THE MARVIN D. AND JUNE SAMUEL BRAILSFORD
COLLEGE OF ARTS AND SCIENCES
The Marvin D. and June Samuel Brailsford College of Arts and Sciences provides support courses for all undergraduate programs in addition to offering four areas of degree specialization in History, Political Sciences, Sociology, and Social Work. Teacher education in Social Studies and a Master of Arts in Sociology are also available through the College.
At PVAMU’s Brailsford College of Arts and Sciences, we promote excellence in teaching and research, diversity, and unity. Our objective is to prepare students who will make a difference in the world.

The College consists of eight departments and one division offering courses leading to 15 degrees at the Bachelor’s level and six degrees at the Master’s level. We seek to develop in our students the traditional liberal arts skills of critical thinking, analysis, problem solving, and communication. Furthermore, we intend for our students to acquire some depth in a major field by understanding how knowledge is generated, organized, accessed, and given meaning.
The Marvin D. and June Samuel Brailsford College of Arts and Sciences

EXPERIENCE:

Innovative course instruction infused with the newest teaching technologies has afforded the BCAS the opportunity to create learning environments that foster academic excellence and promote student success.

Enriched with dedicated faculty who have been recognized by the Texas A&M University System for their excellence in teaching and research, the BCAS faculty links theoretical concepts taught in class to service learning activities that consolidate student learning outcomes and encourage career awareness.

Through partnerships with other universities, industries, corporations, and governmental agencies, our students are able to actively participate in summer programs, internships, and study abroad programs that afford them the opportunity to grow academically, professionally, and globally which, in turn, prepares them to make a positive impact on the world.
The Marvin D. and June Samuel Brailsford
College of Arts and Sciences
The Biology Department strives to prepare its students for careers in the health professions and to be future leaders in STEM. The department has earned a national reputation for graduating qualified competitive individuals who gain admission into medical school, dental school, graduate school, pharmacy school, veterinary medical school, podiatry school, physical therapy school, physician assistant school, and other allied health areas.

Faculty research projects are externally and internally funded to support hypothesis-driven undergraduate research experiences in the biomedical and plant sciences.

Summer Bridge Pre-Medical Concepts Institute has been a very successful program for over 30 years and has prepared PVAMU students majoring in biology with the academic foundations to pursue careers in medicine, dentistry, research teaching, and industry. The newly established Anatomical Visualization and Simulation Center has revolutionized course delivery in Human Anatomy and Physiology.
Biology Honor Societies and Clubs

BETA BETA BETA BIOLOGICAL HONOR SOCIETY

Beta Beta Beta Biological Honor Society stimulates sound scholarship, promotes the dissemination of scientific knowledge, and encourages investigation in the life sciences.

BETA KAPPA CHI

Beta Kappa Chi encourages and advances scientific education through original investigation, dissemination of scientific knowledge, and stimulation of high scholarship in the pure and applied sciences.

THE PRE-MEDICAL CLUB

The Pre-Medical Club exists to establish a rapport between the biology department and medical schools; to establish a better relationship between pre-medical students and professional schools staff; to provide opportunities for students to visit various health-profession schools for tours, chats, and informal lectures; to assist students in becoming test-sophisticated, and to strengthen students in the pursuit of culture.

THE PRE-VETERINARY MEDICAL CLUB

The Pre-Veterinary Medical Club exists to establish a rapport between the biology department, veterinarians, and colleges of veterinary medicine; to establish student veterinary preceptorships to provide opportunities for visits to zoos and the College of Veterinary Medicine at Texas A&M University; to become aware of the vast differences in entry requirements for the 27 colleges of veterinary medicine, and to assist students in becoming test-sophisticated.

THE PRE-DENTAL CLUB

The Pre-Dental Club exists to establish a rapport between the biology department and dental schools; to establish a better relationship between pre-dental students and dental school staff; to provide opportunities for students to visit dental schools; to assist students in becoming test-sophisticated, and to strengthen skills of students interested in a dental career.

