

PRAIRIE VIEW
A&M UNIVERSITY

SYLLABUS

CHEM 1021

Course Title: Inorganic Chemistry Laboratory II SPRING 2019

Instructor: Dr. Aderemi Oki
Section # and CRN: P50 CRN 26881
Office Location: E.E. O'Banion Science Building, 230AH
Office Phone: 936 261-3104
Email Address: aroki@pvamu.edu
Office Hours: MW: 2:00 pm – 4:00 pm
Mode of Instruction: Face to Face

Course Location: E. E. O'bannion Science Building, 201
Class Days & Times: M 11:00 – 12:50 PM
Catalog Description: General Chemistry Laboratory II – (0-4) Credit 2 semester hours. A general laboratory course covering aspects of volumetric and gravimetric analysis, qualitative analysis, determination of chemical and physical properties,

Prerequisites:
Co-requisites:

Required Texts: Modular Laboratory Program in Chemistry (**Provided by Department of Chemistry**)

**Recommended
Texts:**

Student Learning Outcomes:

Upon successful completion of this course, students will be able to:		Program Learning Outcome # Alignment	Core Curriculum Outcome Alignment
[NOTE: Begin each outcome with a verb]:			
1	Use conversion factors in metric or U.S. units and apply the significant figure concept in stoichiometric calculations		
2	Use basic laboratory equipment		
3	Demonstrate the ability to prepare solutions from solids and by dilution		
4	Define chemistry concisely and with clarity from a practical standpoint		
5	Write correct formulas of compounds, write balanced chemical equations and identify various reaction types through observation		
6	Identify the safety symbols and equipment in a chemistry laboratory and understand their primary use		

Major Course Requirements

Method of Determining Final Course Grade

Course Grade Requirement	Value	Total
Lab performance and report	10 assignments at 100 points each	1000
Total:		1000

Grading Criteria and Conversion:

- A = 1000 – 885 points
- B = 884 – 789 points
- C = 788 – 690 points
- D = 689 – 590 points
- F = 589 points and below

Detailed Description of Major Assignments: [Describe in each assignment valued at 10% of grade or more]

Assignment Title or Grade Requirement	Description
Laboratory Experiments	Each student is required to: follow the safety guidelines for a safe laboratory experience; pay close attention to the instructor; wear safety goggles/glasses (available in lab) while in class; read the experimental procedure and do the prelab prior to coming to the class; clean work area and place all items in the designated storage area prior to leaving the laboratory class; report broken or missed equipment to the instructor

Course Procedures or Additional Instructor Policies

Taskstream

Taskstream is a tool that Prairie View A&M University uses for assessment purposes. One of your assignments may be considered an "artifact," an item of coursework that serves as evidence that course objectives are met. More information will be provided during the semester, but for general information, you can visit Taskstream via the link in eCourses.

[NOTE: If there are any special instructions relating to assignment submissions, formatting, or other course policies, they should be included here. Include individual policies on tardies, cell phones and other class disruptions. If you have additional classroom rules that do not fit on a single page, consider posting them in eCourses instead.]

Semester Calendar

Week One: Topic Description	Lab Safety – TECH 430
Week Two: Topic Description	PROP 377 - Determining Molar Volume of Oxygen
Week Three: Topic Description	STRC 434 - Writing Lewis Symbols and Lewis Structures
Week Four: Topic Description	PROP 391 - Solutions
Week Five: Topic Description	KINE 505 - Studying the Rate of the Reaction of Potassium Permanganate and Oxalic Acid (Part 1)
Week Six: Topic Description	KINE 505 - Studying the Rate of the Reaction of Potassium Permanganate and Oxalic Acid (Part 2)

Week Seven: Topic Description	Midterm EQU 404 - Studying Chemical Equilibria and Applying Le Chatelier's Principle Using Micro Scale Techniques (Part 1)
Week Eight: Topic Description	EQU 404 - Studying Chemical Equilibria and Applying Le Chatelier's Principle Using Micro Scale Techniques (Part 2)
Week Nine: Topic Description	EQU 465 - Using Acid Base indicators to Visibly Estimate the pH of Solutions
Week Ten: Topic Description	ANAL 466 - Standardizing a Sodium Hydroxide Solution and Using it to Analyze Vinegar
Week Eleven: Topic Description	ELEC 450 - Studying Electrochemical Half-Cells and Half-Reactions
Week Twelve: Topic Description	SYNT 439 - Synthesizing Aspirin
Week Thirteen: Topic Description	Makeup Lab
Week Fourteen: Topic Description	Final Exam

Student Support and Success

John B. Coleman Library

The library and its partners have as their mission "to provide resources and instructional material in support of the evolving curriculum, as a partner in Prairie View A&M University's mission of teaching, research, and service" and to support the University's core values of "access and quality, diversity, leadership, relevance, and social responsibility" through emphasis on ten key areas of service. It maintains library collections and access both on campus, online, and through local agreements to further the educational goals of students and faculty.

