

PVAMU EXPERT AVAILABLE TO DISCUSS HOW CLIMATE CHANGE DISPROPORTIONATELY AFFECTS MINORITIES

PRAIRIE VIEW, Texas (April 21, 2022) – Prairie View A&M University's Endowed Professor of Water Security and Water Energy Food Nexus Ali Fares, Ph.D., is weighing in on the global conversation of climate change as we approach Earth Day.

Fares' unique opinion details how minority communities are more negatively impacted by climate change than other communities and what PVAMU researchers and students are doing to help alleviate its effects.

Dr. Fares has decades of experience in the adaptation and mitigation of climate variability. His most recent work includes being selected as an author for the Fifth National Climate Assessment as part of the United States Global Change Research Program. He also serves as the editor of the Water Security Book Series.
