JOHN W. BELLIAN, AIA, NCARB, LEED A.P.

John W. Bellian received his Bachelor of Architecture and Masters Degree from the University of Detroit Mercy in Detroit Michigan. John's career of more than thirty years has provided him with a wealth of knowledge and experience in all aspects of the architectural profession. As Registered Architect Certified by the National Council of Architectural Registration Board as well as a LEED Accredited Professional, John has dedicated his career to the pursuit of knowledge. To that end, John joined the Faculty as an Adjunct Professor at the University of Houston School of Architecture in 2015, where he teaches Professional Practice and continues to research study and teach. In today's competitive world and fragile economy John believes; "...we are architects, we design the history for the future generations to discover, that's a pretty big deal and lot of responsibility when you think about it..."

Over Johns 32 year career in Architecture and continuously actively licensed for more than 28 years, John has been responsible for over 100 projects across 23 States, 6 Countries and 2 Continents. His 'crown' project is the CMA Tower in Riyadh, Saudi Arabia. The CMA Tower is the centerpiece to the King Abdullah Financial District and is the heart of the Saudi Financial and Market Authority. This project is an approximately 2 million square foot, 78 story super-Highrise, towering 390 meters into the skyline and was the tallest building in Saudi Arabia at the time of completion in 2015.