Center for Academic Support

The Center for Academic Support (CAS) offers Tutoring via peer tutoring. The services include workshops (i.e., Save My Semester, Recalculate Your Route), seminars (i.e., Tools You Can Use: TI-84), group review sessions (i.e., College Algebra Topic Reviews, GRE Preparation), group study opportunities (i.e., TSIA, HESI, Study Break, Exam Cram), and test-taking strategies (How to take Notes, Study Buddy, 5 Day Study Guide). The Tutoring Center is a nationally certified tutoring program through the National Tutoring Association. The peer tutors are trained and certified by the coordinator each semester. Location: J.B. Coleman Library

COMPASS

The Center for the Oversight and Management of Personalized Academic Student Success (COMPASS) is designed to help Prairie View students in their second year and beyond navigate towards graduation by providing the following services: Academic Advisement, Targeted Tutorials for Personalized Learning, Campus-Wide Referrals, and Academic & Social Workshops. Location: J.B. Coleman Library

Writing Center

The Writing Center provides student consultants on all aspects of the writing process and a variety of writing assignments. Writing Center consultations assist students in such areas as prewriting, brainstorming, audience awareness, organization, research, and citation. Location: Hilliard Hall 121

University Rules and Procedures

Disability statement (See Student Handbook):

Students with disabilities, including learning disabilities, who wish to request accommodations in class should register with the Services for Students with Disabilities (SSD) early in the semester so that appropriate arrangements may be made. In accordance with federal laws, a student requesting special accommodations must provide documentation of their disability to the SSD coordinator.

Academic misconduct (See Student Handbook):

You are expected to practice academic honesty in every aspect of this course and all other courses. Make sure you are familiar with your Student Handbook, especially the section on academic misconduct. Students who engage in academic misconduct are subject to university disciplinary procedures.

Forms of academic dishonesty:

1. Cheating: deception in which a student misrepresents that he/she has mastered information on an academic exercise that he/she has not mastered; giving or receiving aid unauthorized by the instructor on assignments or examinations.
2. Academic misconduct: tampering with grades or taking part in obtaining or distributing any part of a scheduled test.
3. Fabrication: use of invented information or falsified research.
4. Plagiarism: unacknowledged quotation and/or paraphrase of someone else's words, ideas, or data as one's own in work submitted for credit. Failure to identify information or essays from the Internet and submitting them as one's own work also constitutes plagiarism.

Nonacademic misconduct (See Student Handbook)

The university respects the rights of instructors to teach and students to learn. Maintenance of these rights requires campus conditions that do not impede their exercise. Campus behavior that interferes with either (1) the instructor's ability to conduct the class, (2) the inability of other students to profit from the instructional program, or (3) campus behavior that interferes with the rights of others will not be tolerated. An individual engaging in such disruptive behavior may be subject to disciplinary action. Such incidents will be adjudicated by the Dean of Students under nonacademic procedures.

Sexual misconduct (See Student Handbook):

Sexual harassment of students and employers at Prairie View A&M University is unacceptable and will not be tolerated. Any member of the university community violating this policy will be subject to disciplinary action.

Attendance Policy

Prairie View A&M University requires regular class attendance. Excessive absences will result in lowered grades. Excessive absenteeism, whether excused or unexcused, may result in a student's course grade being reduced or in assignment of a grade of "F". Absences are accumulated beginning with the first day of class.

Student Academic Appeals Process

Authority and responsibility for assigning grades to students rests with the faculty. However, in those instances where students believe that miscommunication, errors, or unfairness of any kind may have adversely affected the instructor's assessment of their academic performance, the student has a right to appeal by the procedure listed in the Undergraduate Catalog and by doing so within thirty days of receiving the grade or experiencing any other problematic academic event that prompted the complaint.

Disability statement (See Student Handbook):

Students with disabilities, including learning disabilities, who wish to request accommodations in class should register with the Services for Students with Disabilities (SSD) early in the semester so that appropriate arrangements may be made. In accordance with federal laws, a student requesting special accommodations must provide documentation of their disability to the SSD coordinator.

Disclaimer

The instructor reserves the right to amend or change the syllabus at any time.

TECHNICAL CONSIDERATIONS

Minimum Recommended Hardware and Software:

- Intel PC or Laptop with Windows 7; Mac with OS X; Smartphone or iPad/Tablet with Wi-Fi
- High speed Internet access
- 8 GB Memory

- Hard drive with 320 GB storage space
- 15" monitor, 800x600, color or 16 bit
- Sound card w/speakers
- Microphone and recording software
- Keyboard & mouse
- Most current version of Google Chrome, Safari, Internet Explorer or Firefox

Note: Be sure to enable Java & pop-ups

Participants should have a basic proficiency of the following computer skills:

- Sending and receiving email
- A working knowledge of the Internet
- Proficiency in Microsoft Word (or a program convertible to Word)
- Proficiency in the Acrobat PDF Reader
- Basic knowledge of Windows or Mac O.S.

Netiquette (online etiquette):

Students are expected to participate in all discussions and virtual classroom chats as directed. Students are to be respectful and courteous to others on discussions boards. Foul or abusive language will not be tolerated.

Technical Support:

Students should go to <https://mypassword.pvamu.edu/> if they have password issues. The page will provide instructions for resetting passwords and contact information if login issues persist. For other technical questions regarding eCourses, call the Office of Distance Learning at 936-261-3283

Communication Expectations and Standards:

Emails or discussion postings will receive a response from the instructor, usually in less than 48 hours. Urgent emails should be marked as such. Check regularly for responses.

Discussion Requirement:

Online courses often require minimal to no face-to-face meetings. However, conversations about the readings, lectures, materials, and other aspects of the course can take place in a seminar fashion. This will be accomplished by the use of the discussion board. The exact use of discussion will be determined by the instructor.

It is strongly suggested that students type their discussion postings in a word processing application and save it to their PC or a removable drive before posting to the discussion board. This is important for two reasons: 1) If for some reason your discussion responses are lost in your online course, you will have another copy; 2) Grammatical errors can be greatly minimized by the use of the spell-and-grammar check functions in word processing applications. Once the post(s) have been typed and corrected in the word processing application, it should be copied and pasted to the discussion board.

Disclaimer

The instructor reserves the right to amend or change the syllabus at any time.
