# New Database Just Added: SCOPUS

Access Scopus from Library Databases A to Z at https://pvamu.libguides.com/az.php

Scopus indexes content from 24,600 active titles and 5,000 publishers which is rigorously vetted and selected by an independent review board, and uses a rich underlying metadata architecture to connect people, published ideas and institutions.

Using sophisticated tools and analytics, Scopus generates precise citation results, detailed researcher profiles, and insights that drive better decisions, actions and outcomes.
