Delbert Price, Psychology
Edward J. Schauer, Criminal Justice
Cletus J. Snell, Criminal Justice
Richard Tachia, Juvenile Justice
Frank P. Williams III, Juvenile Justice

PURPOSE AND GOALS

The School of Juvenile Justice & Psychology is the academic unit housing the undergraduate and graduate programs for Criminal Justice, Juvenile Justice, Juvenile Forensic Psychology, and Psychology. Its purpose is to provide education and training in juvenile justice-allied disciplines and to produce students who will ultimately improve the juvenile justice system and work to resolve the problems of delinquency.

The School of Juvenile Justice & Psychology at Prairie View A&M University offers undergraduate courses leading to a Bachelor of Science degree in Criminal Justice or Criminal Justice with a Specialization in Juvenile Justice as well as a Bachelor of Science Degree in Psychology. The School also offers graduate courses leading to a Master of Science Degree in Juvenile Justice, a Master of Science Degree in Juvenile Forensic Psychology, and a Ph.D. Degree in Juvenile Justice.

The School seeks a diverse group of qualified students with backgrounds in various disciplines committed to improving the life experiences of youths involved in the Juvenile Justice System.

Master of Science in Juvenile Justice

The Master of Science program in Juvenile Justice offers a curriculum that enables students to critically evaluate and confront the humanistic, technical, and scientific aspects of criminal justice as applicable to juvenile crime and delinquency.

Specifically, the primary objectives of the Master of Science in Juvenile Justice are to:
School of Juvenile Justice and Psychology Academic Programs

- Enhance students' knowledge, skills, and resourcefulness related to detained and institutionalized juveniles in the juvenile justice system
- Increase students' knowledge of theoretical explanations and the etiologies of delinquency and juvenile crime
- Assure that students engage in the humanistic, technical, and scientific aspects of delinquency and juvenile crime
- Increase students' knowledge concerning effective methods to intervene and prevent delinquency
- Increase students’ skills in how to conduct research and evaluate programs related to delinquency
- Expand students' knowledge of programs and policies related to delinquency

Since there are no comparable degree programs in the nation, graduates will have a unique opportunity to acquire specialized skills and competencies that should positively impact the lives of troubled youth across the state of Texas.

Master of Science in Juvenile Forensic Psychology

The Master of Science degree in Juvenile Forensic Psychology is a unique program in the State of Texas, and probably the only degree of its kind in the world. Its creation is in keeping with the intent of the timely and insightful action of the Texas Legislature in its determination to focus on children in the creation of the Texas Juvenile Crime Prevention Center at Prairie View A&M University.

The student in the graduate program of Juvenile Forensic Psychology at Prairie View A&M University will study psychological theories of behavior, misbehavior, and deviance.

Specifically, the primary objectives of the Master of Science in Juvenile Forensic Psychology are to:
- Enhance students' knowledge of how psychology interacts with the law and the legal system
- Increase students’ knowledge of theoretical explanations of juvenile delinquency, juvenile crime, and juvenile aggression, especially from the viewpoint of psychological theories
- Provide students with skills in research methodology and statistics;
- Enhance students’ knowledge of the cognitive and personality development of youth especially as it pertains to aggression in various stages;
- Increase students’ knowledge of the psychological dynamics of family violence such as child abuse, spouse abuse, incest, and other forms of interfamily violence;
- Provide students with knowledge and skills pertaining to the assessment, classification, and treatment of juvenile offenders; and
- Provide students with skills in psychological assessment and evaluation

Doctor of Philosophy in Juvenile Justice

The goal of the Ph.D. program is to provide doctoral training in juvenile justice research. General objectives include the development of new knowledge, juvenile crime prevention and improvement in the juvenile justice system, and dissemination of knowledge gained. The specific intention of the program is to produce scholars with three characteristics: First, graduates will have superior empirical skills. Second, they will be specialists in the subject matter of the juvenile justice discipline. Third, they will be generalists in the subject matter of criminal justice. The program produces scholars to teach in criminal justice and criminology departments of colleges and universities and researchers to work in federal, state, and large local agencies.

The Texas Juvenile Crime Prevention Center

In 1997, the Texas Legislature authorized the creation of the Texas Juvenile Crime Prevention Center (Texas JCPC) at Prairie View A&M University. This resulted in the creation of the School of Juvenile
Justice and Psychology. The Texas JCPC is unique in the state of Texas and the nation and is committed to assisting with the reduction of juvenile crime and delinquency among youth.

