I am humbled by faculty, Department Chairs, Deans, Vice Presidents and Presidents of other Institutions, Mathematical Associations' Presidents and Mathematics and Engineering Journals' Editors-in-Chiefs, who are taking valuable times off their busy schedules to review manuscripts for AAM. Their volunteer and priceless contributions represent a great and selfless service to the mathematics and science professions and, in particular, to the AAM.

My final gratitude goes to President Dr. George C. Wright and the IT department of Prairie View A&M University for providing us the opportunity to get the journal online, to Assistant and Associates Editors and the Mathematics Departmental staff.
