A HUB is a business that is formed for the purpose of making a profit and that is otherwise a legally recognized business organization under the laws of Texas. A HUB must be at least 51 percent owned by one or more persons who are economically disadvantaged due to their identification as members of certain groups. The groups include Black Americans, Hispanic Americans, Asian Pacific Americans, Native Americans, and Women. These individuals must have a proportionate interest and demonstrate active participation in the control, operation, and management of business affairs. A HUB must also have its principal place of business in the state of Texas.

HUB Certification

All businesses participating in the PVAMU's HUB Program must be certified by the Texas Procurement and Support Services (TPASS), the agency which oversees purchasing for the state. There is no fee to become certified as a HUB vendor. Certified HUB vendors are listed on TPASS database which is accessible to all state agencies.

Vendors who are interested in becoming certified HUBs may contact the PVAMU HUB Coordinator, a member of the PVAMU Purchasing staff, or TPASS to request a HUB application.