The purpose of the Texas JCPC is to:

- Increase the knowledge of educators, practitioners, and others by conducting research and evaluation relating to juvenile crime
- Improve the knowledge and skills of students in the field of criminal justice by offering undergraduate degrees, graduate degrees, and continuing education
- Improve the dissemination of information relating to the reduction of juvenile crime
- Increase knowledge about programs and policies that address juvenile crime
- Enhance the skills of personnel by providing training and advice for practitioners engaged in juvenile crime and delinquency prevention

ADMISSION REQUIREMENTS

The Master of Science Programs

In addition to the general admission requirements to the graduate school described elsewhere in the catalogue, students seeking admission to the M.S. degrees in juvenile justice and juvenile forensic psychology should meet the following requirements:

1. A bachelor's degree from an accredited college or university
2. A minimum GPA of 2.75 with a GPA of 3.0 or higher preferred
3. Three letters of recommendation from persons in the field of the applicant's academic major or area of concentration
4. Submission of official scores on the general component of the Graduate Record Examination (GRE)
5. Completion of liberal arts courses at the undergraduate level such as social sciences, behavioral sciences, college algebra, and statistics
6. Completion of an essay detailing the applicant’s reasons for pursuing the degree

The Ph.D. Program

Admission criteria for the Ph.D. Program in Juvenile Justice, as established by the Program faculty, are as follows:

Required elements: (In order for an application to be considered, all elements below must be present in the applicant’s file by the semester deadline.)

1. Baccalaureate degree conferred by a regionally-accredited institution;
2. Master’s degree, prior to entering doctoral course work, conferred by a regionally-accredited institution;
3. Official Graduate Record Examination (GRE) score report, submitted to the Graduate School (an unofficial copy may be used by the Doctoral Committee in initial screening);
4. Original transcripts, submitted to the Graduate School, for all academic work taken at the undergraduate and graduate levels (unofficial copies may be used by the Doctoral Committee in initial screening);
5. Three letters of recommendation;
6. Original written essay as described in the doctoral application form and a copy of the master’s thesis or other lengthy report or paper; and
7. If a foreign student, submission of official results from the Test of English as a Foreign Language (TOEFL). A score of 600 or higher is mandatory

Preferences:
1. Baccalaureate degree in juvenile justice, criminal justice, or criminology. A secondary preference is a directly-related social science discipline (such as sociology) in which there is evidence of the study of crime-related phenomena.
2. 3.0 Grade Point Average (GPA), or higher, on a four-point scale on all completed undergraduate course work.
3. Master’s degree in juvenile justice, criminal justice or criminology. A secondary preference is a directly-related social science discipline (such as sociology) in which there is evidence of the study of crime-related phenomena.
4. 3.5 GPA, or higher, on a four-point scale in all completed graduate course work.
5. Graduate research methods course (if not present, stem work must be completed).
6. Graduate statistics course (if not present, stem work must be completed).
7. Graduate Record Exam (GRE) Verbal and Quantitative scores in the higher percentiles.
9. Written essay demonstrating strong writing skills; an expressed desire to teach at college level, work as researcher in a juvenile justice agency, and/or assist in developing juvenile justice policy within a governmental environment; realistic expectation of the degree’s value; evidence of commitment to completing the degree; strong rationale for wanting this specific Ph.D.; and a rationale expressing what the applicant will add to the field.
10. Letters of recommendation from faculty sufficiently acquainted with the student to be able to comment on the potential to successfully complete a doctoral program and demonstrating evidence of excellent critical thought, motivation, study skills, and writing skills. Preferred ratings would be primarily excellent in all categories with an overall rating in the top 3 to 10 percent of all graduate students.

Enhancing qualities:
The committee will consider the following as information that will enhance an application:
1. Three or more years of paid work experience in a juvenile justice agency (law enforcement, probation/parole, or correctional institution).
2. Completion of a previous doctoral degree in any field.
3. College-level teaching experience, either as a part-time or full-time instructor.
4. Publication(s) in academic and/or scholarly outlets, with greatest emphasis on peer-reviewed publications.
5. Paid research work experience (not that involved in the production of a thesis).
6. Grant-writing experience.
7. Ability to attend courses as a full-time student (requires less than full-time outside employment).

Interview:
In the event the initial committee decision is favorable, applicants must submit to an interview with the Doctoral Committee prior to final acceptance. That interview may be either in person or via the equivalent of a telephone conference call, depending upon the distance and hardship involved in a personal interview.

