

PRAIRIE VIEW A&M UNIVERSITY Health Services

January 20, 2022

To: Prairie View A&M University Campus Community

Fr: Dr. Tondra Moore, Executive Director of Health Services 

Re: Spring 2022 COVID Updates

Greetings Panthers! Once again, we find ourselves returning to campus with rising COVID cases and increased concerns regarding how to stay safe. Therefore, please use this as a brief update and use www.pvamu.edu/coronavirus for more detailed information.

Isolation & Quarantine

10 days through the end of January
The policy will be reevaluated at the end of January.

Reporting Cases & Contacts

Use the self-reporting forms (www.pvamu.edu/coronavirus/selfreporting) to report positive test results from on-campus and off-campus facilities.

Students – you **must report within 48 hours** of notification to be included on the Academic Affairs faculty notification list. Once you have completed isolation/quarantine, schedule a COVID Clearance appointment with Student Health Services.

Employees – you are **required to communicate with your supervisor** regarding remote work options. Once you have completed isolation/quarantine, complete the Employee COVID Clearance Form.

REPORT POSITIVE CASES & ON-CAMPUS CONTACT WITH A POSITIVE CASE ONLY.

To be compliant with state laws prohibiting contact tracing, the COVID Hotline will only engage in case management for students and employees who test positive or are exposed by an on-campus COVID positive case.