THE ALLIED HEALTH CLUB

The Allied Health Club is designed to provide these professional students with organizations for their specific needs. This club enables students interested in physical therapy, pharmacy, medical technology, physicians assistance, occupational therapy, optometry, dental hygiene, medical record administration, and public health an opportunity to learn about their chosen professions.
The Chemistry Department is an American Chemical Society (ACS) accredited program that has multimedia-equipped classrooms, modern laboratories, and state-of-the-art instrumentation to support teaching and research in chemistry and allied fields. Our faculty members have specializations in analytical, environmental, inorganic, organic, physical, biochemistry/computational chemistry, and material sciences. Most of our students continue in chemistry-related fields after graduation, often attending graduate schools in chemistry, biochemistry, or medicine, or pursuing careers in industrial research or the biomedical sciences.
The Department of Chemistry offers undergraduate degrees in:

**Traditional Chemistry**

This program is designed for students who plan to be professional chemists and pursue graduate studies in chemistry.

**Biomedical Science**

This program is designed for students who plan additional study toward the M.D., D.D.S., or D.V.M. degrees. It is also suitable for students interested in medical or biomedical research as well as for those who plan to pursue a graduate degree in the biochemical or biomedical areas.

**Forensic Science**

This option is for students interested in a career in crime laboratories, drug enforcement agency, food and drug administration, and other related agencies.

The department offers graduate degrees in:

**Master of Science**

The Department of Chemistry offers research-based M.S. degree programs in the following focus areas:

- Analytical Chemistry
- Polymer Chemistry
- Biochemistry
- Materials Chemistry
- Organic Chemistry

*M.S. candidates are expected to successfully complete 24 credit hours of course work, including 20 credit hours from graduate-level chemistry core courses and 4 credit hours of elective graduate level courses. In addition, candidates must complete 6 credit hours of intensive research, leading to thesis report in the chosen discipline.*
PVAMU Chemistry Club

The PVAMU Chemistry Club serves undergraduate and graduate Chemistry majors, chemistry minors, as well as students interested in chemistry. The club is designed to promote an environment that encourages more students to pursue chemistry as a major and to facilitate mentoring relationships between the chemistry department faculty and its students.
The Department of Languages and Communication offers students a liberal arts education, both on the main campus in Prairie View and at the Northwest Center in Houston, emphasizing the acquisition of language and communication skills in English, Spanish, Arabic, and Chinese, as well as advanced knowledge of media techniques.
The Department of Languages and Communication offers Bachelor of Arts degrees in:

- Communication, concentration in Mass Communication
- Communication, concentration in Communication Studies
- English, concentration in teacher certification for English Language Arts and Reading 7-12

The department also offers several academic minors:

- Communication (18 credit hours)
- English (18 credit hours)
- Spanish (18 credit hours)
- Humanities (18 credit hours)

The department prepares students for a broad range of careers in teaching, professional writing, interpersonal communication, public relations, and media production technologies.
The Department of Languages and Communication’s
Honor Societies and Student Organizations
National Honor Societies

The Department of Languages and Communication has chapters in four national honor societies.

LAMBDA PI ETA FOR COMMUNICATIONS

The official honor society of the National Communication Association (NCA), LPH recognizes, fosters, and rewards outstanding scholastic achievement in communication studies.

SIGMA TAU DELTA

Sigma Tau Delta confers distinction for high achievement in English language and literature in undergraduate, graduate, and professional studies and fosters all aspects of the discipline of English, including literature, language, and writing.

SIGMA DELTA PI FOR SPANISH

Founded in 1919, Sigma Delta Pi honors those who attain excellence in the study of the Spanish language and in the study of the literature and culture of the Spanish-speaking peoples and honors those who have made the Hispanic contributions to modern culture better known in the English-speaking world. The honor society encourages college and university students to acquire a greater interest in and a deeper understanding of Hispanic culture and fosters friendly relations and mutual respect between the nations of Hispanic speech and those of English speech.

ALPHA MU GAMMA FOR FOREIGN LANGUAGES

Alpha Mu Gamma honors students for outstanding achievement during their first year of foreign language study in college.

Clubs and Organizations

The Department of Languages and Communication has an award-winning intercollegiate debate team and an active student chapter of the National Association of Black Journalists (NABJ).

