

## CNSL 5203-Drugs & the Individual Case Study

### DRUGS AND THE INDIVIDUAL

Element	Levels of Performance		
<p>1. The paper should explicitly use course content to develop an assessment, treatment and follow-up plan for an individual with a substance abuse disorder. In your paper: (a) describe and critically analyze the assessment process, tools, and results of an individual assessment in your field.</p>	<p>__ Target(3) The paper has all of the following components that are fully developed and include all of the required information: (a) describe and critically analyze the assessment process, tools, and results of an individual assessment in your field.</p>	<p>__ Acceptable(2) The paper has at least three of the following components that are fully developed:</p>	<p>__ Unacceptable(0-1) The paper has at least one of the following components but the other areas are not fully developed: (a) describe and critically analyze the assessment process, tools, and results of an individual assessment in your field.</p>
<p>2. The paper should explicitly use course content to develop an assessment, treatment and follow-up plan for an individual with a substance abuse disorder. In your paper: (b) critically analyze your application of course content to a client treatment plan that you personally complete.</p>	<p>__ Target(3) The paper has the following component that is fully developed and include all of the required information: Critically analyze the application of course content to a client treatment plan that is personally complete by</p>	<p>__ Acceptable(2) The paper has at least some of the following components that are fully developed: Critically analyze the application of course content to a client treatment plan that is personally completed by the student</p>	<p>__ Unacceptable(0-1) The paper does not include this component: Critically analyze the application of course content to a client treatment plan that the student personally complete.</p>

	<p>the student.&lt;/p&gt;</p> <hr/> <hr/> <hr/>		
<p>3. &lt;p&gt;The paper should explicitly use course content to develop an assessment, treatment and follow-up plan for an individual with a substance abuse disorder. In your paper: (c) Design, describe and analyze an aftercare plan for this individual. &lt;/p&gt;</p>	<p>__ Target(3) &lt;p&gt;The paper has the following component that is fully developed and include all of the required information: &lt;/p&gt;&lt;p&gt;Design, describe and analyze an aftercare plan for this individual. &lt;/p&gt;</p>	<p>__ Acceptable(2) &lt;p&gt;The paper has at least some of the following components that are fully developed: &lt;/p&gt;&lt;p&gt;Design, describe and analyze an aftercare plan for this individual. But it is superficial and does not address all of the client issues.&lt;/p&gt;</p>	<p>__ Unacceptable(0-1) &lt;p&gt;The paper does not: &lt;/p&gt;&lt;p&gt;Design, describe and analyze an aftercare plan for this individual. At the end of your paper, &lt;/p&gt;</p> <hr/> <hr/> <hr/>
<p>4. &lt;p&gt;The paper should explicitly use course content to develop an assessment, treatment and follow-up plan for an individual with a substance abuse disorder. In your paper:  (d) At the end of your paper, attach tools or instruments and other measurement items designed and/or used. &lt;/p&gt;</p>	<p>__ Target(3) &lt;p&gt;The paper has all of the following component that is fully developed and include all of the required information: &lt;/p&gt;&lt;p&gt;Tools or instruments and other measurement items designed and/or used in the assessment. &lt;/p&gt;</p>	<p>__ Acceptable(2) &lt;p&gt;The paper has at least some of the following components that are fully developed: &lt;/p&gt;&lt;p&gt;Tools or instruments and other measurement items designed and/or used in the assessment. &lt;/p&gt;</p>	<p>__ Unacceptable(0-1) &lt;p&gt;The paper does not: &lt;/p&gt;&lt;p&gt;Attach tools or instruments and other measurement items designed and/or used in the assessment. &lt;/p&gt;</p> <hr/> <hr/> <hr/>
