NATIONAL TRANSPORTATION RESEARCH BOARD SELECTS ENGINEERING STUDENTS FOR ITS 2021 CLASS OF MINORITY STUDENT FELLOWS

Three PVAMU students are among the 25 chosen by the board, a program unit of the National Academies of Sciences, Engineering, and Medicine.

PRAIRIE VIEW, Texas (October 7, 2020) – Three Prairie View A&M University undergraduate students in the Roy G. Perry College of Engineering can now call themselves national fellows. The Transportation Research Board (TRB)—a program unit of the National Academies of Sciences, Engineering, and Medicine—announced its 2020 class of Minority Student Fellows of 25 undergraduate and graduate students enrolled at select minority-serving institutions.

The three PVAMU students include:

- Austin Dikas
  Electrical Engineering
- Alun Ward
  Mechanical Engineering
- Kamal Windom
  Electrical Engineering

For 2021, TRB selected 16 undergraduate and nine graduate students. They will participate in TRB’s 2021 Annual Meeting, where they will make paper presentations, take part in Young Members Council sessions, as well as a career panel and committee meetings.

TRB established its Minority Student Fellows Program in 2010 “to actively explore research, ideas, and solutions from diverse perspectives.” A long-term goal of the program is to increase the number of underrepresented minorities in the transportation field and TRB activities.