Applicants will be admitted in one of two statuses: full graduate status or provisional status.
1. Full graduate status is conferred on those students admitted to the program with no conditions of admission, or who have satisfied all conditions of admission.
2. Provisional admission status is used when the Doctoral Committee feels that prerequisites have not been met, official versions of required forms have not been received, and/or there is a question of ability to perform at doctoral standards by virtue of a failure to meet specific
admissions criteria. Students who are provisionally admitted must satisfy all requirements prior to being admitted to full graduate status (conditions and requirements will be provided via letter to the student). In the event of a failure to meet prerequisites, deficiencies must be completed prior to beginning doctoral course work. No doctoral course work may be taken when there are prerequisite deficiencies nor may stem work be used to meet doctoral program requirements. Where stemwork is assigned to rectify deficiencies, any grade lower than “B” will automatically result in a decision to deny admission. No more than 12 units of course work may be taken in provisional status.

It is the student's responsibility to ensure that all conditions of admission are met in a timely fashion and to notify the doctoral coordinator when all conditions are met. Following the first semester in provisional status (non-prerequisite-deficiency cases), the Doctoral Committee will meet to consider placing the student in full graduate status. Based on the evidence at hand, the Committee may admit to full graduate status or dismiss from the program.

No student will be accepted in courses unless he/she is in full graduate status or provisional status within the Juvenile Justice Doctoral Program.

**MASTER OF SCIENCE IN JUVENILE JUSTICE DEGREE PROGRAM**

The MSJJ Program requires the completion of 36 semester credit hours. Two options are available for students: thesis and non-thesis. Students opting for the thesis curriculum must successfully complete 30 hours of course work in addition to 6 hours of thesis. The non-thesis option requires the successful completion of 36 hours of course work and passing a comprehensive examination.

Additionally, graduate students are to complete 200 hours of professional internship with agencies or programs servicing juvenile delinquents.

DOCTOR OF PHILOSOPHY IN JUVENILE JUSTICE DEGREE PROGRAM

The program requires a minimum of 61 semester credit hours for the Ph.D. Of these hours, 49 are course work hours and 12 are dissertation hours. Only 6 hours may be from courses lower than the 7000 level. The Juvenile Justice Ph.D. Program has no tracks. There is a common core and students may develop a specialty by structuring their choice of substantive courses, elective courses, and dissertation topic.

Courses taken during a master’s degree program may not be repeated for credit at the doctoral level. No more than two (2) courses lower than the 7000 level may be applied toward fulfilling the requirements of the Ph.D. program. Courses lower than the 7000 level must be approved by the Doctoral Coordinator prior to enrolling. In no event will more than one lower-level course in each of the theory and juvenile justice areas be approved.

Transfer of Graduate Courses from Other Universities
A maximum of six (6) units of juvenile-justice-related doctoral-level course work may be transferred from other accredited universities. A minimum grade of “B” is required in any such courses. Transfer credit is granted by petition to, and approval by, the Doctoral Committee, with final approval by the Dean of the School. It is the student’s responsibility to initiate the petition and justify the acceptance of the courses. In the event a student has taken less than 7000-level courses to be used toward the course work requirements of the doctoral program, the number of allowed transfer units are reduced
on a one-for-one basis. Courses presented for transfer credit must be the equivalent of courses in the doctoral program.

**Continuous Enrollment**
Continuous enrollment defines the minimal level of academic activity needed to remain enrolled in the program. A Ph.D. student is considered to be continuously enrolled when he or she is enrolled for at least one course during each of the Spring and Fall academic semesters. Once a Ph.D. student has been admitted to candidacy he or she must enroll for a minimum of 6 hours during the 12-month academic year to be continuously enrolled. Students who fail to meet the continuous enrollment criteria will be withdrawn from the program and must apply for readmission. The sole exception is enrollment during comprehensive exams. Students taking comprehensive exams are not required to be enrolled in course work.

**Residency**
Students must establish course work residency before being admitted to candidacy. The residency requirement is considered to be met when a student has been continuously enrolled on campus for two consecutive semesters (excluding the summer semester).

**Leave of Absence**
Graduate students who have not completed their formal course requirements are expected to enroll continuously in the program during all consecutive long semesters after initial registration. Students who do not expect to be enrolled should request a leave of absence in a letter to the Doctoral Coordinator. A leave of absence is granted at the discretion of the Dean.

This provision includes students who have completed their formal course requirements and are writing the dissertation away from the campus. During a leave of absence, a student cannot make use of the University or School of Juvenile Justice and Psychology resources, nor can a student attempt comprehensive exams or defend a dissertation.

