President

Re: Confirmed positive case of COVID-19

Date: July 6, 2020

We have been informed that an undergraduate nursing student participating in a clinical practicum at Houston Methodist in the Texas Medical Center has tested positive for COVID-19.

This individual was last engaged in practicum experiences on Sunday, July 1, 2020, and is currently quarantined. Staff members and students who were in contact with the affected student have been notified in accordance with PVAMU's policy and guidance from the Centers for Disease Control and Prevention (CDC). If you were not contacted, you are not at increased risk. We wish the student a full recovery.

We encourage our campus community to continue following the [CDC](https://www.cdc.gov) guidance to help prevent the spread of the disease. Visit the university's COVID-19 Update web page for current information about the impact of the novel coronavirus on our campus community.
