

eCourses FAQ – Quick Submit of ePortfolio Assignments

ePortfolio is a powerful application used to store, organize, and share course activities and assignments that represent the student learning activities. The following items can be included in ePortfolio to reflect a student's personal learning journey:

- Word, Excel and PowerPoint documents
- images or graphics
- audio or video

Student can share achievements, knowledge and reflections with peers, advisors, and potential employers.

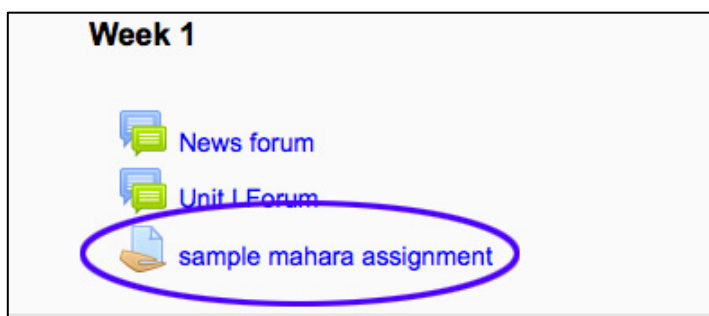

Quick Submit of an ePortfolio assignment is a 3-step process:

1. Accessing the assignment in eCourses
2. Uploading content to ePortfolio
3. Submitting the Page to eCourses

Accessing ePortfolio Assignments

Before submitting an ePortfolio assignment, access the assignment through eCourses.

1. The assignment can be accessed in one of two ways:
Click the assignment link (also known as "dropbox") from the Topic or Week on the course page (see figure below);

Or

Click the **Assignment (2.2)** link from the **Activities** block in the upper left hand area of the course page (see figure below)

- ii. Click the desired assignment link from the list of assignments (see figure below)

This link opens the ePortfolio (Mahara) system. **Important Note! This link may not be bold or underlined. You may have to move your mouse over those words to see that they are a link.**

Uploading Content to ePortfolio (Mahara) system

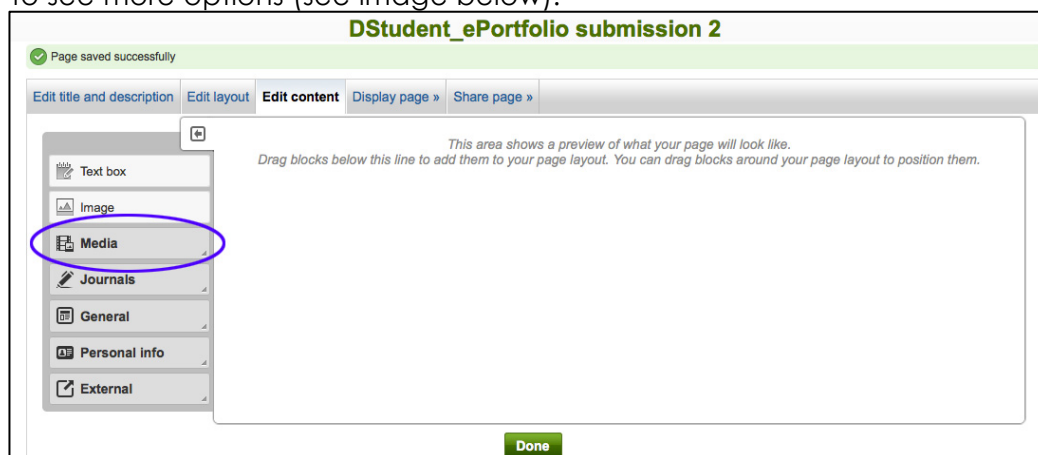

After clicking the **click here to visit ePortfolio** link as shown on the previous page, the dashboard tab in Mahara displays as shown below. Some ePortfolio assignments will require the upload of a file for submission. Others may require the content to be created within Mahara. The steps below outline the process of uploading content.

1. Begin by picking the **Portfolio** tab.

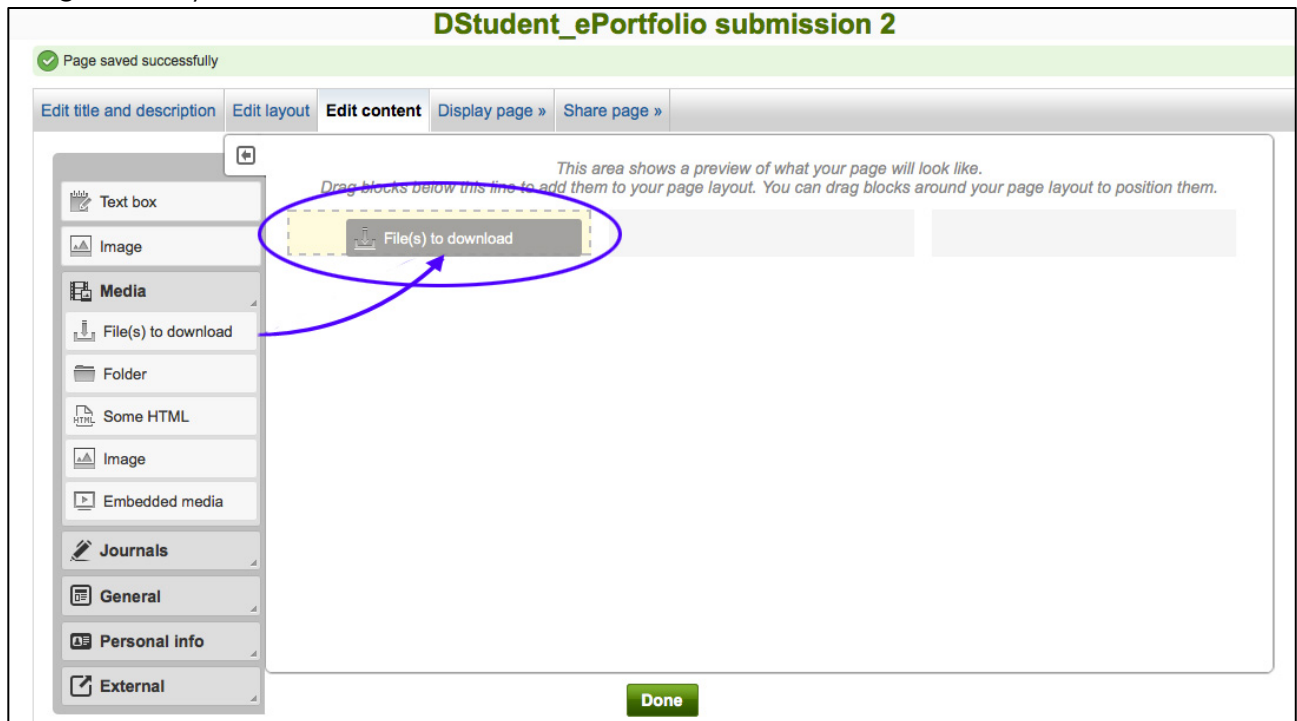

2. From the **Pages** tab, click the **Create Page** button (shown above).
Note: The example here will be to add a file.
3. Clicking the **Create Page** button opens a screen with 5 tabs. The first tab that appears is **Edit Title and Description**. Use this tab to give the Page a unique name. The description is optional, but the title is important. Without a title, the Page is automatically titled "Untitled" and will be difficult to identify when it is time to submit it. After adding a title, click the save button at the bottom of the page.
4. After saving the title, the **Edit content** tab will be displayed. Click the **Media** button on the left to see more options (see image below).