- PVAMU TV
- PV U-KNO
- The Panther Newspaper
The Department of Mathematics offers undergraduate degrees in:

Mathematics

The Department of Mathematics offers an innovative and comprehensive undergraduate Bachelor of Science in Mathematics degree program. The curriculum is rigorous and demanding but flexible enough to allow students to sample several disciplines or focus on a particular interest within the major area. Mathematics majors may select one of three emphasis options: statistics, applied mathematics, and mathematics teaching.

Mathematics with Secondary Teacher Certification Track

The Mathematics major with Secondary Teacher Certification option is one of the degree programs offered by the Department of Mathematics. This degree track prepares future mathematics high school teachers by providing them specialized content necessary for them to succeed in the teaching profession.
Through interdisciplinary programs, experiential learning opportunities, and research partnerships, the Department of Mathematics is an innovative force in undergraduate education.

Our curriculum equips students with critical thinking, analytical skills, and high-quality mathematics content knowledge, and prepares them to make an impact on the global community.

- The Department of Mathematics also offers scholarships to those who join our family as mathematics majors. Hence, the department tries to help mathematics majors with their educational expenses.

- Upon receiving their degrees, Mathematics alumni have entered many career industries such as educational institutions, government, military, and NASA.

- We take pride in housing a number of faculty members who are among the top teachers and some who are among the top internationally known researchers and publishers. The department takes pride in the number of quality papers and books and publications. The attributes of these faculty members make the degree programs high-caliber.
The Department of Music and Theatre

The Music Program accredited through the National Association of Schools of Music offers curriculum in music education, general music studies, and music performance. The curriculum in the all-level music teacher certification is intended for those seeking careers in music teaching, general studies is designed for those seeking a broad-based education in music, and music performance prepares students for a career in performance in their respective performance area.
The Music Program offers undergraduate degrees in:

**Bachelor of Arts EC-12 Teacher Certification**
- Instrumental/Piano Degree Plan (Music EC-12)
- Vocal Degree Plan (Music EC-12)

**Bachelor of Arts in Music General Studies**
- Instrumental/Piano Degree Plan (General Studies in Music)
- Vocal Degree Plan (General Studies in Music)

**Bachelor of Arts in Music Performance**
- Instrumental Degree Plan (Music Performance)
- Piano Degree Plan (Music Performance)
- Vocal Degree Plan (Music Performance)

Prairie View A&M University is proud to be designated as an All Steinway Institution. PVAMU is the 4th HBCU to receive this title. Only 185 schools in the world have received this distinction.
The goal of the Theatre program is to educate and empower students to reach their full potential as artists and individuals. Students have the opportunity to explore their potential as actors, directors, designers and techs, stage managers, playwrights and pre-scholars, and to go wherever their inspiration, dedication, and abilities may lead.

The curriculum and program activities are designed to support students who have multiple interests in theater. Students are prepared academically and artistically for a broad range of careers in professional theater, graduate school, or jobs in education, public relations, and communications.
Alumni have successfully pursued graduate degrees and enjoy a broad range of careers as professional actors, educators, directors, designers, theater administrators, and more.

Charles Gilpin Players

Troupes and Groups

CGP Troupes

- **Social Justice Troupe (CenterStage R.A.G.E.)**
  Raising Awareness & Gaining Equality, this ensemble develops and tours issue-based, socially relevant performances using art as activism.

- **Inspiring Faith (I.F.)**
  An ensemble that creates and tours shows with messages of hope and peace to inspire audiences to be proactive in bringing positivity to their lives and communities.

- **Musical Theatre Troupe (M.U.S.I.C.)**
  An ensemble of “Musicians Using Song In Character” that performs standard and classic musical theater numbers as well as new and original musical works.

- **Gilpins Improv Group (G.I.G.)**
  An ensemble that specializes in performances and entertainment using theatrical improvisation techniques and audience interaction.

CGP Groups

- **Alpha Psi Omega**
  Gilpins who are members of the PVAMU chapter of the national honorary society in theater.

- **The Theatre Journalists**
  Theatre majors who write, edit, and compile the Gilpin Guild Newsletter.