**Good Standing**
Ph.D. students remain in good standing when they maintain a minimum cumulative GPA of 3.0 for graded courses in the doctoral program. Only grades of "A" or better count toward required course work (i.e., all but the elective courses) and dissertation hours. Any grade lower than "B" in a required area course will necessitate that the course be retaken and passed with a grade of "B" or higher. While one elective grade of "C" may be counted toward the Ph.D., only grades of "B" or better indicate satisfactory completion of courses required for the Ph.D. If a second such grade is earned, the student will be dismissed from the program, but may petition the Doctoral Committee for readmission. After reviewing the petition, the committee may allow readmission under such conditions as it deems appropriate. A third grade lower than "B" will result in permanent dismissal from the program with no recourse to petition.

**Time Limit**
A student must complete all requirements for the Ph.D. degree within seven (7) consecutive years after the first date of enrollment in the program. If transfer courses are permitted, the initial enrollment date of those courses must not exceed seven years prior to the date the degree is awarded.

**Comprehensive Examination**
Before they may be admitted to candidacy, students must successfully complete their doctoral examinations. These examinations are employed to test the student's general knowledge, his or her ability to integrate and synthesize the wealth of information in the field, and his or her preparation for engaging in the kind of independent scholarship required to complete a doctoral dissertation. Students failing any portion of the comprehensive examinations must consult with the Doctoral Coordinator to
determine the steps to be taken. Two consecutive failures on any examination will result in the student's dismissal from the Ph.D. program.

**Advancement to Candidacy**

Following successful completion of the comprehensive examinations, it is the student's responsibility to petition for advancement to candidacy. To be advanced to candidacy, students must have completed all of the following requirements and/or procedures:

1. Achieved a cumulative grade-point average no lower than 3.0 in program course work and a minimum grade of "B" (3.0) in all required area courses.
2. Completed all program course work with no more than one grade lower than "B" (unless the student successfully petitions his or her dismissal and retakes a second "C" course with a grade of "B" or higher).
3. Successfully passed all comprehensive examinations.

Students admitted to candidacy are required to accumulate a minimum of 6 credit hours during each twelve month period following admission to candidacy and until such time as the degree is granted. Further, a student must be enrolled for a minimum of 3 dissertation hours during any semester in which University resources are used. Assistantship students must continue to meet the enrollment criteria for maintaining their assistantship. Any exception to this policy requires the approval of the Doctoral Program Coordinator and the Dean of the School of Juvenile Justice & Psychology. Students who fail to enroll for the appropriate number of hours following advancement to candidacy shall be placed on probation. To be removed from probation, the student must enroll for the deficient number of credits plus three additional credits in the next semester. Students who do not meet these requirements will be dismissed from the doctoral program and required to reapply for admission, subject to any new admissions criteria in effect at the time of readmission.

**Dissertation**

Following approval of the student's application to candidacy, the student may enroll in Dissertation hours. Two attempts at passing both the dissertation prospectus defense and the dissertation defense are permitted. Having met other requirements for the degree, students who successfully defend their dissertations and complete the submission process are granted the degree of Doctor of Philosophy at the commencement ceremony immediately following. Failure to pass either the dissertation prospectus defense or the dissertation defense will result in the student's dismissal from the program.

The determination of completion requirements for the Doctor of Philosophy degree in Juvenile Justice is solely the province of the program faculty.

**Financial Assistance**

The Graduate Programs of the School offer a limited number of graduate assistantships to qualified full-time students. Students who receive such an award are required to assist faculty on research projects and/or teach courses in the undergraduate programs. Criteria for assignment of master's assistantships include quantitative information (GPA, GRE scores) and qualitative information (undergraduate preparation, writing, and letters of recommendation). Criteria for assignment of doctoral assistantships to new students include quantitative information (graduate GPA, GRE scores and TOEFL scores) and qualitative and/or supplemental information (letters of recommendation, examples of student writing, applicant's statement of interest and intent, preparation in the field of study, academic publications, previous college-level teaching experience, research work in the field, and grant-writing experience). No standardized test score will be used as the sole criterion for awarding assistantships or for rejecting applicants for assistantships.
Student loans are available to graduate students at Prairie View A&M on the basis of need. For more information about loans and other sources of aid, contact the Office of Student Financial Services, Evans Hall, Rm. 201, Prairie View A&M University, Prairie View, TX 77446.

*Selected courses lower than the 7000 level may be accepted with petition to and approval of the Doctoral Coordinator prior to enrollment.

**Selected courses lower than the 7000 level may be accepted with petition to and approval of the Doctoral Coordinator prior to enrollment. Comprehensive exams will, minimally, require content from
JJUS 7673, 7773 and 7873. Therefore, students are strongly encouraged to select these courses to meet the delinquency theory area requirement.
