## MEMORANDUM

To: PVAMU Campus Community

From: Ruth J. Simmons   
President

Re: Confirmed positive cases of COVID-19

Date: July 11, 2020

We have been informed that an employee from the Procurement and Distribution Services Office as well as a student worker in the Department of Electrical and Computer Engineering have tested positive for COVID-19.

The employee was last on campus in the W.R. Banks Building on July 8, 2020 and the student worker was last on campus in the Roy G. Perry Engineering Complex on July 9, 2020. Both are currently quarantined. Faculty and staff who were in contact with the affected individuals have been notified in accordance with PVAMU's policy and guidance from the Centers for Disease Control and Prevention (CDC). If you were not contacted, you are not at increased risk. We wish them a full recovery.

We encourage our campus community to continue following the [CDC](#) guidance to help prevent the spread of the disease and to report all positive cases to the PVAMU COVID-19 Hotline at 936-261-9000. Visit the university's COVID-19 Update web page for current information about the impact of the novel coronavirus on our campus community.