- **The Production Group**
  Theatre majors who are interested in the business aspect of theater including stage management, box office, house management, and public relations.
The Department of Physics prides itself on “Stimulating the minds of today to become the innovators of tomorrow.” The department is part of the Texas Physics Consortium, nine Texas institutions that together offer the Bachelor of Science degree in Physics.
The department has three major goals:

1. Provide a firm foundation in physics for those pursuing careers in areas such as biology, chemistry, computer science, dentistry, engineering, the medical sciences, mathematics, and teaching at primary and secondary levels.

2. Strive to equip students with the ability to model the world and make measurements, understand the natural order of things.

3. Prepare the outgoing graduates with skills for posing and solving a wide array of problems while incorporating available technologies and reporting the results of such work.

The Physics program offers undergraduate degrees in:

- **Physics with curriculum in Physical Science and Physics**

  The Physics program has fully equipped state-of-the-art laboratories, the Physics Learning Center (for undergraduates), and the Science Education Laboratory (for high school students and teachers). Both provide technology-based learning environments that enhance the Physics in-classroom curriculum.

**Physics Honor Societies**

**SIGMA PI SIGMA**

Sigma Pi Sigma is the official Physics Honor Society at PVAMU. Society of Physics Students serves students with an interest in Physics.
The Department of Psychology is committed to excellence in education, training, research, and service. Our goal in the Department of Psychology is to assist in the understanding of human behaviors and to increase knowledge and skills of students by conducting research related to psychology.

Bachelor of Science in Psychology

The College of Arts and Sciences offers undergraduate courses leading to the Bachelor of Science (BS) degree in Psychology. The psychology curriculum is designed to prepare a pathway for students to enter their chosen area of psychology specialization. Students are closely advised to help them make knowledgeable decisions regarding their professional direction. The rigorous nature of this program will assist students in being nationally competitive in the workplace and for graduate school admission.

Master of Science in Juvenile Forensic Psychology

The primary objectives of the Master of Science degree in Juvenile Forensic Psychology are to:

- Enhance students’ knowledge of how psychology interacts with the law and the legal system
- Increase students’ knowledge of theoretical explanations of juvenile delinquency, juvenile crime, and juvenile aggression, especially from the viewpoint of psychological theories
- Provide students with skills in research methodology and statistics
- Enhance students’ knowledge of the cognitive and personality development of youth especially as it pertains to aggression in various stages
Enhance students’ knowledge of the psychological dynamics of family violence such as child abuse, spouse abuse, incest, and other forms of inter-familial violence

Provide students with knowledge and skills pertaining to the assessment, classification, and treatment of juvenile offenders

Provide students with skills in psychological assessment and evaluation

The Masters of Science in Juvenile Forensics Psychology requires the completion of 36 semester credit hours. Two options are available: thesis and externship. The thesis option is designed for students interested in research and a Ph.D. The externship option is designed for students who desire to work in the field of forensic psychology.

Ph.D. degree in Clinical Adolescent Psychology

We embrace the cognitive-behavioral orientation, and believe people must be understood within their myriad and intersecting contexts (e.g., race, gender, sexual orientation, age, cultural background). The program operates according to a scientist-practitioner model based on the premise that there is synergy between the practice and science of psychology. Thus, the science and practice of psychology are integrated throughout our curriculum.

The objectives of the program are to educate students about:

1. issues that presently define the knowledge base in clinical psychology
2. clinical skills needed to become ethical and competent practitioners
3. processes of learning and problem-solving that will be needed regardless of their professional career path

Additionally, depending on their particular career trajectories, students may take elective coursework or practice to augment their clinical and/or research skills. Our faculty approach clinical work from a variety of theoretical perspectives including cognitive-behavioral, psychodynamic, and emotion-focused. At graduation, our students are prepared to work in academic, research, and practice settings.

To view the application process for the Ph.D. degree program visit catalog.pvamu.edu or contact Dr. Camille Gibson at cbgibson@pvamu.edu or (936) 261-5205.

Clubs and Organizations

- PVAMU ABPsi Student Circle
- Psi Chi Psychology National Honor Society
- Psychology Club
The Prairie View A&M University Psychology Training Clinic is a not-for-profit mental health facility that was established in 2008. The Clinic is a teaching, training and clinical research center affiliated with the PVAMU Department of Psychology. Within this setting, a variety of mental health care services are provided, including individual (child, adolescent and adult), couples, families and group psychotherapies, a broad range of psychological assessments, as well as mental health consultation to physicians, other mental health facilities, and community-area schools.

