Re: COVID-19 Positive Contact

Over the weekend, through our campus COVID-19 case management process, it was reported that two individuals who tested positive for COVID-19 attended the President's holiday social. Therefore, we are asking all individuals who attended the social to do the following:

- Monitor yourself for symptoms,
- Get tested, and
- If you test positive for COVID-19, self-report using the appropriate self-reporting form.
    - Employee Self-Reporting Form
    - Student Self-Reporting Form

This announcement is not to create alarm but simply to notify individuals of the potential risk. Resources are still available to the campus community throughout the break including the COVID Hotline and Curative Kiosk.

COVID Hotline Winter Break Operational Schedule
- Monday – Thursday   8am – 5pm Closed from 12noon – 1pm for lunch
- Friday – Sunday   8am -12pm
- **Closed for the Holiday** - December 24- 25, 2021 & December 31, 2021 – January 1, 2022

Curative Winter Break Operational Schedule
- Monday – Friday   8am – 4pm
- **Closed for the Holiday** - December 24- 25, 2021 & December 31, 2021 – January 1, 2022

To make an appointment for testing using the kiosk, please use this link: PVAMU Curative Kiosk. While the window to be fully vaccinated before the holidays has passed, vaccinations are still the best defense for individuals in preventing serious illness from COVID-19. Vaccination sites can be located using www.vaccines.gov.

With the rise in COVID-positive cases locally and within our campus community, we want to remind everyone to stay vigilant. Please be sure to be mindful if and when gathering, get tested when symptoms warrant or upon notification of a close contact exposure and stay home when ill. As a reminder, students and employees are required to report any positive test result or contact with a confirmed positive.
