts, Assistant Professor of Military Science
CPT James Larry, Assistant Professor of Military Science
MSG Bruce Veals, Senior Military Instructor
SFC Jeffry P. Graves, Military Instructor

PURPOSE AND GOALS

The mission of the Army ROTC program is to prepare college students for professional careers as United States Army Officers. The faculty and staff in the department are dedicated military and civilian personnel committed to producing the highest caliber leaders for the nation.

The experience and training provided by Army ROTC separates ROTC graduates from their peers. Army ROTC Cadets are taught to be leaders and are provided hands-on experience in managing physical, financial, and human resources. Our cadets often possess a higher level of self-confidence and superior decision-making skills. The challenge of developing leaders to manage resources and command units equipped with state-of-the-art equipment forms the basic foundation of the military science curriculum.

Graduate students interested in earning a commission are encouraged to apply for an Army ROTC Scholarship. Besides tuition, the scholarship pays educational fees, provides $600 for books per year, and provides the cadet a $350-$400 stipend for each month of the school year.

The Army ROTC course for graduate students allows for a student to complete all requirements in two years. Students with no prior military may be eligible to attend the Leaders Training Course (see below). Students with Prior Service or JROTC experience may be allowed to enroll directly in the advanced course (see below). The advanced course covers the final two years of the ROTC program and includes a five-week camp held during the summer between the first and second year of graduate school. While enrolled in the advanced course, a cadet receives a stipend ranging from $350-$400 per month for up to 10 months of the school year and approximately $700 for attending the National Advanced Leadership Camp.

COMMISSIONING PROGRAM

Completion of Army ROTC qualifies graduate students in all fields for a commission as a Second Lieutenant in the United States Army.

Prior Service
Students with a good record of prior military may be allowed to enroll directly in the advanced course. Students with such experience should contact the Professor of Military Science.

Internship: Leader’s Training Course
Graduate students without any prior military service may be allowed to enroll in the advanced course after successfully completing the summer Leader’s Training Course internship, at Fort Knox, Kentucky. The internship is a four-week training program conducted during the summer months, and it is designed to orient students to the U.S. Army. The training develops and evaluates their officer leadership potential and qualifies them for enrollment in the ROTC Advanced Course program. The student graduates from this program with increased confidence, self-discipline, and decisiveness developed through physical and academic challenges. Participants will receive approximately $700 for the internship. Students who successfully complete the training may also qualify for an Army ROTC two-year scholarship.
ADVANCED COURSE ADMISSION REQUIREMENTS

Course Prerequisites

ARMY 3313 Completion of the summer internship or prior service, or have completed four years of junior ROTC in high school.

ARMY 4413 ARMY 3313, 3371, 3323, 3381

COMMISSIONING PROGRAM REQUIREMENTS

A cadet must satisfy the following requirements in order to be commissioned:

1. Complete or receive constructive credit for 16 hours of Military Science courses.
2. Satisfactorily complete National Advanced Leadership Camp.
3. Receive a minimum grade of C in all Military Science courses.