Services are provided by two categories of clinicians:

1. Clinical Adolescent Psychology Doctoral Program graduate students (referred to as Clinician Trainees) in the Department of Psychology, whose service delivery is supervised by Texas Board licensed clinical psychology clinic faculty members.

2. The Department of Psychology faculty members who are either licensed or supervised by Texas Board licensed clinical psychologists. All student and faculty mental health service providers are, hereafter, referred to as “Clinicians”.

PSYCHOLOGY TRAINING CLINIC
Prairie View A&M University Psychology Training Clinic services are provided to the following:

1. Members of PVAMU student body
2. The immediate Prairie View community
3. Immediate surrounding communities (e.g., Waller County, Northwest Harris County, Hempstead)

The mission of the Prairie View A&M University Psychology Training Clinic is to provide state-of-the-art empirically-based training to doctoral students who are engaged in mental health services with individuals on the University campus and the immediate Waller county community.
The Division of Social Work, Behavioral and Political Sciences

The Division of Social Work, Behavioral and Political Sciences prepares students for a variety of career options, including urban and regional planning, public administration, communications, international affairs, public policy, law enforcement, social work and human services, and educational and legal services.

- Develops students in the traditional liberal arts skills of critical thinking, analysis, problem solving, and communication.

- Our students acquire depth in a major field by understanding how knowledge is generated, organized, accessed, and given meaning.

- Officer Training Programs allow students to pursue status in United States Armed Forces.
The History program is committed to providing effective instruction and advisement for undergraduate students. The program prepares students for admittance into graduate programs at leading universities and for employment in jobs related to the academic field of history, especially in public education. In addition, the department offers courses for disciplinary focus areas for education majors, interdisciplinary minors, and liberal arts majors.

The Program offers the Bachelor of Arts degree with two emphases:

- U.S. History with a focus on African American history
- Teacher Certification preparation
Political Science

The Political Science program prepares its majors to pursue graduate studies or seek admission to law school, while also preparing them for the competitive job market in both the private and public sectors. The program features well-published scholars and award-winning professors who are trained in the dominant areas of the discipline and engaged actively in the three critical performance areas of teaching, research, and service.

Students in the Political Science program have gone on to careers in law, campaign management, city management/planning, nonprofit management, international service, business, and education.

Social Work

The Social Work program prepares its graduates for successful careers as entry level professional generalist social work practitioners and for advanced study. Accredited by the Council on Social Work Education (CSWE) since 1980, the program has been producing outstanding professional social workers to serve Texas, the nation, and the global community. Our curriculum educates and trains students in the integration of the knowledge, values, and skills needed for competent generalist social work practice.

Bachelor of Arts in Sociology

The Sociology program provides students with a rich learning experience that facilitates the acquisition of specific skills, knowledge, and attitudes that prepare them for public and private service occupations or prepare them for continuing advanced degrees in Sociology or related fields. The program will promote academic scholarship and a commitment to applying innovative solutions to promote the development of communities that serve diverse populations.
The program offers graduate degrees in Arts in Sociology

Master of Arts in Sociology

The Political Science program prepares its majors to pursue graduate studies or seek admission to law school, while also preparing them for the competitive job market in both the private and public sectors. The program features well-published scholars and award-winning professors who are trained in the dominant areas of the discipline and engaged actively in the three critical performance areas of teaching, research, and service.

Majoring in Sociology at Prairie View A&M University provides students with many opportunities to get involved!

SOCIOLOGY CLUB

The society offers community service opportunities and plans and hosts events to raise campus awareness around social issues such as health disparities, gender inequality, and racism.

ALPHA KAPPA DELTA (AKD)

An international society of scholars dedicated to the investigation of humanity for the purpose of service.

SOCIOLOGICAL INTERNSHIP

Sociology majors can complete an internship where they apply their sociological skills and abilities working within local schools, community organizations, and companies.
In addition to the majors offered by the departments within Arts and Sciences, the College offers several Special Minors designed to enrich the learning experience.

