STORY

This program, which provides internships for students from underrepresented backgrounds, was created sixteen years ago in 2007 by three committed THC commissioners. The program has grown from one intern per year to seven and from 5-weeks to 10-weeks in duration.

MISSION

To increase the diversity of voices in Texas' historical narrative. The THC and the Friends are committed to ensuring that the Texas historical narrative is accurate, authentic, complete, and is presented by professionals who not only reflect the diverse population of the past but also the diverse population of the state today.

GOALS

- Increase the representation of cultural and ethnic groups in historic preservation careers
- Increase the number of historic and cultural resources associated with the state's diverse history
- Increase the number of diverse organizations and communities involved in the field of historic preservation
