Reason for Rule

The purpose of this Rule is to assist PVAMU employees with compliance in regard to the rules that govern the administration of PVAMU contracting authority.

Official Procedures and Responsibilities

1. GENERAL

1.1 This Rule establishes the process for contract origination, recommendation, approval, execution, administration, contract close-out, and contract reporting requirements for PVAMU personnel as it relates to committing the University to the performance of any act.

1.2 Delegations of authority pursuant to this Rule are valid only if submitted to the System Office of Budgets and Accounting in accordance with System Regulation 25.07.01 Contract Administration Delegations and Reporting or if expressly delegated in writing by the President or designee.

1.3 Contracts are construed to include, but not be limited to the following: advertising agreements, affiliation agreements, affiliation service agreements, athletic agreements, consultant agreements, donor agreements, employment agreements, other instructional agreements, Federal and State grant program agreements, Federal and State regulatory agreements, intellectual property agreements, intra-system agreements, lease agreements, legal settlements, memoranda of agreement, professional services agreements, purchase agreements (including purchase orders), sales agreements, special event agreements,...
agreements, interagency agreements, and amendments, alterations, modifications, corrections, and extensions of such contracts.

1.4 With respect to research and sponsored project agreements, approval of and signature on a contract constitutes approval to establish an operating budget (not to exceed the consideration of the contract) without further approval.

1.5 The Senior Vice President for Business Affairs (SVPBA) will serve as the University Contracts Officer and is responsible for creating and maintaining a well-defined administrative control environment that assures management exercises its fiduciary responsibilities when executing contracts on behalf of PVAMU.

1.6 A contract or request for a contract (which may consist of a contract provided by a vendor, sponsor, or other third party) must originate from one of the following: a principal investigator, department head, dean, director, vice president, or the president.

1.7 The department head/budget authority approving and recommending the contract certifies by his/her signature that he/she has the necessary resources under his/her purview to meet all resource commitments. To ensure that the department head/budget authority and his/her subordinates are knowledgeable of all commitments contained in the contract and contract administration roles and responsibilities, a Contract Routing and Approval Coversheet must be used.

1.8 For purposes of this Rule, all contracts, except those specifically assigned in the President’s Delegation of Authority for Contract Administration to be processed by other offices (i.e., employment, sponsored research, intellectual property, real estate, major construction, and donor agreements) will be routed through the Office of Procurement and Disbursement Services.

1.9 The Office of Procurement and Disbursement Services is responsible for managing contracts in accordance with the System Contract Management Handbook, reviewing contract terms in accordance with the Office of General Counsel’s guidelines; coordinating the execution of contracts; and, maintaining contracts in accordance with the University’s Records Retention Schedule.

1.10 In accordance with the requirements of System Policy 25.07 Contract Administration, the Office of Procurement and Disbursement Services is responsible for the administrative management of all University contracts. The processes for managing various contracts based upon assessed risk to the University are outlined below.

1.10.1 For each contract, the contract administrator shall: (1) verify receipt of all goods and services; (2) verify that all outstanding issues are resolved with the contractor; and, (3) verify final payment has been made to the contractor in accordance with the contract terms.

1.10.2 For each major contract, as identified by the Office of Procurement and Disbursement Services, the contract administrator is required to perform the roles and responsibilities outlined in the Contract Routing and Approval Coversheet and monitor all financial and operational elements of the contract. Contract administrators for these contracts are required to
