

# App Development Training Sessions

SUPPORTED BY THE PVAMU HBCU C2 PROJECT

**Be familiar with Swift  
programming language and  
use it to develop basic iOS or  
OSX apps.**

**Be skillful in using XCode to  
develop applications for iOS  
devices and Mac computers.**

**Be prepared to learn  
advanced iOS topics  
following training and  
develop useful and more  
complex iOS apps.**

**NOTE:** The Training will be done through zoom and anyone who registers and does not have a device (MacBook), the person will be given an opportunity to check out a device from the Computer Science Department for the duration of the training.

**Instructor: Dr. Yang Yonggao, Dept. Head, Computer Science**

**TIME: 2:00 - 5:00PM EACH DAY**
