4

Note your institution's access method

[← Back](#)

Institutional E-mail domain access

Access to our subscription content is provided based on your institutional e-mail address. Please use your institutional e-mail address to gain access.

[Continue](#)

Need more support? [Contact our Support Team](#)

You will see your institution's access method and relevant details (example shown: Email).

- **Single Sign-On (SSO):** Please make sure you have your credentials for your institution's Single Sign-On ready. You'll be redirected to your institution's SSO page to authenticate (unless you're already signed in to your institution's SSO), then returned to create or sign in to a Springer Nature account and continue registration.
- **Email:** Please use your institutional email address during registration.
- **IP range:** Please connect to your institution's network before continuing.
- **Voucher code:** Please have the voucher code provided by your institution ready. After you register and log in, enter the code in the dedicated area on the learning platform homepage to activate access.

SPRINGER NATURE Nature Masterclasses uses Springer Nature's unified login system.

Your Springer Nature account provides a single login across Springer Nature services, and saves your learning progress across sessions and devices.

5

Register your Springer Nature account

- Enter the email address you would like to register with and select **Continue**.
- If you already have a Springer Nature account, please login.

How to access Nature Masterclasses On-demand

6

Complete your account details

The screenshot shows the 'Create account' page. At the top, it says 'Registering as jane.doe@university.edu'. Below this are input fields for 'Given names', 'Family name', 'Password' (with a hint '(12 or more characters)'), and 'Repeat password'. There are two checkboxes: 'I agree to the Springer Nature terms of use' and 'I want to receive marketing emails about Springer Nature products and services, and my email can be used for digital advertising through third-party platforms'. A 'Register' button with a right arrow is at the bottom.

- Enter your details to set up your Springer Nature account
- Read the Springer Nature terms of use and tick that you accept.
- Select **Register**.

7

Verify your email

The screenshot shows the 'Check your email' page. It says 'To finish creating your account, follow the instructions we have sent you at jane.doe@university.edu.' Below this, it says 'If it seems like you haven't received this email, please check your junk mail or [contact our support team](#).'

- Check your email inbox for a **Springer Nature Account email verification** and follow the instructions.

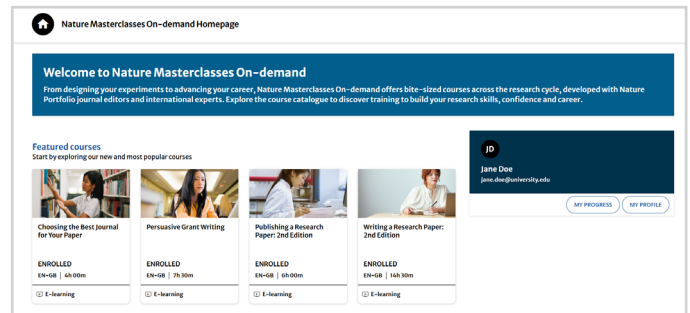

8

Update your information

The screenshot shows the 'Update your personal info' page. It says 'Please fill in the mandatory fields below. If you do not fill them in, you will be logged out.' Below this are two sections: 'Details' and 'Additional fields'. The 'Details' section has fields for 'First name' (disabled), 'Last name' (disabled), and 'Email' (disabled). The 'Additional fields' section has dropdown menus for 'Job Title (required)', 'Discipline (required)', and 'Do you want to receive marketing ema... (required)'. At the bottom right, there are links for 'LOG OUT' and 'UPDATE'.

- When your email is verified, you will be directed to the Nature Masterclasses learning platform.
- After you have read and agreed to our Privacy Policy and our Terms and Conditions, you will be asked to update your Nature Masterclasses profile with additional information.

How to access Nature Masterclasses On-demand

- You will be directed to the homepage of our learning platform where you are now automatically logged in. You are now ready to explore courses and start learning.

Next time: Log in

If you log out of your account, you can log in again.

1. Select Login at the top right of our homepage.
2. Sign in using your Springer Nature account credentials.

Note: If your institution uses SSO or IP range access, you may need to re-confirm access after 30 days (SSO: authenticate via SSO again; IP range: sign in from your institution's network).

3. After successfully signing in, you will be directed to the homepage of our learning platform.