The African American Studies minor is interdisciplinary and provides students the opportunity to gain knowledge and understanding of the African American influence on the social, political, cultural, and intellectual development of America. The minor requires 18 semester credit hours. HIST 4213 African American History I and HIST 4223 African American History II are required courses.

The Behavioral and Political Science minor is designed to provide a sound understanding of the basic concepts, assumptions, research methods, and techniques used in the social sciences. Any course taken for their minor may not be used to satisfy other requirements such as a core curriculum requirement or a major or minor requirement. Any combination of 18 semester credit hours with no more than six hours in any one discipline will constitute an integrated social science minor.

Geography is an interdisciplinary field that combines the social sciences and the natural sciences to better understand the world.

The Philosophy special program consists of two philosophy courses within the core curriculum: Critical Thinking which is designed to develop students’ ability to recognize and evaluate arguments; and Ethics enhances the student’s awareness and sensitivity to the perplexity of morality and the moral life.

Any courses from CRJS, ECON, GEOG, HIST, POSC, PSYC, and SOCG may be used to fulfill the minor requirements. Other disciplines may be considered for substitution upon consultation with the Division Head.

The Legal Studies minor is interdisciplinary and prepares students for work in the legal field (e.g., paralegal or law clerk), or post baccalaureate education in the law.
Army Reserve Officer Training Corps (ROTC)

Army ROTC is an elective curriculum interested students take along with their required college classes. It gives students the tools, training, and experiences that will help them succeed in any competitive environment. Along with great leadership training, Army ROTC can pay for eligible students’ college tuition.

Prairie View A&M University has a long and proud tradition of military instruction dating back to 1943. Prairie View A&M is the only Historically Black College or University in the entire state of Texas that hosts an Army ROTC program.
Air Force Reserve Officer Training Corps (ROTC)

Prairie View A&M University has partnered with the University of Houston to offer students the Air Force ROTC program. All majors are welcome, and students will become commissioned in the USAF after graduation; Classes are held at University of Houston - Main Campus; Over 120 officer career fields; Field Training (4 weeks) for leadership skills development, usually attend the summer between the sophomore and junior years.

Naval Reserve Officer Training Corps (NROTC)

The Prairie View A&M University Naval ROTC unit was established in March 1968. The unit maintains a proud legacy as the first Naval ROTC unit established at a Historically Black College or University and has produced three Flag officers to date: Vice Admiral David Brewer III, Rear Admiral Osie Combs, Jr., and Rear Admiral Kelvin Dixon.

The Naval Science Department consists of active duty Navy and Marine Corps personnel and civilian administrative assistants dedicated to producing mentally, morally, and physically sound officers of the highest quality for the Navy and Marine Corps.

Naval ROTC Midshipmen join the unit as recipients of either a 4-year National Scholarship, a Minority Serving Institution Scholarship Reservation Scholarship, a Frederick C. Branch Scholarship, or as college program candidates seeking 3-year or 2-year scholarship opportunities.

FRESHMAN ADMISSION

- Completed ApplyTexas application at www.applytexas.org
- Nonrefundable $40 application fee
- Official high school transcript. Distinguished, Recommended or Foundation with Endorsement High School Program, or GED certificate with a Minimum GPA: 2.80 on a 4.0 scale
- Official SAT/ACT Test Score: Minimum scores: 710 SAT (Critical Reading and Math) or 800 SAT (Total Score) or 15 ACT
- The following STAAR scores are required: English I/Reading and Writing, English II, Biology, Algebra I, and United States History

TRANSFER ADMISSION

- Completed ApplyTexas application at www.applytexas.org
- Nonrefundable $40 application fee
- Official transcripts from all institutions attended
- Transferring less than 15 semester credit hours will require the student to satisfy regular freshman admissions requirements
- Required 2.0 cumulative GPA on a 4.0 scale

SCHOLARSHIPS, GRANTS, AND LOANS ARE AVAILABLE FOR ELIGIBLE STUDENTS

Scholarships are available for incoming students as well as current students. All scholarships are renewable by maintaining a certain GPA, course load, and/or active enrollment status.
