

Explore a business where nothing stands still. Where your ideas can make a difference. And where you'll be part of a collaborative, diverse, inclusive and belonging culture while you contribute to meaningful work. Organizations count on NetApp for cutting-edge ways to store, manage, move and protect their data. Help us meet their needs as you broaden your skills, gain exposure to senior leaders and jump start your career through our early careers programs.

At NetApp you can make a difference by joining our employee networks who advance a diverse, inclusive and belonging workplace, increase employee engagement, and develop future leaders.

Historically, NetApp has been recognized throughout the world as a leader in workplace culture and a great place to work by the Great Places to Work Institute.

Become a Data Visionary and Embark on a Career at NetApp

Internships

Our intern program allows you to expand your knowledge in our industry and contribute to our company. In addition to the project work, interns engage with Senior Leadership, Alumni, and recent Graduates to build their professional network, have fun and plan for your future. We strive to convert approximately 70% of our interns to full-time employees after graduation.

University Graduate Hires (UGH):

This program is designed to enhance the experiences for our University Graduate Hires as they transition from the campus to corporate environment. We aspire to build a diverse and inclusive community for all the UGH's through networking, philanthropy and professional development events while also developing skill sets and fostering meaningful relationships with leadership to excel in work and life.

S³ Academy:

We are committed to developing our future workforce and created a program that enables our University Graduate Hires to fast track their careers through classroom, on the job training, and clear benchmarks. The **Sales, Support, and Services (S³) Academy** is a two-year program that gives graduates base skills, and on going preparation to equip them for success in their careers.

At NetApp we invest heavily in new talent. Your energy and fresh ideas are vital to cementing our position as a market-leader. We'll push you beyond your comfort zone with a belief that no idea is off limits. At the same time, you'll have all the resources, mentoring and feedback you need to grow. What's more, whatever your role, you can be yourself in a team that celebrates individuality and welcomes different perspectives.
