

THE MODERN CYBER SECURITY THREATS: PHISHING SCAMS & RANSOMWARE

Scammers want your:

Identity

Credit Card & Banking
Information

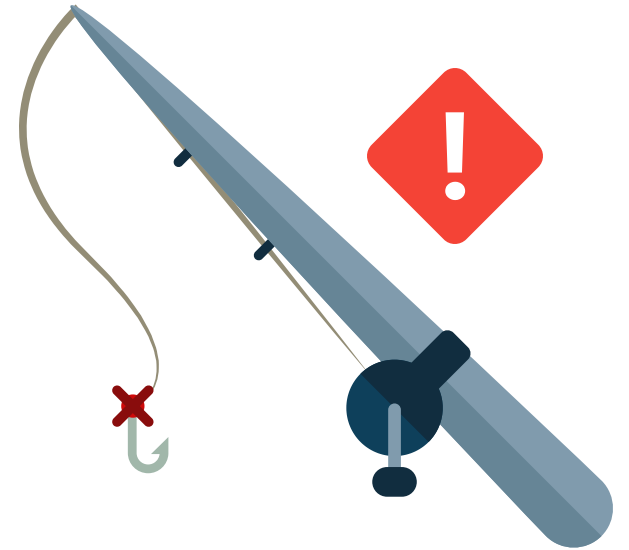

Computer for ransom

Passwords

Access to more
people to scam

5 quick tips to protect your connected devices

#1

Change the default
password on IOT and smart
devices, do not reuse
passwords

#2

Keep devices updated and
patched

#3

Be careful of the apps you
use, use only reputable
apps

#4

Jailbroken devices can lead
to a compromise

#5

Turn off Wi-Fi & Bluetooth
when not in use
