

UMA LIBRARY FEATURES

Welcome and Welcome Back PVAMU Students!

Highlights:

- Check out materials in 129M
- Interlibrary loan materials
- Study Rooms
- Test Prep Books
- Individual Research Consultations
- Research Databases (more to come!)
- Course reserves
- Medical DVD's for checkout or in library use

New Librarian

Hello, I'm Tenley Sablatzky, I'll be the UMA librarian. The purpose of putting together this newsletter is to let everyone know what's available and happening in the library.

My first priority will be making the library a functional space that meets the needs of you, the students. Anytime you have questions about the library, need research help, or have suggestions for how to improve the library, my door (and email) is always open.

Resources

Checkout materials: Any UMA student may check out materials at my office (129M).

Course Reserves: Coleman library has course reserves for many classes available to be checked out. If your class isn't posted there, send me the class name, name of the book, edition, and ISBN and I'll see about ordering a copy for UMA.

Study Rooms: There are 4 study rooms in the UMA available to you, as well as several in the Harrington Research Lab (Harrington 301). I'm also working on additional study spaces.

Research Consultations: For those of you looking for assistance with research, stop by my office, or schedule a time to meet with me via email.

New Materials: New medical databases, journals, study materials and books will be coming soon! Until then, Coleman has many resources as well, and I'm more than happy to help you search for what you need.

Interlibrary Loan Requests: If you need an item not in the collection, we can always find it at a different library around Texas and get it loaned to you.

Suggestions

I'll always be looking for new ways to improve the library for you, so don't hesitate to send me suggestions!
